In her petition Mrs. Sankey cites the affidavit of the physician in charge of

GOLD RESERVE INADEQUATE British Financier Predicts Trouble i Case of War.

London, April 6.-Sir Robert Giffen, addressing the Royal United Service Institution, gave a new form to the question of the gold reserve in the form of a vision of the calamities that an outbreak of a war with a first-class power would bring upon Great Britain, such as a breakdown of the credit system, ruin of merchants and bankers, and a run for eash on all sides in a general panic, Sir Robert then proceeded to urge the necessity of a greatly increased gold reserve, as a war chest, in order to He estimated the liabilities of the banking system at £900,000,000. The gold reserve is £50,000,000, of which £40,000,000 is in the Bank of England plus money held in Scotland and Ireland

against note issues. He advocates measures that would his plans and leave for France next of note issue, the bank undertaking, in return, to keep a larger reserve, say Conciliatory steps were taken by £10,000,000 more, for emergencies. The
