S. F. MORLOCK

Confined to His Home for Weeks.

"Heavy work, severe straining and evil habits in youth brought on a double varicocele. When I worked hard the aching would become severe and I was often laid up for a week at a time. My family physician told me an operation was my only hope -but I created it.

I tried several specialists, but soon found out all they wanted was my money. I commenced to look upon all doctors as little better than regues. One day my boss asked me why I was off work so much and I told him my condition. He advised me to consult Drs. Kennedy & Kennedy, as he had taken treatment from them himself and knew they were square and skillful. I wrote them and got The New Mergon TREATMENT. My progress was somewhat slow and during the first month's treatment I was somewhat discouraged. However, I continued treatment for three months longer and was rewarded with a complete cure. I could only earn \$12 a week in a machine shop before treatment, now I am earning \$21 and never lese a day. I wish

As usual a grand spread was prepared by the good ladies of the church or rather churches ior some of the sister churches saidted in making the evening a success. The number of baskets taken in during the evening would make a neat little sum in addition for a small boy to add up and the contents would make a larger sum for a bigger boy as they were more numerous and the number of teeth used in doing justice to the good things contained in the baskets, would puzzle a Town Assessor to add up if set in columns. We cannot youch for how many basket fulls were taken up after all were through out we can vouch there was enough and to spare anyway. To check early colds or Grippe with "Preventics"

means sure defeat for Pneumonia. To stop a cold with Preventies is safer than to let it run and be obliged to cure it afterwards. To be sure, Preventics will cure even a deeply scated cold, but taken early—at the sneeze stage—they break, or head off these early colds. That's surely better.

That's why they are called Preventics.

Preventics are little Candy Cold Cures. No Quin-

tne, no physic, nothing sickening. Nice for the children—and thoroughly safe too. If you feel chilly, if you sneeze, if you ache all over, think of
