

LESSON XII.-MARCH 22, 1908. Review .- Read John 6: 41-51.

by him; he was the life and the light motive. of men; reference is made to John the Baptist, the forerunner of Christ; he was "not that Light, but was sent to bear witness of that Light;" Jesus was

the true Light. II. Topic: The believer's life-portrayal of his Master. Place: Bethabara, A crisis had arisen in John's ministry; the Sanhedrin sent a deputation from Jerusalem to ask John who he was; John said he was not the Christ, nor Elias. nor the prophet about whom Moses had written, but he was merely a voice crying in the wilderness, "Make straight the way of the Lord." John baptized with water; Christ would baptize with

the Holy Spirit. III. Topic: Secret of soul saving. Place: Bethabara, John pointed Jesus out to two disciples who followed Jesus: Jesus turned and said, "What seek ve? They asked Christ where he dwelt: Jesus said, "Come and see;" Andrew found his brother, Simon, and brought him to Jesus; it is supposed also that John found his brother, James; James found Philip: Philip found Nathaniel: when Philip told Nathaniel that they had found the Messiah, Nathaniel raised an objection: Nathaniel was soon convinced that Jesus was the Messiah.

IV. Topic: Lessons from the temple cleansing. Place: Jerusalem. Jesus went up to Jerusalem at the time the Passover, and found the temple dec ecrated by the traders. He drove out sheep and oxen and overturned the ta bles of the money changers and commanded them not to make his Father's asked him by what authority he did

world, Place: Jerusalem, Nicodemus, a ruler of the Jews, had an interview with Jesus; Jesus introduced the subject of the new birth which Nicode nus could not understand; the Saviour then spoke of the brazen serpent which Moses made in the wilderness, and said that as the serpent was lifted up, "even so must the Son of man be lifted up; that fruits. What is the evidence that the whosoever believeth in him should not | sun is active? The fact that every root

perish." VI. Topic: The way to find salvation, the sun has brought summer? The Place: Jacob's well. Jesus goes fruits of summer. What is the evidence through Samaria; stops at Jacob's well; that the sun has been shedding down meets a woman; asks of her a drink; she upon the earth its light and warmth and expresses surprise; Jesus speaks of the ripening power? The flavor of the fruit. gift of God-living water; she desires Bring me an apple. BRIDGE ENGINEER DEFENDS HIMSELF.

THROWS BLAME FOR QUEBEC DIS-ASTER ON MR. COOPER

Mr. Szlapka Criticised Design of Very

Chord Section That Failed-Pointed Out Weakness to Mr. Cooper, and Received Peremptory Order Not to Alter It.

Phoenixville, Pa., March 16.- After reading the official report of the Canaian Government's commission of investigation, Peter L. Szlapka, who, bridge engineer of New York, is blamed for the defective design which caused the bridge to fall, consented for the first time to be interviewed. One state manner in which he holds Mr. Googer, seif. According to the statement made by the Phoenixvine engineer, and which appears in his sworn testimony, taken by the commission of investigation, he criticised the design of the very chord section that paints, calling the author tion of Mr. Cooper to the weakness which Mr. Sziapka saw in it. alt. Cooper, however, overruled the Ojec tion, and the design was accepted by lam. Mr. Szlapka said, when asked

to comment upon the report: "The findings of the commission are about what we thought they would be, and we are not surprised at any por-Widespread Veto Movement in Progress tion of the report. We have no criticism to make of the commission, who, we believe, did their work faithfully and

> "You must understand," Mr. Szlapka continued, "that every plan or design worked out in the drawing rooms of the Phoenix Bridge Company was made according to the specifications furnished us by the Quebec Bridge & Hai way Company or by Mr. Cooper. Every plan that was drawn was sent to Mr. Cooper in New York, and there either approved or discarded by him as the consulting engineer. Each blue print had to bear his signature before work was begun in the shops."

Mr. Szlapka then stated that the drawings of the chord sections, the faiture of one of which caused the bridge to collapse, were made under his direction in the local drawing rooms, he did not have entire faith in them. The designs of these chord sections were made according to the specifications furnished by Mr. Cooper, and when they were completed they were

sent to him for approval. They came back with the consulting engineer's "O.K." on them, but still Mr. Szlapka was not satisfied, and returned them with a criticism of them, in which he called attention to what he thought was an element of weakings. Mr. Cooper's reply was, "They are all

Hlustrating his position, Mr. Szlapka said: "There is a patient seriously ill. the patient dies. Who is to tiame? The position of Mr. Cooper and myself I consider exactly similar. He is the entinent specialist, I am the family play-

Mr. Szlapka is firm in his ballef il at fell can be built across the St. Lawcompany can do it. He said: "It is not impossible to build a bridge of the cantilever plan 1.800 feet long, or much longer, and the Phoenix Bridge Co. can do it. We are better equipped to build such a bridge than any other bridge-building concern, for the reason that we have been working on it for a dozen years, and the collapse of the first bridge is a valuable, though very sad, experience to us, It has

Requiring Fire Escapes

Montreal, March 16 .- The Society for this morning took up the fight for bet London,-London cables are steady at tween himself and Canadians in mid-At- real against fire and adopted resolutions providing for petitioning the Provincial Legislature for the parsage of laws compelling the authorities to properly equip all school buildings with outside fire escapes.

These fire escapes, it is proposed, shall consist of outside iron galleries on every floor above the first, running completely around the building, wherever possible, and that such galleries have one or more staircases from one to the other on each side of the building. The width of the galleries, slope and width of staircases and height of steps to be regulated by act. A bill is to be introduced at the present session of the Legislature embody-
