As occasion offered he mentioned the matter to certain of his tenants, but they the waist and the bib jumper. In makwere influenced by a natural conservative ing up the gown it would be wise to instinct and end not at first act on his hints. have at least two waists to wear with it, and two or more jumper bibs. One of the waists might match the skirt, and the other migh be of sheer India linen or all-over lace. When the waist that matches the skirt is worn, then the bib jumper may be of some other material. For instance, if the waist and the skirt are made of dark blue cotton voile, the bib jumper would look attractive in allover lace; and then again, if an entirely different sort of a dress was wanted, the skirt and the bib jumper could be made of plaid mercerized Madras, and the waist be of all-over embroidery or linen. The jumper in this frock is slipped on over the head, and is made with tabs at the back and front which button onto the belt.-Grace Margaret Gould in Woman's Home Companion for

If marriage is a lottery, alimony must be a gambling debt.

Kouropatkin takes up a lot of space to explain that the Japanese won because they were more patriotic and fought more valiantly than the Russians.

This giving of millions in gifts to educational institutions is very good in its way, but if some of our millionaires would give freely of their wealth to the work of hunting down the causes and finding cures for cancer and consumption they might confer a boon on humanity.

Rumor has it that Prof. Osler will quit Oxford to become Dean of McGill medical faculty. There is as yet no official confirmation of the rumor, but gossip has it that Prof. Osler finds Oxford a pretty quiet berth, and it is possible that the rumor of the change may be

A war on whiskers has begun. The Southern California Veterinary Association at Los Angeles the other day resolved that all dairymen should dispense with all hirsute adornments of the face, and the health experts throughout the State of Kansas have taken the matter up, and propose more radical reforms than did the veterinarians of California. The Kansans hold that no one wearing a beard should be allowed to assist in the preparation of any food, as they believe that whiskers are the hiding place of ali that blows nobody good, and this reform will no doubt boom the barber trade.

The U. S. Government is to make another effort to break up the operations of certain padrones who have for several years been engaged in the traffic of importing Greek boys, who are held for long periods in what is said to amount to absolute slavery. These boys are largely employed as bootblacks in shoe-shine parlors, and are said to practically work for nothing besides their keep for the first year or so. The Greek Government will assist the United States Government putting a stop to this species of

According to the London Tailor and Cutter, there is a probability of fashionable England adopting the kilt! The Daily Graphic in contemplating such a sartorial revolution as the Sassenach in kilts mildly remarks that they "are draughty garments for the months of February and March, but perhaps the idea is that they shall only be worn in the weather in which, as Mark Twain once said, the human skin is the most comfortable of all costumes. While it thinks they are "a step in the direction of the ideal," it laments that they give little scope for the cutter,

There would be fewer murders and attempted murders if people did not carry revolvers or knives on their persons. Rochester judges have realized that for some time, and with a view to put a stop to the practice and lessen the number of murderous assaults, they imposed substantial fines on those found guilty of carrying such weapons. They began with \$10 fines, then raised them to \$25. That did not seem to have much effect, and they made the fine \$50. The other day one of the judges imposed a sentence of fifty days in the Penitentiary, in addition to the usual \$50 fine. It is hoped producing countries of the world, a land that this stiff sentence will help materially to discourage the dangerous habit of going armed in that city. Canada is comparatively free from murders and assaults in the heat of passion, simply because the penalty against carrying concealed weapons has had the effect of making most people go unarmed. The man who carries arms is the one who generally gets into most trouble. Foreigners who come to Canada cannot too soon learn that the stiletto and the pistol are not needed in this country to settle disputes.

A Connecticut physician claims have cured a pneumonia case with an anti-pneumonia serum of which he is the inventor. It would be a great triumph to master pneumonia. Osler declares it to be a self-limited disease, yielding to no medication, and to which only expectant treatment can be applied. A good many physicians decline to subscribe un-The Tablets are sold by billities of the bulbs. As he sauntered about it is correct or not it must be said that it has many good points of the battle is usually one between the box from The Dr. Williams' Medicine Co., "What there was to be done? What there was to be done to the contribution of the bulbs. As he sauntered about it is thus style of dress that will be worn it is to correct or not it must be said that it is no doubt that it has many good points in its favor.
