**DON'T MOVE IT.**—A proposal has been made to move the Guelph Winter Fair to Toronto Junction. The reasons for this should certainly be very strong before it is attempted. Guelph made the fair, it is central to the best cattle feeding and breeding district in Canada and to move it now would risk its success and should not be considered. Don't move the fair.

**RAISED THE SALARY.**—The School Board at its regular meeting last week recognized Principal Allan's long and faithful services by an increase of salary of \$100.00. Almost a generation of Durham youth has grown up under his care and no more worthy mark for recognition could be had. We believe when the results of his work are considered, there will not be a single note of objection to the action of the Board.

**PRESENTED W/STANES.**—On Thursday afternoon last at the curling rink here Mr. J. C. Telford was called upon to face a number of his brother knights of the broom and made the recipient of two fine stanes as a mark of their appreciation. They were handsome affairs, ivory mounted, bright to look at, serviceable to use. Mr. Calder made the presentation and brief addresses besides his were given by Messrs Ireland, John H. Hunter and Robt. Cochrane, laudatory of Mr. Telford's public spirit and good fellowship. He replied appropriately thanking the donors for the appropriate present which he valued more than a house and lot. It is not yet known whether Mr. Telford can be retained here.

When a newspaper refers to a bride as an accomplished young lady it should mean that she can wash, iron, cook and mend. These are the accomplishments that count most in the life she is entering; these are the accomplishments that make happy homes; others are mere fads, which may be added at discretion.

Every one is talking about the Monster Sale now going on at Mocker's "House of Quality." Since the opening day a week's business has been crowded into a single day. No wonder the goods can be sold so cheap. The copious quality of the goods handled by this house makes the low prices at which they are sold all the more remarkable.

Shareholders in the N. P. C. will be receiving their 5 per cent dividends this week. This is the third dividend paid by the company, and will bring smiles to the faces of the shareholders attending the Annual Meeting on Wednesday of next week. An informal meeting of shareholders is expected to be convened in the Rossin House on Tuesday evening.

**A NEW RINK FOR DURHAM.**—Such is the prospect, for, as a result of the tenders asked for by the School Board the north part of the old school grounds, cut off by the C. P. R., has been sold to Mr. Joseph Brown. We understand it is his purpose to make provision for the building of the rink immediately.

**WE WANT THESE CANNONS.**—A reference to Town Council proceedings will show that we have the opportunity of securing two cannons for our armory. Get them at once. We say, and have them mounted on the Jackson lot, north of Fire Hall, a site that will command Lower Town, convenient for use if it was broken out between factions of the council, between Mayor and officials, or between liquor and local option. Peace must be kept if we make war to do it.

### Town Council

A special meeting was held on Tuesday evening at which some important work was done. All were present giving earnest consideration.

The Bridge and Local Option By-laws received their third reading, were signed and sealed and are now the law of the town. The Mayor read a letter from Mr. Kingston detailing the steps he had taken for the defence of the local option by-law if necessary. Lawyer McArdle having intimated to Mayor Calder that steps would be taken to quash the by-law on account of illegal voting. Mr. Calder thought Mr. Kingston should be retained as he had made a study of the case and as the town Solicitors had been engaged on the hotel keeper's side. Besides Mr. Brown stated that the town Solicitor did not want to defend the case for local option.

On motion of Brown—Robertson, Mayor was authorized to employ Mr. Kingston, should it be necessary.

On motion of McGowan—Sharp the town Solicitor was instructed to proceed with the closing of the business of the old Durham Manufacturing Co.

The Mayor read a letter from Mr. H. H. Miller, M. P., stating that two cannon for the Army could be procured if Durham would pay freight and on motion of Kinnee—McGowan the offer was accepted.

A long discussion took place over the question of new site for Town Hall and weigh scales. There are three locations in view: 1st, The Vollet property north of Charter Smiths foundry; 2nd, the McKechnie property front of the Kelly residence; 3rd, the Edge and Irwin property east of Wm Caldwell's residence.

Definite options had been obtained on Vollet property, \$1320, and on McKechnie's property (whole piece), \$4700, but no definite option from Wm Edge and the council adjourned making no decision until this is secured.

