We close at 7 o'clock on Mondays, Wednesdays, and Friday nights onlv.

## Taylor & Co., Dromore

### Holstein.

Election day passed off very quietly and a small vote was polled here. Rev. Mr. and Mrs. Little left for Winnipeg last Tuesday. After attendance at the Assembly, they will go further West and expect to be gone about six weeks.

Mr. James Ellis, who is taking Mr Little's work while he is away, occupied the Presbyterian pulpit on Sunday morning, preaching very acceptably to a large congregation.

Mr. Glass, of Durham, preached in the Methodist church on Sunday. Rev. Mr. and Mrs. King have been in attendance at the Hamilton Conference.

Mrs. J. H. Brown is spending a few weeks visiting in Niagara Falls and Buffalo.

The welcome rain of Monday evening was needed and everything is looking well with splendid prospects for a bumper harvest.

Hay is plentiful here at present, a good many of the farmers being anxious to sell their old stock. The price is \$8 and under.

Mrs. T. S. Brown, who has been very sick for several weeks is slowly recovering.

Mrs. Pinder and two children. Mr. and Mrs. P. Cornish and Robert Barton took the train Tuesday morning for a trip to the Western country.

The creamery is running again and a fair supply of cream is coming in.

Mr. Stewart, of Toledo, is visiting his mother here for a few weeks.

A new dressing room for the convenience of our numerous swimmers has been erected close to the boat house and will be a boon to the boys.

Born.—To Mr and Mrs W. J. Kelsic, June 6th, a son.

### Hampden

Mr. Will Little of Ayr, is visiting his sister Mrs. M. W. Byers and other friends this week.

Mrs. McClinton and baby Myra of Varney, called on Mrs. H. Fulton last Friday afternoon. Miss Leeson accompanied them home, remaining over till Monday.

Rev. Drysdale, formerly engaged in mission work in West Africa has occupied the pulpit here for the last two Sundays in the absence of Rev. A. Budge who is attending the Assembly at Winnipeg. Mr. Drysdale gave a very interesting talk on Africa on Sunday and also addressed the Sunday School giving both old and young clearer and better ideas of the extent and hardships as well as the joys of mission work among the darker-skinned people of far-off Nigeria.

A meeting was held in the school on Thursday evening in the interests of the Reform Candidate, but, like the Conservative meeting of a fortnight before, it was but poorly attended as but few knew when it was to be.

Potatoes are all in now and everyone is in a hurry to finish corn-planting.

Mr. V. Pfeffer's horses took fright and ran away on his own place one evening last week. Fortunately no one was seriously hurt although things were exciting for a while.

Mr. Wm. Marshall did pretty good work with his sheep shearing machine last week getting his flock of over seventy very neatly clipped.

Mrs. H. Fulton, Mrs. Derby, Miss J. Derby, Miss H. Byers and Miss Leeson attended the meeting of the Ladies Institute at Ayton on Monday afternoon.

The Junior Baseball Team are practising for a game on the 2nd in near future.

Mr. and Miss Wenger of Ayton spent Sunday at Mr. W. Goddes.

Mrs. Fulton Sr. and Miss Mary spent a day last week with Mr. and Mrs. Hugh Fulton.

Mr. T. Derby and Miss Jessie spent the week end with friends in Egremont.

Mrs. Sackett and her daughters, Olive, Edna and Etie visited their relatives at Sackett's Corners last week.

### Hopeville.

In our last week's budget, we mentioned that Mr. McEach had left here for Toronto. In this we were mistaken, as he turned up again and is staying for some time while these night meetings last.

On our sick list in the village, we have Wm. Scriminger with pleurisy, Angus Ferguson with a strained leg, and Joseph McArdie with a bad cold. They are all improving slowly.

We have considerable changes in our village by our business men. David Allen is giving up the selling of buggies and cutters and is likely to go to the mining country. Wm. Burnet has got the agency for selling such goods and has the old wagon shop of Neil McDonald rented. James Fullerton has rented the little shop from Wm. Burnet, known as McDonald's shoe shop and has it filled with Cream Separators, stoves, baby carriages and cradles.

Proton Council held the second meeting as a Court of Revision on Saturday last at Bilton's temperance house. We do not know how many

### Summer Millinery

Our Summer Millinery of last week was most successful. All June we will show a large assortment of Summer Hats made up of all the latest Summer materials. We have a large assortment of children's hats and bonnets and a choice lot of black hats made in mohair braids, etc.

We invite your inspection any time you are in town and whenever you wish to see the new styles.

## Parisian Millinery Co.

MISS DICK, Proprietor

### Edge Hill.

Mr. Dan Edge was elected at the Farmers' Institute meeting last week to the Presidency of the Institute. Congratulations.

Mr. Jno. Collier is serving on a jury in Owen Sound this week.

Mr. Thos. Collier is building a lime kiln and will be able to supply all wants in that line.

The elections are over and all are settling down to work after a quiet campaign.

