Boys and Boys.

The old school bell keeps chiming out "come" and as we look forth and see the groups of boys and girls on their way to school, we note some whose elastic step and cheerful faces are highly indicative of the soul and mind, and all such will prove a blessing to themselves, their teachers and their school.

Following comes another group of boys whose lagging steps and sad faces show that the sound of the bell grated harshly upon their ears.

We need not say what the result will be in the latter case, but to these boys' parents we say, try to cultivate in their minds a love for the school and school work.
