Is \$15 your price for a Suit?

Then we should like to burn into your brain the fact that for \$15 you can get all the style and as perfect a fit as can be put into a suit—as much as if you paid \$28. Of course the cloth is not so fine, nor the trimmings so luxurious, but every other way the \$15 suit is identical with the highest cost clothing.

GREAT WORDS OF GREAT MEN

EARL OF BEACONFIELD.—"Of all Divine institutions, I maintain the most Divine is that which secures a day of rest for man. If there is a consideration connected with this subject which I think ought not to be absent from your lordships' minds on this occasion, it is this, would it have been possible to have secured a day of rest for man unless it had been connected with the religious sentiment? To my mind it would have been utterly impossible; and it is the religious principle which, to a certain extent, is admitted by all—at least, by all classes that have influence and numbers in this country; it is that principle we must take care should not be discarded if it would be the deleterious effects, which I hold to be the most valuable blessing ever conceded to man. It is the corner-stone of all civilization; and what might be the deleterious effects, even upon the health of the people, if there were cessation from that constant toil and brain-work which must ever characterize a country like this, so advanced in its pursuits and civilization."
