ARTISTIC ITALIAN COINS.

Examples of the New Pieces Received by

American Collectors.

Two new Italian coins of 1908, just received in this city by Thomas L. Elder, member of the committee on new coin designs of the New York Numismatic Society, show that the Italian engravers, ter, four tomatoes, eight ears of corn; abandoning modern coin designs, have spiration. As a result the new coins have been pronounced by such experts as the most beautiful to be struck in modern times.

The Italian engraver Giorgi has taken the quadriga, or four horse chariot, a coin device which dates back to something like 500 B. C., for his model. On the obverse of the new two lire piece is shown the quadriga, four horses abreast, in full gallop, driven by the Five cups flour, one cup butter, three | victoriaus charioteer fresh from the cups sugar, one cup cream, five eggs, one Olympian games, with laurel branch in teaspoon saleratus, and the peel and his raised left hand and a shield on the right arm. TOLD ABOUT THE KING. Turning from matters of serious naval oolicy, it is pleasant to hear that the king's popularity in the navy has been made even greater than ever by recent incidents on the cruise to the north, the visit to Portland, and during the Cowes week. His Majesty's interest in, and concern for, the welfare of the officers and men of the fleet is as evident as ever, as is shown by something that happened not very long ago on the royal yacht. An order had been given that the red ceremonial carpet used on deck should be kept in place every night until the King had come on board, or until the officers had done so. night His Majesty did not go ashore, and about 10 o'clock was enjoying a quiet cigar on deck, when he noticed a mysterious group of sailors waiting about with no apparent object. It evidently occurred to the King that it was unusual for so many men to be about so late, and he called out for the quarter master. "Send for the officer of the watch," he demanded, and on that individual appearing, His Majesty asked What are all these men hanging about for!" "The carpet, sir," was the reply. "What do you mean?" said the King The officer explained that the men had to wait till the last officer came on board before they could roll up and take away the red felt. "But," the King asked, "don't these men have to get up at five o'clock in the morning?" The officer admitted that that was so. "Then," said the sailors' royal friend, "in future whether I am on board or not, you take up the carpet before you pipe the men to

does His Majesty's "human" character. The other day on the royal yacht a party of sailors were seated between decks during an idle hour, indulging in a pastime forbidden on board-a game of cards for money. Attracted by subdued sounds of laughter, the King strolled along the deck, and, unnoticed by the Jacks below, watched the game for some time through the open hatchway. It was evidently an exciting gamble, for the King became as much absorbed in it as the men. Suddenly His Majesty looked up, and there was an officer petrified with astonishment at the spectacle of the King calmly following the illicit game going on underneath. Seeing that he was detected, the King turned away. and walked quietly aft. The officer

Man's Perfidy. "You have named the baby Tetanus?" exclaimed the horrified caller, "Yes," answered Mrs. Lapsling, "I think that's what we'll call her. It's the name my husband suggests." "But think how it will mortify her when she grows to be a young woman!
