Then He was put to death. He was nailed to the cross in shame and beginning. His religion spread until hundreds of millions have taken His name upon the: lins, and millions have been ready to die rather than surrender the faith that He put into their hearts. To me it is easier to believe Him divine than to explain in any other way what He said or did,-Ex.

The Derelict.

I once passed a derelict in the Bay of Biscay. She bore signs of having been on fire; cable chains dangled from the shawsepipe, the masts were gone, the Buk Co., Toronto. decks were green with marine grass, there was no life, only the cargo of logs gave forth a grinding groan, Where had the crew gone? Perhaps a passing ship picked them up; perhaps they took to the boat and were lost, so often have we to say "perhaps" in We squared away at nightfall, and in our sleep dreamed of deserted ships.

The singer is a derelict. Adrift, carried away by foul winds, moving towards a rockbound shore. The derelict was once a goodly ship, well formed, well manned, with a capable commander, but storm, or collision, or fire, made her as we found her. So man was once noble and happy, but he has drifted away from God and happiness. Every dereliet grows worse and not better, every gale shakes her frame and ultimately she will go to pieces. So the sinner grows in badness, deceiving and being deceived. Every dereliet is a menace to navigation. Governments have been moved to send out suitable vessels to blow up and destroy these floating obstacles. The sinner is a menace. He is to be dreaded and avoided. "Go not in the way of evil men." Who does not pray, "gather not my soul with sinners. nor my life with men of blood." Dereliets are sometimes taken in tow to get them out of harm's way, and because they are capable of being repaired, and because they have a valuable cargo. Powerful tugs and strong cables are despatched for the purpose, and they are often successful. Man is capable of being saved, he may be rescued, he has a valuable cargo-a soul beyond price, "What shall a man give in exchange for his soul?" The redemption of the soul is precious, "Believe in the Lord Jesis Christ and Thou shalt be saved."-H. T. Miller,

Christ in the Storm.

As Christ lay asleep in the little boat. with His disciples terror-stricken at the wild tempest that had arisen, how great was their anxiety and how small their faith! And when the Lord was aroused from sleep it was not the storm that He rebuked first, but His disciples. The billows did not trouble Him, The very thing that was His disciples' worry He left alone till he had rebuked them for their unbelief.

Original of Rosa Bonheur's . Horse Fair" No Longer Exists.

The famous old horse market in the Boulevard de l' Hopital in Paris, where Rosa Bonheur used to plod about in man's attire with pencil and sketch book, has ceased to exist. No one who loves horses will regret it, says the Vegetarian, for it represented the acme of equine discomfort.

The new horse market, in the Rue Brancion, which was inaugurated recently, is a model of its kind. It comprises stables and sheds sufficient to shelter 800 horses, more comfortable than most of the poor beasts which come to it have

ever known. It includes an abattoir, where horses that are injured or otherwise rendered unfit for service will be turned into butcher's meat. About 5,000 horses are slaughtered for food in Paris every year, and the number is on the increase so the need of a special abatoir, well organized and closely inspected, has long

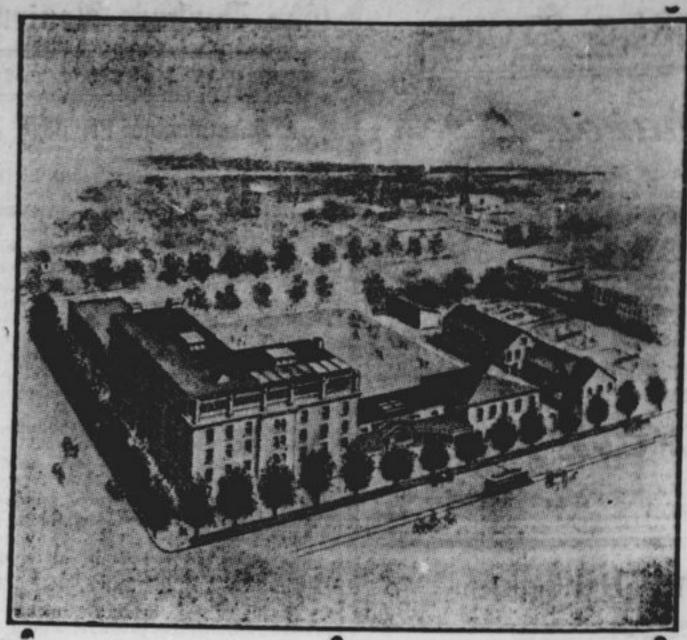

The market and abbatoir were built by a private company, which will turn the property over to the city at the end of seventy years.

The Famous St. Catharines Well

Modern conditions have to be met with modern methods. The pace of the average man of to-day brings in its train nerve exhaustion, frequently taking Robert Burns, writing only 14 days the form of rheumatism, sciatica, neurasthenia and kindred troubles. To provide a place where tired humanity may rest and at the same time enjoy tonic the Commissioners of Excise in order influences is the mission of the management of the famous "St. Catharines

At "The Welland," St. Catharines, where these waters are dispensed, are found conditions which tend to give that much desired rest which tired humanity needs. Here treatments of the St. Catharines well water of a strong saline historiographer of the Inquisition, nature are accompanied with massage and electricity in varying forms. All was glad during the close of his bril- treatments are given under direction of experienced attendants and nurses in charge of a physician.

> Sun Parlors, Roof Promenade, Library, Music Room, all contribute their quota to the comfort of the visitor. The environment is more like a large family hotel, and the underlying principle is to furnish a place where people afflicted with the ills of life will recuperate under the most favorable conditions. This accommodation, too, is provided at a price within reach of the average man.

For further information apply "THE WELLAND," ST. CATHARINES, ONTARIO

Write The J. L. Nichols Co., Limited, Toronto (Please mention this paper.) SUGGESTS KELVIN'S NAME. Proposed New Term for an Electrical A suggestion of much interest comes from England. It is that the name "kelvln" be adopted for the kilowatthour or (in England) Board of Trade

ISSUE NO. 12, 1908.

WANTED

PO ON per day GUARANTEED

unit. The kilowatt-hour being a measure of practical electrical work, is one of the most frequently used of all the electrical units and one with which the general public is perhaps as familiar as any other. The proposal that the memory of Lord Kelvin be honored by apply ing his name to this unit is now derived for it was originally made a number of years ago, during the great man's life American electrical engineers will be

sure to give this proposal a cordial welcome and careful consideration, says the Western Electrician. Aside from honoring a man whom all delight to honor, the word "kelvin." with two syllables, is shorter and more euphonious than "killowatt-hour," with four.

The subject is one of considerable im portance, for the word "kelvin," if it should be finally sanctioned by international agreement, will be in daily use among practical electrical men. Such objections as there may be to the word should therefore be carefully considered at the present time, before the recommendation is finally adopted by the commission.

How it Happened

A certain member of the fashionable Metropolitan and Chevy Chase Clubs at the national capital has all his life borne many quips by reason of his exceedingly diminutive size.

Last spring the diminutive club man took unto himself a wife, the daughter of a well known Federal official, who is said to be as witty as her father. "Mrs. Blank," said a friend one day

recently, "I have just seen your husband for the first time since his marriage. Do irreparable. But it does not take away you know, he seems shorter than ever?" our share of the things that count-ser-"Why not?" asked the wife, with a smile; "he's married and settled down." Harper's Weekly.
