HYPNOTIZED BY "BRIGHT EYES."

Vanderbilt's Daughter Tells Tearful Tale on Witness Stand. Driven From Home by Machinations of Little Indian Spook.

New York, Sept. 2.—Worldly, scheming, avaricious, cruel was the "Bright Eyes" which figured to-day in the testimony of Miss Minerva, daughter of Edward Ward Vanderbilt, whose mind, she alleges, has been deranged by the little Indian spook.

"Bright Eyes," she said, had driven her from her father's home, had robbed her of his love, had reduced her to the verge of poverty, compelling her to earn her own living by working out as a seamstress. Meanwhile, she said, heartless wrath was feasting the nest of her stepmother, Mrs. Mary S. Pepper Vanderbilt.

"Bright Eyes," said the fair girlish witness, had not only hypnotized Mr. Vanderbilt into desiring his present wife two houses worth \$18,500, but had persuaded him to will away nearly all the remainder of his \$250,000 fortune to his three months' bride.

Miss Vanderbilt, who looks considerably younger than the 26 years which she said was her age, evidenced at the beginning of her examination the alertness of her father when on the stand. Her answers were prompt and pointed, and the efforts of ex-Judge Griffing to unseat evidence that she had been a disbeliever in the spook, had played true, started out night, and meant money extravagantly failed completely.

With tears streaming down her cheeks, Miss Vanderbilt told how passionately her father loved her dead mother. The witness observed the change in her father's habits after her mother's death. He took to sitting in the dark alone, she observed. Then he began to tell her of Mrs. Pepper, the "Bright Eyes" and of messages from his dead wife.

Before long her father told her that "mamma" was getting "very strong" with the child "Bright Eyes." One night he came home and said that "mamma" had embraced him. After that her father's visits to Mrs. Pepper became more and more frequent. "And who kept you company in your home?" asked the lawyer. "My dog," was the answer. A demand was filed to-day that Mrs. Mary S. Pepper-Vanderbilt, his bride of six months, be produced in court to corroborate the testimony of her husband as to her ability to communicate with the spirit world. Mrs. Pepper-Vanderbilt is said to be at Onset, Me., taking part in a spiritualistic camp meeting, according to her husband's counsel, and said that the early period of Mr. L. Vanderbilt's acquaintance with Mrs. Pepper.

FISHERY DISPUTE.

Newfoundland Agreement Deferred to Hear Premier Bond's Proposal.

London, Sept. 1.—It had been expected that the terms of the agreement between Great Britain and the United States to submit the Newfoundland fishery dispute to arbitration at the Hague would be made public to-day, but a contrary delay has been caused by the unexpected action of the Newfoundland Premier, Sir Robert Bond, who has made a new proposal regarding the conduct of the fisheries regulations, differing from the motus vivendi.

The American Government being most anxious to conciliate Premier Bond, consented to a postponement of the matter for a few days in order to afford the British Government an opportunity to discuss the new proposition with Sir Robert. An ultimate agreement on all points, however, seems to be assured.

CURBS ENGLISH TIP. Earl of Serton Prohibits Guests Giving Servants Gratuities.

London, Sept. 2.—The Earl of Serton, who recently resigned from the mastership of horse because of his disapproval of the policy of the Liberal Government, which appointed him to that office, has taken another step of vastly greater importance in English life. This is the season when the country house and shooting visits are in order, and when the question of tips annually becomes a burning topic. Complaints are heard on all sides that the system of giving big gratuities to servants and gamekeepers of wealthy friends who have invited one to the house or shooting party makes the acceptance of such hospitality burdensome to a man of moderate means. The head gamekeeper expects a five pound note and every other menial counts upon a tip entirely out of proportion to the services he renders the guests. Counting cost of guns, cartridges and ammunitions one has to make for a week's shooting, it has been calculated to run up at times as high as \$300. This is the outside estimate, but the average expenditure of gratuities among servants is given by competent authorities as being much less.

For years past Englishmen have yearned for a host who would veto the tips to servants and thereby set the fashion which everybody else would follow. Such an innovator has arisen in the person of Lord Serton, who has had a shooting party at his Absteyed estate, which included the Prince of Wales, Duke and Duchess of Roxburgh, and Lady Herbert, widow of Sir Michael Herbert. In all the guest rooms of Lord Serton's residences there is displayed a notice that no gratuities are to be given to any servants.

