## THE BIG STORE

### Hardware! Hardware! Hardware must go

We have decided to quit the Hardware business and rather than give one man the entire stock at a sacrifice price, we have cut the retail price down to a figure that will make a great saving for our customers and give them the benefit of the low prices on everything in the hardware line.

Mr. Farmer, it's you that should profit by this cleaning-out sale. Remember we have a complete stock and you can get anything you want or need for this season or any season of the year. All kinds of Forks, Hoes, Rakes, Shovels, Spades, Scythes, Axes and all necessary articles for your needs at less than any other hardware in town or surrounding towns.

### Builders and Contractors

It will be greatly to your advantage to consult us about what you need for any building or repairing which you may have prospects for. Come and get our quotations on orders which you may have to fill whether they are large or small. We that this sale means money saved to you and we mean it. Now its up to you to save money.

Articles in a hardware stock are so numerous that we can't mention them or quote prices but we are here and willing to give you all the best attention and will give you hardware at prices that will surprise you.

Our stock in every other line will be as well assorted as any, as reasonable in price as any, and we will give you as good service as any.

Highest Prices for Produce.

### Arbor Day.

With the advent of spring-like weather, preparations for the ornamental plantings of streets and lawns will be in order. Arbor Day will soon be here; but up to the present the occasion has not attracted the attention that it should. A few people in every community, it is true, do their share in assisting to make their premises beautiful; but the work is far from being as general as was anticipated by the inauguration of Arbor Day. Indeed, it is not necessary to wait two or three weeks hence to plant trees and shrubs. The earlier in the season in planting trees, observe some uniformity, to avoid a mistake to scatter varieties promiscuously in the same block.—Ex.

### Swinton Park.
