Official Returns.

Officer McCannel went over the figures he found that 2267 votes had been cast Ball, electing the former as member the most, of Parliament by 87 majority.

Mr Ball has proved that he is a doughty opponent and has reason to be proud of his feat in reducing a majority of 316 to 87. Mr Miller four years ago admitted his majority was swelled by Conservatives, who on this occasion have returned to their fold, influenced by the tirade, largely groundless, against the government. Mr Miller fought his battle practica!- McKinnon. ly alone, while his opponent had the most brilliant members of his party to his aid. Lodge influence too was against Miller and this he had no

means of combatting except from the platform. Now that the smoke has cleared away we think that even in Conservative ranks there must be satisfaction that H. H. Miller will be allowed to continue his good work as M. P. for all South Grey for another

Laurier will have a majority of 51 possibly nore. In 1904 we wrote 1896 majority 37 : 1900 majority 52 : 1904 majority 62: A few more elections and the country will be unanimous." The rising tide has not continued, a small ebb has taken place which may we suppose be taken as a warning that slips have been made that need correction, and this we think Laurier will attend to. It is the desire of every honest element in Liberal party to keep their record clean and investigation should further be made into the wholesale charges

set his house in order, and they won't be disappointed.

SUMMARY

Analysis of the Vote.

As an evidence of the interest taken in the campaign we may point on that the total vote in 1908 is 309 larger When on Thursday last Returning than in 1904. From the table we give day morning for Detroit. it will be seen that Bentinck is the only municipality to show a decrease. for H. H. Miller and 2180 for R. J. Egremont and Hanover have increased