It might have been supposed that the example set in such high quarters would have been met with a generous chorus of approval from all whose views previously had been raised in a cry for the abolition of the tipping nuisance. On the contrary, it provoked a jerminal. What a large number of the guest rooms of the Earl of Serton? It was asked. Every man who visits the noble lord has his own valet, and every woman guest a maid of her own. Such guests are not in the habit of giving tips, and their members of society will have to go on making gratuities as heretofore.

A DEAD SHOT. NEW SANITARIUM.

THREE OF A POSSE SHOT WHILE PURSUING NEGRO. Barricaded Himself in Georgia Cabin, and Sheriff, Deputy Sheriff and Marshal, Who Are in Pursuing Party, Fall Beneath His Unerring Aim—Still at Large With Repeating Rifle.

Thomasville, Ga., Sept. 2.—In attempting to capture Charles Williams, a negro outlaw, who had barricaded himself in a cabin in Grady County after killing the sheriff who tried to arrest him on a minor charge, two more officers were killed, one last night and another this afternoon. The outlaw, who is said to be a discharged United States soldier, is now fleeing toward Florida with a posse in hot pursuit. He is armed with a repeating rifle and has plenty of ammunition. He is a dead shot, and it is almost certain that he will add more victims to his list before he is captured. There is no doubt that the murderer will be lynched if he is not shot down in trying to evade his pursuers. The dead officers are Sheriff D. V. Tyler, of Grady County, Marshal Eugene Cardell, of Cairo, and Deputy Sheriff James Hunicutt, of Thomas County.

On Monday night Sheriff Tyler went to arrest the negro on minor charge, Williams, who was armed shot. The Sheriff dead and fled to the woods. A posse was organized and located him last night in a lonely cabin. He was called upon to surrender, under pain of death. A rifle shot was his only reply. Marshal Cardwell and Sheriff Hunicutt, of Thomas, has organized another posse and is again chasing the negro. All the members of the posse have sworn to continue the chase until the negro is killed.

SUN POPS A CORNFIELD. The Oklahoma People Eat Flake Off the Cob. New York, Sept. 2.—A despatch to the World from Washington says: Hart Mosen, chief of the Agricultural Division of the Census Office, is in Oklahoma assisting in taking the census. He reports unofficially: "James Miller has a cornfield where he raises choice popcorn. So intense has been the heat of the sun that the kernels have exploded on the cob into fluffy white flakes. "When the sun creeps up 'pop, pop, pop' is heard all through the corn patch. "Miller is now eating popcorn off the cob. An ear of the corn may be seen in a glass window here. "If the sun is in the sky, the sun is hatching chickens out of crates of fresh eggs."

CONGO VERDICT REVERSED. Court of Appeal in Africa Upsets Result in Stannard Libel Suit. London, Sept. 2.—A cable despatch from missionary sources states that the verdict of the Agricultural Court, Hon. W. Rev. E. Stannard, who was convicted by the Congolese courts of criminal libel in June last year, has had the sentence reversed by the Court of Appeal at Boma. Mr. Stannard had returned home, leaving word that he would allow the appeal to go by default. Great surprise was therefore expressed that the court should have dealt with it.

his story that he had been a railway conductor, that he had been turned out of the boarding house where he had lived for seventeen years because he had contracted tuberculosis. He then moved to a hotel in the town. There it was shortly discovered that he was a victim of consumption, and the proprietor told him that they dare not keep him longer. He then applied for admission to the General Hospital of his town and was refused. In his desperate condition he started for the Muskoka Cottage Sanitarium. The physician there, after examination, advised him that his case was too far advanced for treatment there. The poor fellow, with tears streaming down his cheeks, begged the doctor to allow him to remain, saying: "I have travelled for two days on the train. I have been turned out of my boarding house and out of the hotel in my own town. Then I was refused admission in the local hospital. Nobody wants me. For God's sake, doctor, let me stay. I have money to pay for all I want."

"The patient was cared for at the Muskoka Cottage Sanitarium until such time as he could be safely removed to the Toronto Free Hospital for Consumption. There his needs received every attention that was possible to his skill and tender nursing. He passed away some weeks ago.

PARIS, Sept. 2.—The full text of the report of the Senatorial Commission which was appointed to investigate the explosion which, on March 12 last, destroyed the French battleship Liane while in dock at Toulon, was published to-day. Charges that the disaster was directly traceable to the system of irresponsibility, general indifference and lack of harmony prevailing in the navy. The report, which was written by Senator Monis, severely arraigns the administrative management of the navy, and demands the inauguration of several reforms.

