**N., G. & J. McKechnie**  
The popular Cash Store.

**The Durham Review**  
THURSDAY, MARCH 19, 1908

**A Questionable Privilege**

An attempt has been made by the postal authorities to remedy what is felt to be an injustice to publishers of weekly papers in regard to their U. States subscribers. Canadian publishers are asked to make arrangements with some one United States office on the border, such as Detroit or Buffalo, and send his papers there in bulk, "by express or freight, charges prepaid." Then he is required to print on each copy, "Entered (date) at the Post Office at \_\_\_\_\_, as second class matter under act of Canada, 3, 1870." Moreover he must "deposit with the United States Postmaster a sum of money to cover postage and renew this amount from time to time, or remit with each shipment or make such other financial arrangement as may be permitted."

The above is a sample of a privilege that is not a privilege, for the average country publisher, 100 or 200 miles from the border, before he pays express and U. States postage, would be perhaps out of pocket and have his count for his pains. Our P. M. G. must evolve something better than this.

**Old Rates must be Restored.**

Under the above heading the Farmer's Sun last week makes the following pertinent remarks on the restrictions placed by the Post Office authorities on Weekly papers going to the United States:

The Canadian Press Association, made up of representatives of Canadian newspaper publishers, at a convention held at Toronto last week, adopted a resolution asking that steps be taken to place weekly and monthly publications on the same footing in regard to rates to and from the United States as dailies are on now.

The pronouncement made by the newspaper men is in accordance with the opinion held by the overwhelming majority of the people of Canada. Supporters of the barbarous system under which almost prohibitive restrictions are placed on the chief means of intercourse between two kindred people are found only among the small but noisy faction of jingoes and the narrowest of the exclusionists in the Manufacturers' Association. The principle of the "old system" will have to be restored some time, and the sooner restoration takes place the better it will be for all concerned.

**The Quebec Battlefields.**  
An Appeal to History.

The plains of Abraham stand alone among the world's immortal battlefields, as the place where an empire was lost and won in the first clash of arms. The balance of victory was redressed in the second, and the honor of each army was heightened in both.

Famous as they are, however, the Plains are not the only but fabled at Quebec, nor even the only one that is a source of pride to the French and English-speaking peoples. In less than a century Americans, British, French and French-Canadians took part in four sieges and five battles. There were decisive actions; but the losing side was never disgraced, and the winning side was always composed of allied forces who shared the triumph among them. American Rangers accompanied Wolfe, and French-Canadians helped Carleton to save the future Dominion, while French and French-Canadians together won the day under Frontenac under Montcalm at Montmorency, and under LaSalle, St. Foy.

There is no record known—nor even an legend in tradition—of so many such momentous tests of arms performed, on land and water, by fleets and armies of so many different peoples, with so much alternate victory and such honour in defeat, and all within a single scene. And so it is no exaggeration of this commemorative hour, but the lasting, well-authenticated truth to say that take them for all in all, the fields of battle at Quebec are quite unique in universal history.

And is not to-day also unique as an opportunity to take occasion by the hand, to set this priceless ground apart from the catalogue of common things, and preserve it as an Anglo-French heirloom for all time to come? An appeal to history would be most appropriate to any year within the final decade of the Hundred Year Peace between the once-contending powers of France, the British Empire and the United States. But 1908 is by far the best year among the ten; for it marks the 300th birthday of the Canada which has become the senior of all the overseas self-governing dominions of the King—and under what King could we more fitly celebrate this imperishable entente cordiale d'honneur?

**A Battlefield Park.**

This year of 1908 is to be a notable one in Canadian History and before the year is over there will be many opportunities of enlightening oneself as to why it is to be so. Three hundred years ago Champlain founded Quebec and from that time to this there has been continuous life.

Champlain was in truth be called the first Canadian. For many years before his time French fishermen and fur hunters had visited the St. Lawrence, but always as exploiters clinging to and returning to the old World.

ed on the Council in reference to a horse which died on the highway and asking compensation therefor; Gibson Collinson waited on the Council regarding an account for culvert and statute labor at Cayton; Trustees of S. S. No. 8 asked Council to pass a by-law for the issue of debentures to the extent of \$3,500 to build a new school house. At the request of this Council a large deputation of ratepayers were present in the matter of boning the holding of wire fences, also a petition from P. Munshaw, et al., and a resolution of ratepayers from Vanleleer, were read in the same matter. By-law No. 678 to appoint certain officers for 1908 was read a first and second time and laid over until next session for third reading.

McKenzie—Wright—That the statement submitted by the Provincial Treasurer's Department, showing amount of railway taxation credited to this municipality to be \$313.84 less \$219, charged under section 4 of sub. sec. 2 of the act, for instance patents belonging to this township maintained in Provincial asylum, be received and filed.—Carried.

McKenzie—Carson—That the application of Trustees of S. S. No. 8, asking this Council raise, by way of loan, the sum of \$3,500.00, repayable in ten years with interest at 5 per cent per annum, be received and a by-law for the purpose be introduced authorizing the issue of debentures on said section.—Carried.

McKenzie—Carson—That the Reeves and Clerk solicit quotations and collect information regarding snow ploughs and report at next meeting.—Carried.

Carson—Best—That the application of Henry Osborne for compensation for a horse which died on the road be not entertained.—Carried.

Carson—Wright—That Mrs. Esters be refunded \$1.50, being for taxes paid in error on yillage lot in the village of Priceville.—Carried.

Best—Carson—That \$5.00 be paid the Municipal World for six copies of that Journal to this Council.—Carried.

McKenzie—Best—That George Lattimer be paid \$5.00, amount advanced by him in building a railing at Eugenia, and the same be deducted from commuted statute labor in said village.—Carried.