Miss Sarah Edge visited friends in Toronto last week.

Miss Amy Edge, who has completed her exams at Normal College, came home Saturday last.

### Bed, Board and Booze.

A Commercial traveller, writing in "Saturday Night," has the following pertinent remarks on the incongruity of associating accommodation as to meals and liquor with the selling of liquor over a bar:

"It is not the purpose of the writer to discuss temperance, that should be a separate issue.

If the residents of any community want to go swimming in pale ale or club rye, the travelling public might be amused, but would be by no means personally concerned. If the inhabitants of any town want to banish strong liquor from their midst, it should be of no more concern to the stranger who comes within their gates than the building of a concrete walk or the placing of a new lamp post.

The primary fault lies in the ancient but unnecessary custom which couples the bar with meals and a bed. Just why the housing and feeding of transient guests should be associated with the sale of whisky is a mystery that appeals more strongly to the average commercial man than to any other person. The statement of some hotelmen that the travellers must have liquor is an untruth that scarcely needs refuting. Any wholesaler who employs travellers will unhesitatingly say that the man who wants liquor very badly is the man who cannot get a job on his staff. Drinking whisky and selling goods were divorced many years ago.

This unholy alliance between accommodation and booze has brought the legitimate hotel business into the hands of men who are willing to sell liquor, and even men who are in it will admit that it often is as disreputable a trade as one could well engage in. As a natural result the bar is of first importance to the hotel proprietor, and the accommodation offered is the very least degree of comfort or convenience possible. So long as these totally separate lines of business are legally coupled, the comfort of the travelling public will be sacrificed either to the acquisitiveness of the booze dispenser, or else to the petty vengeance of the man who has been deprived of his chief source of revenue. If a man thinks he can sell whisky to his neighbors and they desire him to do so, let him engage in that business, but it seems just as reasonable to stipulate that he should carry with it a full line of pitchforks, axe handles, and undershirts, as to say that he must give total strangers who do not want whisky a bed and three meals.

### Assistance in Drainage.

#### Farm Drainage Demonstrations.

The Department of Physics at the Ontario Agricultural College desires to announce the continuance of its previous offer of assistance to farmers in matters pertaining to drainage.

For the past three years we have been authorized by the Minister of Agriculture to go out and assist any farmer in taking the levels of his lands for drainage purposes, in planning the most advantageous systems of drains, and in calculating the grades and sizes of tile for the different drains. A finished map bearing all the information is sent to the owner. This serves two purposes: first, it is used as a guide in constructing the drains; second, it may be preserved as a record of the exact location of every drain, so that if for any reason it should be necessary in years to come to find any drain it could be done accurately at a moment's notice.

The number of applications for assistance has increased very rapidly, so that last year we had many more than we could attend to. To enable us to meet this increased demand the Minister of Agriculture has this year given us a special appropriation whereby we have been enabled to double our staff for this work.

A new feature is being added: We have found in the past that frequently the neighbors in the vicinity of the farm being surveyed were interested and wished to observe the operations. This suggested the desirability of making these demonstrations public, and this will be done wherever possible. Anyone interested will be welcome on all occasions. By this means we shall be able to instruct a much larger number in matters pertaining to drainage problems.

Anyone wishing drainage surveying done should apply to Wm. H. Day, Department of Physics, O. A. C., Guelph. The only outlay connected with the work is the travelling expenses of one man, including meals, cartage of instruments and railway fare at one cent a mile each way.

The Department has just issued a new pamphlet on "Farm Drainage Operations," which may be had on application.

WM. H. DAY,  
Lecturer in Physics.

## A GRAND EXCURSION

Per Grand Trunk Railway System  
To Experimental  
Farm and Ontario  
Agricultural College  
**GUELPH**

Will be held under the auspices of the  
South Grey and East Wellington  
Farmers' Institute on

**SATURDAY, JUNE 13, '08.**

HANOVER	7:22 "	1.15 60
NEUSTADT	7:30 "	1.15 60
AYTON	7:40 "	1.10 55
ALSFELDT	7:55 "	1.10 55
PALMERSTON	8:20 "	

Arrive at Guelph 9:35 a.m. Returning leave Guelph 5:30 p.m. Tickets good to return on any train on the 13th June.

### SIGHT SEEING.

All are invited and all should take this opportunity of visiting the farm which, in all its different departments, is worthy of inspection. The experimental plots of all varieties of grains, grasses, roots and forage crop; the different breeds of live stock; the farm diary; the creamery; the cheese factory; the museum and the flower department; the rural consolidation school buildings, where the children from five school sections are taught in a good graded school; and the McDonald Institute, a school for farmers' daughters. The immense buildings were erected by Sir Wm. McDonald of Montreal. Ample train accommodation will be provided and everything will be comfortable. Make your arrangements early and take in this excursion.

Special invitation extended to school children who will receive special attention on the farm if there in considerable numbers.

Lunch provided on the farm.