The immediate cause of the explosion, which resulted in the loss of over one hundred lives, is found to have been the spontaneous combustion of powder "B" in a magazine where the temperature was so high on account of its nearness to the dynamite compartment. Continuing the report says: "But the real cause of the catastrophe was the absence of accord, as well as the divisions and antagonisms existing in the different branches of the service. The marine artillery did not try to establish the responsibility for the accident, but only sought to defend the powder magazines and conceal the powder so that it could not be examined. The various branches of the service are divided by jealousies. There is no superior authority. Each branch works apart, resulting in a state of anarchy. Officers who complained of these conditions were not commended."

ONTARIO'S ASYLUMS. Establishment of a Psychiatric Clinic at Toronto. Toronto, Sept. 2.—Hon. Dr. Willoughby, Dr. Clark, Superintendent of the Toronto Asylum, and Dr. Ryan, Superintendent of the Kingston Asylum, have returned from a visit to Germany, France and Britain, made with a view to obtaining information to assist the Provincial Government in deciding upon the course to be followed in the future in dealing with persons suffering from mental diseases.

They spent considerable time in Munich, where the most advanced method of treatment of such cases was indicated in the shape of a psychiatric clinic of one of the hospitals. It has been proposed to adopt this plan in Ontario, a start being made in the new Toronto General Hospital, to which it is suggested a separate wing, with accommodation for 100 patients, should be attached for this purpose.

Here people suffering from mental diseases would be sent for preliminary treatment. If it appeared that they could be cured they would not be sent to the asylums at all, but if it was apparent that they were hopelessly insane they would go to the asylums. This plan has been followed in Germany, not only with pronounced success so far as the recovery of patients is concerned, but with considerable saving to the public treasury.

It is said that, in the event of the method being adopted and found successful here, such clinics would be established at one or two other centres in the province, notably London and Kingston. In any event, Toronto Asylum is to be removed, but no definite step in that direction is likely to be taken until the report of Hon. Dr. Willoughby and Dr. Clark and Ryan has been received and discussed by the Cabinet.

JAPAN FLOODS. Nearly 80,000 Persons Rendered Homeless.

Tokio, Sept. 2.—In Tokio alone 79,654 persons rendered homeless by the recent floods are being cared for by public relief. About the same number are being cared for in the prefecture of Salterna. There is no doubt there are thousands of others homeless elsewhere. The entire town of Pukuchiyama, near Kiota, was submerged. Many persons are missing. Flood reports continue to be received. A number of railway tunnels have collapsed and many bridges have been damaged. Several days must elapse before the traffic is restored to normal conditions. The route of Tokio's food supply is almost stopped. The sanitary authorities of the central Government are already busy with precautionary measures to prevent the outbreak of epidemics of the cholera, dysentery and fever in the inundated regions, which cover an extensive area of the country. Thousands of peasants are destitute and starving in the central Provinces of Japan. The price of rice is higher than ever before, and the rice famine is widespread.

KIDNAPPED BY A TORNADO. Baby Two Years Old, Carried Away by Wind 15 Years Ago, Returned.

St. Paul, Sept. 2.—Edward Bennett, 20 years old, who was kidnapped from Leon, Ia., by a tornado, has just learned his identity. When he was two years old he was lifted by a tornado and was deposited in the back yard of James Hudson, Hudson took the baby with him when he fled from the destroyed city the day following the tornado, and moved to Louisiana. For eighteen years the boy lived with the Hudson family, believing they were his parents. Last week he learned for the first time that Hudson was not his father.

On Monday Bennett arrived in Leon. One of the first persons he met was his sister. She told him that his mother is living on a farm at Long Beach, Cal., the family having moved there shortly after the tornado in 1883. His father is dead. A telegram was sent to the mother, who wired back that her son must join her at once. For eighteen years she had believed that her baby had perished in the storm.

FOUR KILLED. Accident in Railway Camp North of Kenora.

Kenora despatch: On Monday at noon a most serious dynamite explosion, in which four men were killed, took place at camp No. 5 of W. T. Parsons, contractor on the G. T. P. construction works, and whose camps are situated about eighteen miles north of Kenora, on the Hudson Bay station, on the C. P. R. Foreman D. Flynn was engaged with several others in loading holes with powder and dynamite preparatory to a blasting operation. All of the men engaged at the time with Flynn were killed outright, so that only the most meagre details can be obtained. It is thought that the hole was being loaded too soon after a former shooting and that insufficient time had been allowed for it to cool, and that the accumulated heat from the former explosion caused the premature discharge.

