Heavy Losses by Flood Caused by Bursting of Dam.

Butte, Mont., April 20 .- Late estimates of the loss occasioned by the bursting of the Hauser Lake dam, north of Helena, based upon reports received by the Miner from various points in the flood district, place the amount at about \$500,000, though this may be exceeded by about \$100,000 when a more detailed report is had from the more re-

mote sections. Early to-day the Missouri River at Great Falls was between three and four feet high, rising at the rate of an inch an hour. The slow rise of the river would indicate that the flood had practically spent its force, and the copper I also find that there is something wrong smelters of the Amalgamated at this point are not considered in any danger, The greatest damage outside of the destruction of the dam was done at Craig, 40 miles north of Helena, where the school house, the railroad station, two general stores, two saloons and several residences were torn up and wrecked.