On such an important question as a site for a Town Hall, we believe the citizens should be consulted. Personally either of the two central sites will suit us, though for effect, commanding appearance, and general suitability, the Edge property stands out first, especially as it carries with it the absolute deed to the present market site, which the town hasn't got now. Of course if the Edge estate will not be definite or if it is too exacting, the council will turn elsewhere, and a great opportunity to the estate and to the town will be lost.

Since writing the foregoing we believe a satisfactory option has been secured on the Edge proposition, and will be dealt with on Friday night.

### Tales of the Storm.

Last Wednesday's storm, wind from the east, seems to have been a record breaker, for the "oldest inhabitant" can remember no such blow and no such drifts were ever seen in Durham streets. Country roads were completely blocked, stages and trains forced to lie up, and no mail reached town from Tuesday evening till 11 p. m. on Saturday.

There was little or no grumbling, the country recognized that the elements were master for the time being, "Our Lady of the Snows" was in possession, and what was the use. Farmers and others within a radius of a few miles walked into town, the drifts being solid enough to "carry," indeed teams went over some of the masses on our streets without breaking through.

Mr. McGowan, chairman of the Board of Works, had some men promptly put to work to cut through the worst drifts in town. Pathmasters in the country organized bands of farmers' shovelling brigades, and by Saturday night most of the roads leading from town were passable, and this week are getting in good shape once more, and will continue so until thawing begins. Then no doubt there will be trouble for the road here and there lies over drifts from four to eight feet deep.

But the railways must keep to the rails and the management certainly deserve credit for the vigor they displayed in clearing their lines. The lines to Southampton and Warton were first opened, those to Durham and Kincardine came next. All day Saturday the snow-ploughs were driven through the drifts, and word came to town of slow progress leading many to expect no mail relief till Monday. However, about 10 o'clock p. m. it got noised abroad they were at Burt's cuts and sure enough the welcome whistle was soon heard, proclaiming triumph

### The Recount.

There was a grim humor in the situation last week when the recount, called for Wednesday, had to be postponed owing to the non-arrival of the counsel on opposing sides. Judge Hatton and lawyer McArdle, of Owen Sound, came here on Tuesday evening before the storm, but Wednesday's great blow effectually tied road and railway, detaining Mr. Kingston, counsel for Local Option, in Mr. Forest and Mr. Wright, counsel for the liquor men, in Palmerston, where he had arrived by train from Owen Sound but could get no farther.

Adjournment was made till Thursday morning, but no relief, till Friday at 8 p. m., till Saturday at 9 a. m. but the storm and its effects still prevented traffic: counsel could not get in, Judge could not get out, and so it remained till 2 p. m. Saturday, when, though counsel was still absent, the recount was proceeded with.

There was great public interest in the result and the Hall would have been crowded, but that the Judge read the law in the matter showing that the recount must be private. Mayor Calder and Mr. Jno. Brown representing the council and Mr. Allan as Secy. of the Local Option Committee, were the forces for the by-law, while Solicitors Dunn and McArdle, and Mr. Murphy the appellant, were the forces against.

The result showed that the election officials had done careful work as the recount tallied, the Judge allowing one rejected ballot to be counted against Local Option, making the figures 207 for and 180 against. Taking the pooling way of reckoning, the majority works out 10 and 4-fifths, while before it was 11 and 2-fifths, but as 27 local option votes could have been spared and the by-law still carry, the true majority is 27. The Judge took the former way and declared the by-law carried by 10.

The same day came news of the reversal of Judge Snider's decision in Saltfleet case. He had disallowed the by-law there because the deputies and poll clerks had voted and some other alleged irregularities. The appeal to the High court in Toronto was successful, so the local option forces are still on top.

Judge Hatton firmly declined to open the question of illegal voters, holding we presume that these should have been attended to at the last Court of Revision. We do not know whether the liquor party here will proceed further or not.

Over 500 veterinary surgeons have signed a paper condemning tight check reins, as painful to horses and productive of disease, causing distortion of the windpipe to such a degree as to impede respiration.