THE IMMIGRANT ARMY. Total to Ontario This Year Will Be 70,000. Toronto, Sept. 2.—Based on his calculations on the number dealt with by the Provincial officials and the number going direct to the Dominion Government's employment agents, Mr. Thos. Southworth, Director of the Bureau of Colonization, thinks that the immigrants to Ontario this year will total about 70,000. About 90 per cent. of these are from the United Kingdom, and the remainder from European countries. In 1906 the total immigration into the Province was 37,744, and in 1905 34,958. If this year's total approximates to Mr. Southworth's estimate, it will bring the aggregate of immigrants since the Bureau of Colonization entered upon its present systematic plan of work in 1900 up to about 290,000.

CHILD MURDERED. ELLA SCHRADER BRUTALLY ATTACKED WHILE IN THICKET.

Chicago, Sept. 2.—Little 9 year old Ella Schrader, daughter of John Schrader, a railroad construction worker of Tolleston, a part of Gray, Ind., fell the victim of one of the most revolting murders that ever aroused the residents of that district, yesterday. The body of the child, bearing unmistakable evidence that the death resulted from a brutal assault, was found by Mrs. Schrader the mother, partly hidden in a thicket, a short distance back of the Schrader home. The news of the murder spread like wild-fire, and within a few hours scores of people, composed of business men, street workers, and policemen in search of the unknown assailant. During the afternoon three bloodhounds belonging to John Parley of Crown Point, Ind., were put over the trail, but as the dogs had travelled over the trail the hounds could not work to advantage and finally were taken back to the kennel.

In the morning Mrs. Schrader had sent Ella to school, and she was accompanied by her stepmother, Mrs. Mary S. Pepper, who was at work with a steam shovel gang, half a mile away. The path leading to her destination had through an unbroken field of sand dunes overgrown with scrub oak. The child frequently fell and tears and appeals could not bring back the spark of life until she departed.

The tracks of the assailant could be easily followed in the sand. They showed that he had followed the child bearing some distance from the path, and when a lonely part of a thicket was reached, he rushed upon his helpless prey. Evidently the child saw him coming and attempted to escape, for the trail showed she had run fifty feet from the spot before being overtaken. The man then dragged her farther into the thicket.

Following the lead where he found her, the mother hastened to bear the news to her husband. The distraught father and his companions at work on the steam shovel, armed with whatever weapons they could lay hands on, immediately searched the surrounding body land and searched for the murderer, but found no trace of him.

With a short time Sheriff F. S. Carter of Lake County, accompanied by Coroner Hoskins, Deputy Sheriff Fred Trott, Bailiff Frank Shine, and a number of constables in automobiles arrived from Hammond, Coroner Hoskins and Sheriff Carter, together with the sheriff directed the work of possession, organized from hundreds of men who had gathered at the other end of the Lakeview Parley and his bloodhounds arrived in an automobile from Crown Point.

Despite the diligent search, little evidence of who the assailant was or what he looked like was obtained. Sheriff Carter, however, informed by railroad section hands that a negro had been seen running along the Wabash tracks, immediately west of the scene, and he was seen to emerge from the underbrush not far from where the crime was committed.

The officers think the man who was seen running along the tracks was a negro, but they are not sure. The child is one of a number of tramps and criminals who make a rendezvous of a certain part of Gary known as "The Patch," lying between the Wabash and Pennsylvania railroad tracks. This also is the salubrious district of the town. The police of South Chicago, Hammond, East Chicago, Chicago, and nearby towns were notified to watch for any suspicious characters who make a rendezvous of the district of Gary and to arrest and question them. Little Ella was one of a large family of children.

BRACKENMAN BADLY HURT. Shocking Accident on the Intercostal Railway.

Quebec despatch: A shocking accident occurred to a brakeman at Lewis shortly after the arrival of the Ocean Limited on the I. C. R. last night. The name of the victim is A. Rheuld, and he was acting yardman in the absence of the regular official, who is away on leave. The unfortunate man fell between two cars while shunting operations were going on, but how the accident occurred is unknown. When he was taken out it was found that he had been terribly crushed, and so badly injured that but little hope is entertained for his life.

CURIOUS SHOOTING AFFRAY. Toronto Tradesman is Said to Have Fired at a Bricklayer.

Toronto, Sept. 2.—The police were looking diligently last night for a man named Aikens who keeps a restaurant at 270 Yonge street, but failed to find him. There is a charge against him that during yesterday afternoon he fired from a Winchester rifle at a bricklayer named J. D. Macpherson at work on an adjoining building. Aikens had accused some of the men on the job of breaking a window, and had threatened to shoot, but his threat was taken as a joke.

Constable Townsend, who heard the shooting, gave chase to the man and got the rifle, but the man escaped.

To clean papier-mache articles wash first in warm water and soap and polish with sweet oil.
