ROMANCE OF NOTED MUSICIAN.

A certain amount of romance surrounds the life of every artist, but the romance of Marie Hall reads like that of troubles a story book heroine. Born in a small Miss Hall's father had considerable

ability as a musician, and at one time played in the orchestra of the Carl Rosa Opera Company, but he evidently had more talent than application and weighed down with the strenuous necessity of providing food and raiment for a growing family, he stepped backward rather than forward in his musical career. At his home, however, musicians were wont t oassemble, and these were the brightest moments in Marie Hail's childhood. There were several harpists in the Hall family, and it was intended that Marie should also learn this instrument. When still scarcely able to talk plainly she was accordingly set to practice on the huge instrument, which seemed but brutal, neath her tiny fingers. She wanted to learn the fiddle, but the wish was not encouraged till, having slyly practised some few pieces to surprise her father, there was no longer doubt of the fact that the little girl was divinely gifted in this direction. The surprise was complete, and from that moment the cause of such an unusual summons, besides grown weary of his old flames, la grippe which left me a sufferer from headaches and pain in the stomach.
