

Working With or Against God?

vi. 8; Matt. xxv. 30; I. Cor. iii, 10-12; 2; Matt. vii, 25; Isa, xxviii, 17; Rom. li. 7: I. Cor. xv., 52; Philip. ii., 10; John, xvii. 3: Matt., xxii., 14: Acts. i., 8: Rom. xvii. 3: Matt., xxii., 14: Acts. i., 8: Rom. xvii. 3: Luke xi., 23: Isa. vivi.: Eph. iii.: x., 14: Luke xi., 23: Isa. vivi.: Eph. iii.: lsa. viii., 13: Zech. iv., 6; Luke. xi., 13: itom. viii., 8: John iii., 3-8; Luke xvi.: Micah, xi., 6: 4.

Each some influence doth wield, That unto him the future Shall a certain harvest yield; He that soweth to corruption Must, by law, corruption reap; He that useth not his talent Shall in outer darkness weep.

Gold or stubble are you building? Precious stones, or wood, or hay! Will your work endure the fire Of the coming trial day? Are you on the sure foundation Jesus Christ, the tested stone, Mighty Rock of all the ages led up to Him alone?

When the winds and floods have risen, Raging fiercely through all lands, Woe to them whose building standeth On unstable, shifting sands; On the sands of wealth or power Human favor, human creed; Naught have these availed the builders In the time of dire need.

If on Christ you stand, your safety is assured you by the Lord, But if refuse you are building, You will lose a great reward; *Changeless stands the Great Foundation "As in shadow-temple shown, But all works of pride and error Shall completely be o'erthrown.

Riughteeusness shall be the plummet, Judgment just shall be the line, Perish shall all chaff an error, In the fire of truth divine; Retribution bath no terror, For the ones who serve their Lord, Glory, honor, incorruption, Life eternal their reward.

"In Christ" God designs to gather All in earth above, below, To be "in Him" recreated "Everyone the Lord shall knew;" Tis eternal life to know Him, Tis salvation to obey; God in Christ was manifested As the life, the truth, the way.

You are called to help the glorious And most blessed conquest on, To be beacons in the darkness Where the light has never shone; Unto souls that have not known Him, Who are groping still in night, You are called, you are commanded, To be unto them a light.

Witnesses for Christ, the Saviour Glorious privilege to be; Make deaf souls to hear Christ's message, Make blind souls their Saviour see, Members of the Christ exalted, Feet to follow far and near, Hands to help and tongues to teach them, liow without you shall they hear?

And except they hear, how shall they On the Lord of life believe? Ought we not to give as freely As of Christ we did receive? If not gathering for the Saviour You are scattering abroad; Yet the work will be completed, For all-powerful is God.

Not by might, not by an army, Can this victory be won, But by spirit of Jebovah Who hath willed it shall be done, Claim the promise of the Father, Ask His gift of life so free; Not until then can you obey Him Nor for God a worker bo.

In the day of compensation, Resurrection of the just, There shall be to each requital For the work He did entrust; Will you stand before Him gladly Having labored for Him here? Or yield up your unused talent To depart to darkness drear?

Will you be among the number Who like Dives plead and weep When excluded from Christ's kingdom By the chasm wide and deep? Now why should you? For God's platform is exceeding plain and broad,-"Love ye justice, practice mercy, And walk humbly with thy God. "It is said that the foundation stones Solomon's temple have never been disturbed. God's covenant stands unchanged.

(Written in 1994.) Prayer Encouragement.

(By C. H. Wetherbe.) been made for many years to show that | voice express these harmonious sounds. . God answers human prayer, and also to set forth the utility of prayer. But it is worthy of note that there is no set argument in the Bible in favor of prayer. There is, however, very much encouragement given in the Bible to all people to pray, and to oray continually. This is a great deal better than mere argument. One answer to prayer does more to encourage a person of weak faith to pray than all argument can do. When one person goes to another one and asks him for a much needed favor, and promptly receives it, he is thereby encouraged to again go to that one for some benefit, and the second successful asking gives a still greater encouragement. It is very much so in reference to the examples of successful praying which the Bible gives. In the New Testament are examples of answered prayer, which are quoted from the Old Testament, and one reason for it seems to be for the encouragement of the readers to keep on praying, even under the most discouraging conditions. It is stated that Elijah was of the same nature that believers in New Testament times were, and he prayed that it might not rain, and for three and a half years it did not rain; then he prayed for rain, and it came. That fact was quoted as a mighty encouragement to the praying ones, not only in apostolic times, but in all succeeding times. And call to mind how often Christ, by exhortation, by parable, and by His own example, encouraged His followers to pray. Think of His picture of the widow and the unjust judge. It is especially adapted to the cases of great discouragement, because answers to prayer seem to be long delayed. It applies to those who think that it is use less for them to longer pray for a certain thing, or for anything. Christ encourages such ones by saying that some things will not be received by the praying ones until they have persistently besought God when everything seems to be against them. Remember the fact that Satan does all that he can to discourage Christians from praying, and Christ does all that he can do to give them the greatest encouragement to

WITH NECK IN THE HALTER.

How Criminals Are Led Out to be Publicly Beheaded in India.

The decision as to whether the murderer should be executed or imprisoned for life was, says a correspondent in describing an execution at Hyderabad of a Pathan who had shot his brother-inlest, as is usual, left to the murdered man's relatives, and his wife, the sister of the murderer, voted for death.

On the day of the execution there appeared in the streets a band of sweepers armed with leafy twigs, followed by a squad of the city Arab police with fixed bayonets. Then came the criminal, dressed in new white garments, with a new halter around his neck and new ropes attached to his arms. The ends of these ropes were held by policemen. The ordinary thing is for the condemned man to walk, but in this case he was so overcome that he had to be conveyed in a

jutka.

On arriving at the fatal spot the murderer was made to alight and kneel down while the policeman handed over charge of the cords to the executioner's attendants, one of whom, seizing the end of the halter, stood in front of the felon, while others held the cords pinioning his arms behind. The executioner, brandishing a broad, heavy sword, keen as a razor, in a suggestive fashion and prancing up toward his victim asked three times in a loud voice: "Who authorizes the execution?" The chief of the More Successful Than Her Male Comcity police on duty thrice replied: "The

WRITES THE BIRDS' MUSIC.

Government Expert Records Tones Heard in the Wildwood.

Henry Oldys, assistant biologist in the department of agriculture, has 1,000 samples of bird music written in popular form so that it is possible for the human voice exactly to imitate the songsters of the field and the forest. He has recorded the actual tones, setting them in the proper musical key, and their reproduction is easy for anybody who can read musical symbols.

Mr. Oldys has been gathering bird language for thirteen years, and during commotion and she nearly always makes most of that time has been devoting good. his expert knowledge of the subject to "She walks gracefully up to where the official reports which find their way in large groups of salesmen are standing the government archives. He has ex- and inquires of the first one handy: "Is tended the work of other eminent natur- Mr. K. in to-day?" alists and to-day is foremost among "'No,' the salesman addressed will rethose who have made a study of this ply.
