Does God Answer Prayer? (By the Rev. Harold E. Brierley.) "Pray without ceasing."-I. Thess. v

As we read these familiar words, two questions, one an essentially modern question, press for answer-Is this possible? Is it worth while? The answer to both questions depends entirely upon what you understand by prayer.

Many men who believe in God and love God are doubtful concerning prayer. That may seem a contradiction of terms, but I know it is true. And not a few have sought refuge from the difficulty-and provided answer as to the worth prayer-in what is known as the subjective interpretation of prayer. That is to say, they find the whole value of prayer not in any external function, but in the inward effect of it, in its worth to their own souls, in the grace and sweetness and refreshing power of They pray because prayer makes them better and happier men, not because they hold the belief that prayer has any effect

upon God. Now, the difficulty begins to disappear as soon as we look it squarely in the face. Prayer is not an attempt to impose our will upon God's. It is utterly to for inoculating seed will again be sent misunderstand and to misuse prayer to imagine that by prayer we can change the will of the Almighty. No, that is recipients of cultures, through carelessto regard it exactly the wrong way round. Prayer is the changing of our

The secret of prayer is not persuading God to do things, but giving Him the opportunity of doing them. Objectively considered, prayer is giving God the opportunity to fulfil His own will.

But does He need such an opportunity In the outer world, "No." In the inner world-the world of our wills-"Yes." In the world of nature is it not only true that God's will is law, but that law is God's will. There is no jar or hitch here, The song of the universe, set to the rhythm of God's laws, keeps perfect time and maintains unbroken harmony.

Does God answer prayer? Yes, if you really pray. But no man can really pray who doesn't believe that God's will is best. And his prayer is the conscious voluntary act whereby he makes it possible for God's will to be done in him. So we see at once that the true func-

tion of prayer is more than merely subjective, more than simply a gracious, refreshing spiritual exercise. Prayer works. Prayer does things. Prayer reaches up and moves the heavens-not by changing the divine purposes, but by making the divine purposes possible

When a man prays-really prays-he is enabling God to do things that even God could not do apart from his prayer. In this way God does answer prayermarvellously answers prayer.

If He doesn't know best, it is useless to pray to Him anyhow. If He does, then to the man who really prays, whatever is,

is best. The secret of prayer is to be "in tune with the Infinite"; that the man who prays may be a reed swayed by the Spirit of God which yields the harmonies of the spheres. Prayer moves God. God does more than hear prayer. He is moved by prayer; but not to change His will-but to effect it.

Sic Transit Gloria. (By a Banker.)

Once more the spade of the archaelogist has recently brought to light a varied assemblage of relics of the remote past which for thirty centuries have lain shrouded beneath those wind-swept desert sands of Egypt, which have so effectually sealed up and preserved fro mdecay and destruction all through the centuries so many evidences of the might and the advanced civilization of that first worldruling kingdom which has existed on

After a wearisome period of toilsome work the explorers at length struck upon the masonry of some great and important edifice, in due course exposing the principal entrance to the building. In the outer courtyard and vestibule were found a number of superb chariots decorated with embossed leather, with solid gold ornamentations, the handsome de sign upon the leathern shield or front of the chariot being fresh and as bright and sharp as when perhaps a Pharoah rode therein upon some occaziion of state or in some triumphant procession. Numerous other objects of interest were also found in the chamber. In a great inner hall or sepulchral pavilion were several fine and important sarcophagi; the embaimed bodies therein decorated with gold and precious stones; one, the mother of a queen being especially noteworthy for its richness and lavish dis-

play of jewellry. What a strange thrill must have been evoked when, having gained an entrance to a royal palace of a royal mausoleum in which the foot of man had not trod for more than three thousand years, the explorer threads those long dark passages, visiting chamber after chamber in jewelled ornaments, weapons, even rem- cles of the extremities and you fully when entering the sumptuous mortuary chamber and raising the ha of the sarcophagus inscribed with the name of one of the mighty rulers of ancient Egypt, he beholds his regal figure lying there

