> The True Rock. (By Rev. Dr. R. Torrey.)

You will find my text in Deut. xxxii. judges." The Israelites, the people of God, were surrounded by many enemies. Their enemies were very loth to admit that the Israelites had anything better than they had; but they couldn't help more for them than their false gods did for them-as Moses put it, "Their rock is not our Rock, even our enemies themselves being judges."

It is just the same to-day. Christians are surrounded with people who don't sympathize with them; by people, oftentimes, who are bitterly opposed to them; by worldlings, impenitent sinners and unbelievers. And worldlings, and penitent sinners, and unbelievers are very unwilling to admit that the Chris-

tian has anything better than they have. Now I want to tell you six points in which the believer in Christ has the best of it-that whether Christianity is true or whether it is false-whether there is any hell hereafter to shun, or any heaven to gain, or not-six points in which the real believer in Christ, the true, open, confessed, out-and-out follower of Christ, has the better of it over the worldling and over the infidel.

First of all the real Christian has a peace of conscience that the worldling and the unbeliever knows nothing about. Now, you may account for it as you will, that is a fact. Thousands, and tens of thousands, and hundreds of thousands of men and women who have lived in sin -gone down, some of them, into the deepest depths of sin-have turned from sin and taken Christ, and, as a result of their taking Christ, their accusing conscience has been put to rest, and they have a peace of heart that nothing can disturb. Why, a Christian knows that his sins are all forgiven; that, no .natter how many they are, no matter how great they have been, everyone of them

The third place where the real Christian has the better of the worldling and the unbeliever is that the worldling and has a comfort in sorrow that the world- cover with a flannel which has been ling and the unbeliever knows nothing about. which is very far better .. There is another place where the Christian has the best of it. The Christian has a hope that the unbeliever and the worldling knows nothing about.

When a certain English duke—a Christian man-lay dying, he called his brother-for he had no child-to his bedside, and he said to his brother: "Brother, in a few moments you will be a duke and I will be a king." "An inheritance incurruptible, and that fadeth not away," laid up in store in heaven.

How to Walk Confidently.

Trustful blindness is better than worrying sight. A pedestrian noticed two persons coming toward him at night and was particularly impressed by th learing of one, who was walking straight ahead at a good gait, head up, shoulders back, the whole manner bespeaking exceptional confidence and freedom from all uncertainty or worry. And then, on looking closely, he saw that this one was blind, being led by the other. Of course the blind one could walk confidently, for he had something better than sight; h had a guide! This confident bearing of the blind is not exceptional; it is their usual manner, as we all know. How strikingly it contrasts with the worried uncertain look of those whose seeing eyes shift constantly here and there i the effort to see danger and avoid it! Blindness is the best training for calm and quiet faith; therefore the Lord protual walk. We cannot see that which is ahead, and we need not; but we have a Guide who is safer than sight .- S. S.

MARRY FIRST; LOVE LATER. Japanese Woman Tells of Cupid's Scheme in the Orient.

Her father arranges a meeting and the two young persons are introduced. Maybe they do not love at first, but after a while a great and tender affection steals upon them. The Drug Habit. In a Massachusetts town the other day a number of youths were gathered in by the police who were having a "cocaine party." It is said that the use of this drug in saloons is becoming more and more common on the other side of the line, where it can be obtained as readily as whisky. Its use is more fatal than any alcoholic beverage, as it leaves its victim a moral as well as a physical wreck in a short time. In this country a business of this kind could hardly be done openly.
