PERSONAL MENTION

Mr C. McKinnon, Port Arthur, is visiting his home this week.

Mr W. D. Mills, Ottawa, made a flying visit to his home this week.

Mrs Bradley, mother of Mrs Townner, left Monday to visit friends in Wiaton

Rev Mr Farquharson attended the Presbytery meeting in Harrison this week.

Mr. and Mrs. Alex Gillies and family moved to Durham on Monday.—Holstein Leader.

Mr C. Ramage and daughter Agnes, visited Egremont relatives at the beginning of the week.

Mrs J. E. Mantell of Tilsonburg is visiting her mother Mrs. Thos. Anderson of Pomona for a few days this week.

Mrs Hartwell, in company with Master George visited the McIntyre family and other friends in town last week.

Mr. Hugh MacKay left last week for the far north part of the Province where he is again employed as a fire ranger.

Mrs Calder, whom we reported last week as being sick is not making the progress towards recovery, her friends would like to see.

Mr Peter Ramage came home from O. Sound Business College on Wednesday, having taken a Diploma of the highest grade.

Miss Straith of the law office of McKay and Dunn here, entertained her brothers and cousin Miss Martin of Mt. Forest over the week end.

Mr John McArthur of the Electric power plant, went to Berlin, Tuesday, to receive treatment for a face trouble. We hope it will be effectual.

Rev. Mr. Bice officiates next Sunday at Water's Falls, the Annual Missionary Sunday of that parish, while Rev. Mr. Connor, formerly of Durham, officiates here.

Sympathy goes out to Mr Alex McDonald of this town over the sad news of the death of his son Allister out west. We have no particulars at this writing.

Mrs C. Ramage visited her sister, Mrs Legate, in Cayton, last Friday and Saturday, Robert Legate, Jr., we regret to say is not getting better, and is now confined to bed.

Congratulations to Miss Susie Gadd and Mr Robt Ray, who to-day are entering the state of matrimony. Mr Ray is a Toronto lad, while the mother of the bride is well known in Durham.

Misses Susan and Agnes Nichol, daughters of Mr Walter Nichol, Glenelg, intend returning soon to Toronto after an eight months' rest and visit with their sister Mrs George Penny of Pasadena, California.

Mr. Brooker left on Monday morning for Owen Sound. Mrs. Brooker and Winnie are staying with Mrs. Geo. Wilson at present. We will be sorry to lose this intelligent family from our town, and hope Mr. Brooker may find scope here for his abilities.

Mr. Alex Smith, Sr., Normanby, was the guest of his old friend and chum Mr. Geo. Turnbull in town, from Saturday till Monday. Mr. Smith left on the stage for the east to visit friends in Proton and what else? Why anyone who knows him can tell that, to fish of course, and we may expect to see the waters of the Saugen fall owing to the number of fish with-drawn.

"Sandy," since his bad accident, has not recovered the full use of his leg, but his good staff helps him out in that, and the accident never fazed on his enthusiasm as a checker player or as a disciple of Izaak Walton.

Mr Jas Vasey, Ayr, is at present visiting relatives and old friends in Egremont and Durham. He drove all the way, still haying his own horse in which he takes a pride, being always a horseman. He spent a great part of his youth in Ayr neighborhood, and only two men remain who associated with him in his youth, and he is the eldest of the three being in his 84th year. He has kept in close touch with Globe and Review for many years and we were pleased to have a chat with him though he gave us a raking over for a mistake in his label.

There are many ways of making money in this world. Some believe in making it honestly but there are others who are not so particular and will try to increase their wealth by doubtful and dishonest methods. We have a list of some parties, who have tried to make a few extra shillings, out of a load of hay, during the past winter. It might be interesting news to some one to tell how it was done. A man drives onto the weigh scales with a load of hay. While the weigh-master is busy adjusting his weights the enterprising genius has his fork against the beam of the building above his head and is pushing with all his strength to make the load weigh an extra 500 pounds or more. They don't always succeed in their little schemes of making money.—Ex.

DOINGS OF A WEEK.

Canada to the Front

The week last past will prove a memorable one for Canada. It saw the conclusion of the Colonial Conference in London, at which Canada's gifted premier, Sir Wilfrid Laurier, was honored upon every occasion, and who so ably represented Great Britain's greatest colony and upheld the best of Canada's traditions.

It saw the first step accomplished towards the establishment of a new fast mail service between England, Australia and New Zealand, via Canada.

It gave to the country the latest information with respect to the cost and route of that great national undertaking, the Georgian Bay canal, of which Sir Wilfrid Laurier is on record as saying, "It shall be built."

It saw publication of figures which prove that the trade of Canada has increased by the enormous sum of \$92,128,995 during the past year.

It permitted the finance department to announce that the fiscal returns for the year last past would show a surplus of \$18,000,000 after paying off nearly \$10,000,000 of the public debt.

It welcomed the announcement by the premier that the home government should seriously consider the injustice to Canadian interests by reason of the cattle embargo which obtained in England against Canadian cattle, and the response by Mr Asquith, Chancellor of the Exchequer, that the question should be seriously considered by the Board of Agriculture.

It saw Ottawa flooded with Railway men, contractors and others, interested in the building of the Grand Trunk Pacific, submitting for the approval of the government, various routes for this and kindred enterprises all of which tends to the upbuilding of Canada.

It found Hon. Mr Brodeur, Minister of Marine and Fisheries, explaining to the committee of Lloyds at London the splendid harbor facilities which the government was providing throughout Canada.

Mr Brodeur fully described what had been done to create a safe navigation, and alluded to the extensive works carried on by the government towards perfecting the St Lawrence route, by light-houses, gas buoys, fog alarm stations, wireless telegraphy, telephone and signal services, wrecking plants and submarine signals. He referred also to the regular inspection and annual sweeping of the channel.

It saw general contentment, honest administration of public affairs, a condition of prosperity which makes of Canada the most desirable field for immigration, and immigrants arriving by the thousand.

It saw the settlement of the most distressing of the industrial disputes between employer and employed, and a disposition to obey the law with respect to the lesser differences which have arisen in some localities.

It saw a good dwelling house, barn and other farm buildings on the said lands. And the farm is under a good state of cultivation and in a very desirable locality.

Terms 10 per cent of the purchase money to be paid down at the time of sale, balance to be paid within 30 days.

For further particulars and conditions of sale, apply to JOHN CLARK, ARTHUR H JACKSON Auctioneer, Mortgagee, Dated at Durham this 11th day of May A. D. 1907.
