HAVE YOU DEFECTIVE EYESIGHT?

Most people, you included perhaps, are extremely negligent to their eyes. This is because the public have literally no idea of the number and variety of eye defects.

Pain in, over the back of the eye, granulated eyelids, inflammation, watery eyes, pain in the temples (supposed neuralgia) and cross-eye. If so it will cost you nothing to consult me. If you require glasses, I will frankly say so.

For all kinds of Baking

—for Bread, Biscuits and Pan Cakes—for Pies, Cakes and Fancy Pastry—no flour, milled of a single kind of wheat, compares with a BLENDED FLOUR.

It bakes whiter and lighter—it contains more nutriment—and it yields MORE bread etc. to the barrel.

"Made in Ontario"

Use A Blended Flour

(of Ontario and Manitoba Wheat)

and you use the perfect flour.

BLENDED FLOUR combines the splendid food properties of Manitoba wheat—with the lightness and nutty flavor of Ontario wheat.

TRY A BLENDED FLOUR—the result of your first baking will PROVE its superiority.

This trademark is on all fine BLENDED FLOURS. It is the sign of quality.

Look for it on every bag and barrel you buy.

At the Ranges.

Last Saturday some of the members of the Rifle Association met for practice as advertised last week. The wind was favorable, though the smoke of the Cement Works, together with the cloudy day, somewhat dimmed the targets. It is proposed to have another match Saturday the 16th. As an evidence that some of the rifles are better than others, may be mentioned the score of 25 was taken in 5 shots by Wm. Ramage.

More G. T. R. Engines.

It is announced that there will be a number of new engines placed on the middle division of the Grand Trunk within the next two weeks, and it was also incidentally stated that before Christmas the rolling stock of the company in this division would be improved fifty per cent. The heating apparatus of the coaches is now being overhauled, and all the coaches will be put in condition before the winter sets in. A number of new rotary snow-plows are being constructed at the London shops. Ordinarily impregnable snow drifts are easily wiped away by these mighty contrivances, and the officials realize that in the northern branches they are absolutely essential.—Fergus News Record.

Winter Millinery

LAST WEEK WE HELD OUR SECOND MILLINERY DISPLAY

It was as usual a grand success. Many came in to see the winter styles in fur and velvet. Since then we made a special trip to the city and brought back some very new ideas in how fur and velvets are done. We will show the newest styles and be in a position to give you something exclusive. You won't be meeting your own hat every time you go down town. We also bought a large stock of new goods at a great discount and will give our customers the benefit of it. Our stock is larger than before and a larger variety to choose from. We will keep a larger stock of first class millinery all season. Our trade is so extensive we find it necessary to always keep on hand a grand supply of the best in Millinery.

Rev. Rogers, of Warton father of the pastor of this charge preached an impressive sermon on Foreign Missions Sunday last.

It Works This Way.

Oh, he preached it from the housetops, and he whispered it by stealth; He wrote whole miles of stuff against the awful curse of wealth. He shouted for the poor man, and he called the rich man down; He roasted every king and queen who dared to wear a crown. He clamored for rebellion, and he said he'd lead a band To exterminate the millionaires and sweep them from the land. He yelled against monopolists, their power he'd defy. And swore he'd be an anarchist and blow them to the sky. He stormed, he fumed and ranted, till he made the rich man wince, But an uncle left him money, and he hasn't shouted since.
