Weyburn to Winnipeg.

—VIII.—

DEAR REVIEW READERS: My last letter was closed as that excellent train the "Spokane Flyer" was approaching Weyburn, and as we stepped off on Saturday evening in the gloaming, the town presented the usual appearance of "open night" and good business seemed to be being done.

There are three fine hotels here, the Royal an elegant structure costing the say \$80000 being the most pretensions, having amongst up-to-date features individual telephones in each room. The Wayerly and North Star the latter strictly temperance are also good hostleries.

The place is about the size of Durham but its assessed value is \$95000. It is not yet 10 years old but styles itself the metropolis of Southern Saskatchewan and looks forward to being on the main line of the C. P. R. some day when a proposed connection is made with Lethbridge. This would certainly make a shorter route to the coast.

There are no fewer than 7 elevators to accommodate the grain needs of the district and its fine stores, built and building, indicate substantial progress. Amongst these is the Jewelry business of Mr A. Gordon, well-known in Durham, who, with his family are pushing their way in the west. Mr Gordon at the time of our visit had gone to Banff for a few weeks treatment of a rheumatic affection, his son Attila with an assistant, attending to the business. Here also the pre-emption lever was being already on a good farm a few miles out. Mr Gordon owns a fine residence here and we regretted not seeing him amongst his hospitable family. Miss Gordon is teaching in Moosomin High School.

Weyburn is largely a Dandak settlement. One of its two papers is published by T H Blacklock formerly of Dundak, and we heard of many others. Amongst these we met with Dr. Mitchell, now M. P. P. for his district since the recent election, who kindly showed us points of interest and gave us a whirl of western politics. He is a true citizen and is particularly proud of their fine new school erected last year at a cost of \$8000. Presbyterian, Methodist, Anglican, Baptist, and Roman Catholic bodies have ornate modern churches and it is evident the finer things of the mind and soul are not forgotten.

Some miles out are a colony of the Ledinghams from Dornoch. Hector McKinnon, son of Pricewille's postmaster and Donald McLean also found employment here. At Presbyterian church we were united unexpectedly by Mr Little who presided here this summer, and in the evening he should we see take a seat in the Methodist church but Tom McDonald (son of A. C.) who is teaching a few miles off. We laid for him and had a good talk with him and his bright lady friend,—but there we didn't intend to say a word about it. This is all over the west—a South Grey man couldn't hide. We met with a Mr Tedford a friend of Dr. Hutton's, head of the McWilliams from Dundak and many others. Good-bye Weyburn.

On to Estevan, where the C. P. R. makes miserable connections with the east. Here is a land office and the usual excitement. Elevators of course, for everywhere are well-cultivated farms, spring wheat, the staple. Carnduff is our next stopping place a village with 5 elevators all beginning to be busy to accommodate the endless straggling of waggon filled with wheat, arriving from early morning till 10 at night. Already grubbing is heard of shortage in the crop supply especially at the farmers' co-operative elevator, which opened first and was busiest of them all.

As guests of our old neighbors Mr and Mrs Wm Horsburg, we spent a pleasant 24 hours. Mr Horsburg is farming 480 acres and has a good crop this year. Last year, as over most of the west, the crop was poor; this year it will run from 17 to 20 bushels on the average. The mighty separators are blowing on all sides throwing little bits for each farmer to get them started. Mr Horsburg's "little bit" consisted of 1-5 acres, the rest being in stock, the accommodating weather of this country bringing no injury to it. Two of his brothers and a nephew have large holdings near and all prospering.

We are only 8 miles from the boundary at Horsburg's and a day's drive would land us at Bottineau, N. Dak., where we entered many from this part. But Bottineau, Westhope, and other points we can visit only in thought as we pass by on our way to Winnipeg. Souris, Glenora and Cypress river pretty towns with trees. We are in Manitoba again, stocks nearly all into stacks which show by the hundred over the landscape. We have not seen so many stacks together since we left old Haddington.

But night is falling. We will reach Winnipeg at 10 p. m. and when next we see the country it will not be prairie. Good-bye "Gardens of the Desert."

Another enjoyable day was spent in the bustling city, in which though there were entranced for Toronto by the "Express" straight through regretting the ailments of the west had taken up time we intended to spend at Port Arthur. We got on the south side of the car to view the paradise of Lake Superior again but alas! the smoke cloud which extended from Winnipeg to Toronto hindered all sight-seeing except the barren rock and scrub of Ontario's hinterland. The grand old smokestack seemed to breathe a welcome after the bare barbed-wire areas of the west, but Toronto's streets seemed to us cramped and congested after the wide avenues of Winnipeg, Edmonton and other cities. But here we are on the way for home, and we yield up our ticket to the last conductor with regret after having served us for over 5100 miles.

[We have sketches of our Banff trip, of a trip to the Sarcee Indian Reservation, and of several other features which we may find space for in future issues. We beg to thank the many friends who have spoken kindly of our write-ups.—ED.]

Farm For Sale or Rent. Lot 6, Con. 15, Proton, containing 100 acres, 50 acres cleared, and in good state of cultivation, about 8 acres of hardwood bush. On the premises is erected a barn 44x90 with stone stabling. Good hog pen and hen house. Comfortable house, kitchen and woodshed, also orchard. 3 never-failing wells.
