

Tragedy and Triumph. (By Geo. W. Armstrong.)

Saddest page in human story, Was the day when Jesus died: When-nailed to His cross so gory-At Golgotha/erucified.

He was wound in linen grave clothes, (Hé who came the world to save); Was embalmed with myrrh and aloes, Laid in saintly Joseph's grave.

Through a tragedy of sorrow, And a death of grief and pain; He shall triumph on the morrow, And God's just decrees maintain.

Death and tomb enthroned before. Cannot cast dark shadows now: For their usurped reign is o'er, Glory crowns the Victor's brow.

So through sorrow, grief and sadness, Duty, danger, death may lie; Dull Golgotha beams with gladness, Calvary teaches Death shall die.

Thus Good Friday's gloomy dawn. To a triumph leads the way: And a glorious Easter morn, Hails Christ's resurrection day. London, Ont.

Prayer.

O, great Keeper of the destinies of man, be near us upon this Sabbath day. There are times when all seems dark, when life seems so much a part of death that our souls cower in the gloom of hopelessness and refuse to be comforted. At such seasons, we pray Thee, send us the blessed hope, and assurance which tells us that man's end is not death, but life, not defeat, but victory and life everlasting. And this we ask in His name who died that we might have this sure knowledge and comfort. Amen.

Shall We Reach the Goal?

(By the Rev. James Learmount.) The author of "Tom Brown's Schooldays" hit the mark when he said of football, "It is more than a game, it is an institution." It is very old. It has had a long history in the world, and several nations claim to have originated it. The last twenty-five years has established it as our great winter game. No other draws such crowds of sightseers and admirers. The players have the exercise, and the onlookers the fresh air, neither of them bad things. Its everlasting movement and push suits the British comperament even more than the beauty be found in our national summer game

In a football team that would not be tolerated for a play, and play his hardest and best, too. We do not like professionalism in football, nor do we like it any better in a Christian. Is it too much to say that, in the work for God and humanity, all should take part and do their best? There ought to be no onlookers or sightseers, that ought to be left to the angels, the "great cloud of witnesses."

Oregon Post Office Names

Albany, Ore.-For queer names

towns, Oregon excels any State in Union. Natural statistics and freaks of fortune made many names, and the pioneer, who settled in this Far Western State often selected a name for their new location from the very first chance occurrence in connection with it. Indian names and some drawn from

the classics appear in Oregon's post of fice list, but predominant are the names indicative of the life of the West, Animals, birds and trees have also contributed their names to settlements. The part chance has played in forming Oregon's post office list is illustrated in

Bakeoven. In early days a Frenchman started from The Dailies, which, by the way, takes its name from the dailies or falls in the Coiumbia River, with a cargo of flour for the mines at Canyon City. another town named from its geograph ical location. The first night he went into camp a

band of Indians came along and drove off all his mules. Unable to move his flour, he gathered some rocks together. built a big oven and then gradually baked his flour into bread.

The bread was sold to passing miners and travellers along the trail at a much greater profit than he would otherwise have received. As a result of this occurrence the little town which now stands on the site of the Frenchman's camp is named Bakeoven, and residents yet point out the blackened rocks which were a part of the original bakeoven that gave the place its name.

Similar in origin to Bakeoven are Haystack, Tanks, Echo, Box and Apiary Haystack was named for the only thing standing on the ground when the post office was established, and Tanks is a station on the O., R. & N. Railroad in Umatilla County, where the watering tanks of that division is situated.

Gooseberry, Looking Glass and Mule all appear on Oregon's map. When a post office was established at Gooseberry the Department told I. R. Esteb. who was appointed postmaster, to select a name different from any other in the United States. His inspiration came from an immense gooseberry bush. There is also a post office in Oregon named Strawberry.

The name of Looking Glass comes from the clear stream which runs near this post office. Among other names chosen on account of surroundings are Juniper, which stands among the juniper trees of eastern Oregon; Peak, located near the foot of Mary's Peak, the highest point in the Coast Range; Fossil, county seat of Wheeler county, and near There has often come to me when fosil deposits, and Lime, Lava, Mineral watching all the men in a good team co- and Meadow, all named because of the operating with each other, all playing | chief characteristic of their natural sur-

But this name was so similar to Mehama to. which is only a few miles away, that the Post Office Department rejected it. Lawler reversed the letters and called the post office Anidem.

Corvallis, county seat of Benton County, is Latin in origin, meaning the heart of the valley. It was originally named Marysville. About 1870 this town and a magnificent record, though here she Salem, the capital of Oregon, and Albany, the county seat of Linn County, desired names which were not so common. Marysville became Corvallis, Albany changed to Taknah and Salem became Chemeketa. The acts of physical courage display by strong emotion and great excitement. The bravery is the result of a 10512 impulse, but it is generally a wift and sudden impulse. The bravery in which women excel men is a bravery of selfconquest, a bravery which, with a full knowledge of perils, pains and penaities thought out and appreciated, endures

The bravery is the result of a noble imten accomplished by timorous women, says George R. Sims. A brave woman, whose whole life-story was one of anflinching braver yin the face of calaraities which would take the heart out of any ordinary man, was afraid to pass a cow in a country lane.

In the trials and tribulations of family life the woman is braver than the man; the good wife is braver in domestice stress than the good husband; the good mother often sets an example of the noblest form of bravery to the best of fathers.

In the homes of the poor the lift of the woman who loves her husband and her children is sometimes an idvll of heroic self-sacrifice and brave endurance. And yet in many things it may be contended that men are braver than women. If there is any one thing that a Men are braver, far braver, than women in acknowledging error.