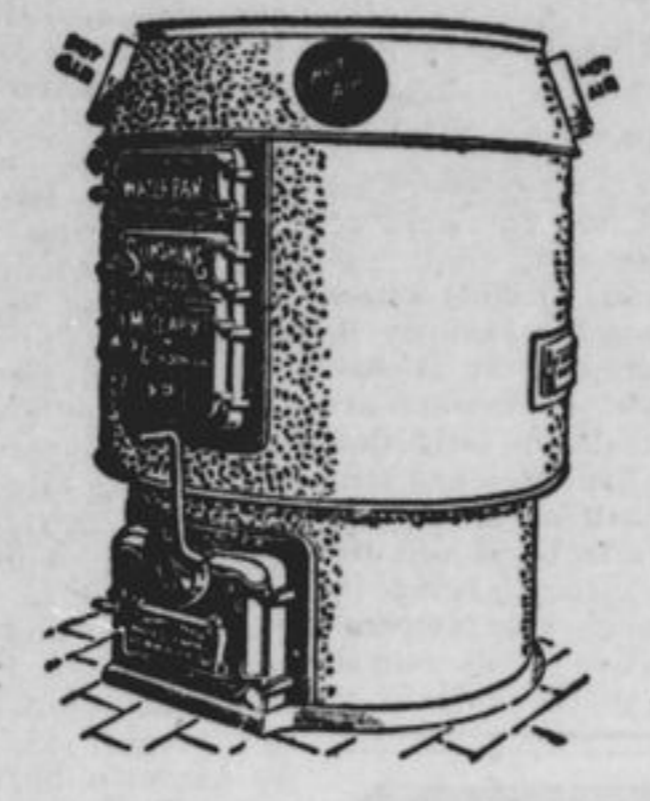

McKenzie—Best—That the County of Grey be paid \$76.00, being balance in Township Treasurer's hands belonging to Robert Smith's estate, who was in his lifetime a pay inmate of the County House of Refuge.—Carried.

McKenzie—Carson—That \$1,340.00 is hereby appropriated to be expended upon the highways of this Township in 1908, as follows: Div. 1, \$300; Div. 2, \$300; Div. 3, \$300; Div. 4, \$300, and the members of the Council are hereby appointed Commissioners to expend the same, in their respective divisions, this appropriation not to include work on bridges and townships costing over \$25, and the Commissioners present to this Council written reports of such expenditures before being paid their commission. The Reeves is hereby appointed to oversee work on bridges costing over \$25, and no further expense there be made in any division or the construction of new bridges undertaken except by resolution of the Council.—Carried.

Council adjourned.—Advance.

**Sunshine Furnaces**

We are the agents for McClary's famous 'Sunshine Furnace' It is made in five sizes so as to suit any home or building

**Note some of the Important Features:**

- The Height** is such that it can be placed in any shallow cellar. Also gives good elevation to pipes in ordinary cellars
- The Joints** All the necessary joints are made with deep cups for cement and all parts are interchangeable so that repairs can be furnished accurately and replaced quickly.
- The Grate** consists of four heavy triangular bars, having no bolts in construction. Any section can be easily removed through the ash pit door.
- The Fire Pot** This is made in two rings or sections so that it allows for the uneven expansion or contraction without injury. It is almost vertical shape and is heavy enough to stand the most intense heat.
- The Dome** is constructed entirely of heavy steel plate. The Radiator sides are also of heavy plate, the top and bottom being made of cast iron and encircling the dome.

For further particulars and information about this Furnace, give us a call.

**Lenahan & McIntosh.**

**Champlain first saw in Canada** a home, a place to develop, to live for and to die for. He never lacked from 1608, till his lamented death on Christmas Day 1635 a whole-souled devotion to Canada. He sailed up the Ottawa crossed to Georgian Bay and thus was the first to discover Ontario. It seems certain that he travelled through what is now Simcoe or Grey counties to Lake Ontario, returning to Quebec by the St. Lawrence; to Quebec which came through many trials, for the next 150 years, ending with the capture of the place by Wolfe in 1759 since which time it has been a prized part of the empire.

It is proposed to have a big celebration here this summer. The Prince of Wales and a fleet of British battleships will be present, all roads will lead to Quebec. An "Appeal" is being made by the "Quebec Battlefield's Association" for subscriptions of a private nature to commemorate fittingly this historic spot, by securing the Plains of Abraham as a National Park.

The "Appeal" we may publish in full and we close this introductory article by a quotation from the preface:

"A Battlefield Park Commission, composed of men who will command the confidence of the whole country, will take charge of the work, and all efforts will be co-ordinated under their direction. The cause is one far above all questions of party, race, locality, or other sectional division; and it has already enlisted the ardent sympathy of both leaders in the Dominion, Sir Wilfrid Laurier and Mr. R. L. Borden, of the prime mover in the whole undertaking, His Excellency Lord Grey, of the French Ambassador in London, and of the Royal Family, headed by His Majesty the King.

The different Branches of the Quebec Battlefield's Association will attend to the work of local collection; and every cent of every private subscription will go straight into the permanent work of Battlefield Park.

Subscriptions not paid to local Treasurers may be sent direct to Colonel J. F. TURNBULL, Hon. General Treasurer, Quebec.

er to The Controller of His Excellency the Governor-General's Household, Government House, Ottawa.

**Artemesia Council**

Artemesia Council met on Saturday, 7th inst with the members all present, the Reeves in the chair. Minutes of last meeting were read and confirmed. Communications were read as follows: From the Cataract Power Company of Orangeville, asking permission to divert the waters of Beaver River at lot 25, con. 10, in order to develop their waterpower, and also asking privilege of placing poles on roadway; Henry Osborne wait-