prine in royal, emblazoned cerements. Aye, and what vicissitudes have taken place in that historic land since the sudden termination of the great Egyptian, in fulfilment of the fiat which had been pronounced that never again should a king rule over Egypt. And notwithstanding her riches, her capabilities, and her resources, that judgment still holds good; and now after two thousand years of vassalage under Power after Power, the British Empire holds sway over the

historic land. And as that Divine fiat has been so fulfilled to the very letter, so, notwithstanding the earping criticisms of those decrees. who would trample the Holy Scriptures in the dust and wrathfully snatch them from our grasp, will all the promises and all the threatenings of the Word of Alimghty God be fulfilled. And when the Great Fulfilment of all takes place, the Great fulfilment of all takes place. then will the righteous—they whose sids are blotted from out the Record by the Redeemer's atonement—shine as the States in the Kingdom of their Father. Stars in the Kingdom of their Father. But alas! what will be the fate of the rest?

Bob Sleighs as Gun Carriages.

A test which may prove of very great importance to the militia of Canada is now going on in Ottawa. It is to prove whether or not in time of war the ordinary bob sleighs which practically every farmer possesses could be used for car rying the ordinary twelve-pound gun in winter. A set of the regular sloop sleighs which are used by the farmers has been built and the gun and seats fixed on the hind sleighs, with the limber boxes on the front sleigh. The outfit will be inspected by Major General Lake, after which it will be forwarded to Kingston, to be tested by the permanent force there.

OLD RIDDLES OF THE SEXES. In a new play on a very old pattern the fair heroine falls in love with a

hunchback jester. This revives the old but perenially interesting question-what are the quali ties in a man most attractive to the opposite sex? The best and noblest of women fall in love as a rule through the imagination rather than the senses, and are more susceptible to what they believe to be there than to what they see. Thus, a golden voice is more alluring than a handsome appearance, while a physical infirmity may raise the feeling of maternal tenderness, which is one of the greatest of feminine charms. Perhaps the most irresistible conqueror is the silent hero, the man deeds, not words, whom one can endow with so many secret virtues.

ITCHING PILES -Eczema, Eruptions, Pimples—are surely cured

Legislation to Preserve Forests. The Appalachian and White mountain forest reserve projects belong to that great class of measures which everyone knows to be deserving but which stand only a poor chance of early adoption. The arguments in favor of the forest reserves are of general application. Government control of such tracts prevents wasteful lumbering, secures a timber supply for the future, safeguards the watersheds from freshets, increases the value of water powers, protects against forest fires and is in every way a wise and far-sighted policy. Why, then, restrict its benefits to one section of the country ?- New York Evening Post.

Italians Coming to Mississippi. A colonization scheme that will watched with interest throughout south Atlantic and gulf sections has been undertaken at Brookhaven. Miss. Fifty families from the north of Italy will be settled on a tract of land that will allow ten to fifteen acres to family, where they will take up the cultivation of vegetables and fruits. The success of the Italians at Brookhaven. which is confidently expected, would mean their writing home to others for industrious agriculturists. Their taking up of only small farms, too, will afford an object lesson in the value of intensive as compared with extensive forming. -Savannah, Ga., News.

MAKING FARCE OF WEDDING.

A wedding episode in which the bride rode to the railway station in a street car rather than make the trip in a carriage ornamented with fluttering white Women's Suffrage association America has est to get and that afterward all the rest ribbons and pasteboard hearts furnishing public recently. There is a more or less serious side to such incidents, which is often overlooked, owing to the fact that the serio-comic villain is likely to be a jolly good fellow who in the vealy abandon of his froliesome animal nature forces his slapstick personality into the drama in the best of friendly high spirits. And surely the jolly good fedow is all right where he belongs. But when he presumes to make a burlesque of sacred ceremonials and terrorizes blushing brides and pallid bridegrooms he becomes, to use a feminine expression, apropriate to the subject, a mean, nor-

In the home circle or among the close friends of "the happy pair" a little innocent waggery may not appear unbearservance is at once changed into a jolly

The craelty of the thing is also worth cinsidering. All the feminine love of ceremonial display and careful attention to artistic details is awakened in a bride, and of all things in the heavens above or on the earth beneath there is nothing she would rather have perfect and altogether seemly than her marriage day, even to the most trifling circumstance connected with it. But along comes the jolly good fellow and makes it a source of torment.
