-Mr H. A. E. Kent has been ap-pointed the Registrarship of W. York at a salary of \$5000 a year. This is LAST WEEK WE HELD OUR br Beattie Nesbitt, who declared it SECOND MILLINERY DISPLAY was worth \$9000 a year to him, and "nothing to do." Even \$5000 is a waste of public money under such circumstances, and the government will be apt to hear of it.

-The country is being regaled by the trial of Pritchett, the self-confessed ballot switcher in the London and other elections. We hope that he and all his tribe may be punished as they deserve.

-It is confidently asserted that by next fall four hundred miles of the National Transcontinental Railway between Moncton and Winuipeg will be graded, and much of it ironed.
The commissioners are urging on this great work with the greatest energy.

-Under the tostering care of the Minister of the Interior the very best class of immigrants are coming into the country and settlement of the West goes on apace. The total this vear will exceed 250,000, and they will become wealth producers for the Dominion in due course. The revenue of this department is nearly twelve times what it was the last year of Conservative rule ; so much for intelligent management.

Local Option Notes.

Prince Edward Island Prohibition Commission finds that prohibition has greatly benefitted the island province. The pet argument of anti-Local Optionists was shattered one day the past week by a farmer who resides between Mt. Forest and Holstein. This man for years marketed his grain in Mount Forest, and one of our citizens noticing that he was not bringing i here this year wanted to know how it was, when the man said: "Well, when I used to sell my grain in Mount Forest I only brought about \$5 of the proceeds each trip home with me, spending the rest in the bar-rooms. Now 1 go to Holstein, where the har-room is closed, and bring all my money back Nov. 5th 1907. home with me." Sensible man! Let Mt. Forest see to it that they will make it safe for such men to market their grain here.-Rep.

most reliable citizens had occasion to visit Grimsby recently, where he not only found business good under Local Option, but a fine new hotel, built sell right to quick buyer, Don't miss tion of its customers. So well, in fact, is the proprietor satisfied that he is now regotiating for the purchase of one of the old hotel properties in the town to be used for extra accommodation when needed.

for President polled 249,907 votes; Stoyes, Iron pig troughs, &c. Must be in 1892 the vote was 264,133; in 1904 it was 258,847. The decline may be due to a growing feeling that no practical gain can result from a mere registration of the views of those who would like to have a prohibitionist in the White House. It is not due to any weakening in temperance sentiment. The Springfield Republican points out that by the working of local option laws half the area of United States is now under prohibition, Ohio has 1,140 dry towns out of a total of 1,376. Massachussets has 250 dry out of 350. Vermont is wholly dry except 24 towns and cities. Kentucky, the home of whisky distilling has 97 dry counties out of 119. Con-necticut has 96 dry to 72 wet or did have prior to the latest town elections. There are 200 dry towns in Illinois, and in Iowa 65 out of 99 are without saloons. Maryland has 14 counties dry out of 23. There are 300 dry towns in New York State. Indiana out of I,016 townships has 710 on the arid list. Passing to the Pacific coast one finds four dry counties in California, and "much dry territory in other counties," while Oregon reports 12 dry counties and 170 dry towns and cities in other counties. In the Southern States prohibition has made such gains as to general attention. More deople are now living in an atmosphere from which the saloon is outlawed than in any previous period of American history.-Ex.
