WON A PRIZE IN ORATORY.—A recent issue of the Guelph Mercury records an oratorical contest under the auspices of the Union Literary Society in which Mr. Thos. H. Binnie, son of Mr. Geo. Binnie, figures prominently. There were five contestants and the Mercury says it was the finest oratorical contest ever held at the College. Mr. Binnie won the second prize, "scoring high in enunciation accent and clearness." We congratulate Mr. Binnie on his versatility, as he has proved himself brilliant by both head and hand in his college career. A promising future is opening before him. The Mercury says: "Next to Mr. Slater came Mr. Binnie with a very clear and logical speech on the Canadian Race question. Referring to the history of the Roman Catholic Church in France, he showed that the difficulty with which the people of France had to contend could never occur with the French speaking portion of the Canadian population. Loye of Church they might have, but the love for their country was greater, and in due time every difference would disappear, and a united nation assert itself in the progress of the world."

DIED. McLEAN.—At his home, one mile south of Priceville, on Tuesday, 12 March, Alexander McLean.

In these days of strife between two great political parties we must remember that after all we are just a band of brothers here on earth, travelling from the cradle to the grave. We live side by side, our children attend the same school and after the smoke of the battle has cleared away, we will still be friends and neighbors. Let the bitter things go unsaid. At best, life is short, and we get out of it a full measure of sorrow. Let us in our little town live as a big, good-natured family.

We still have one or two men in this community who stand around on the street corners and from morning until night complain about the town, their neighbors, their taxes and the weather. Such men are mighty common and it is fortunate we have so few of them. Such men are of no use to the town, their families or their country. They seem to live but no one can tell how. Like mosquitoes and flies, they are not fatal but disagreeable to have about. It is not necessary to publish the names of the two or three who infest this community. They are usually well known.

QUICK WORK.—The children up at the Public School here are being put through a process of drilling these days, to prepare for a speedy exit, in case of a fire. One day last week a time test was made, when it was found that the school could be cleaned out in 40 seconds. As there are upwards of 300 pupils in the school, this is a satisfactory record. In a great many schools throughout the province, the smaller children are located in one of the upper apartments. In Walkerton the smaller children are at down stairs. This arrangement minimizes the danger in case of fire. As an example of what practice will do, one of the schools in Galt with an attendance of 350 was vacated in 50 seconds. Two of the taller pupils are assigned to each door, and these keep open the exits while the rest of the scholars march out three abreast.—Telescope.

TREK INTO CANADA.—A despatch from Omaha, Nebraska, says that "To the Canadian Northwest" is the cry of hundreds of families in Nebraska, Kansas and Iowa, and that the trek to Canada this year, will surpass any similar movement in the history of the west. Already hundreds are on their way, and there are thousands to follow. Most of these Americans have considerable money, and they will soon turn the wild prairies into cultivated farms. Every day two long trains pull out from the union station in Toronto, and the work is only just nicely commencing.

The history of the ballot does not afford a better joke than the last election in Sydenham, as was revealed in the recount at Owen Sound a few days ago. Usually there are some electors who do not think enough of the candidates to vote for either. But it is a rare instance where the individual uses the ballot to express his opinion otherwise than by the regulation cross. One old voter in number three supplied the exception. When counting the ballots his hand was shown by writing after Campbell's "no tam good." The explosion that nearly wrecked the courthouses and the gravity of Judge Hatton's countenance came when under and opposite the name of MacDonald were the words, "no tam better" The joke was worth the recount, and the laugh took a lot of tension off the situation and the ballot was a better revelation of the voter's mind than the regulation mark could possibly have been.—Ex.
