The foronto Star's Growth

An spech in Ontario newspaper development has been recorded during the last year when The Toronto Daily Star jumped into first place in circulation, thus furnishing another climax to a record of growth that is quite unparrelleled in Canadian journalism. It Plain Facts Tennyson and Longfellow could take a worthless sheet of paper, write a poem upon it and make it

write a poem upon it and make it worth \$65,000; that is gentus. Rockefeller can write a few words on a sheet of paper and make it worth 5,000,000; that's capital. England can take 122 grains of gold, stamp upon it 'King Edward VII' and make it worth \$5; that's over 8,000 copies daily.

In its editorial policy The Star has watchsprings worth \$1000; that's gained a reputation for sanity and skill. A woman can purchase a fairness, and while it has strong views hat for 75c but prefers one that costs \$27; that's foolishness. A different.

When it comes to news-gathering The Star can generally be depended upon to lead the way in enterprise. serving its readers was illustrated many times during the year, a notable illustration being on the toccasion of when a man or woman wants first-class Jewelery or Silver-ware, they go to Webster's, Dur-ham, Ont.; that's common sense the Olympic games, when it sent s member of its staff from Toronto to England to cover them specially by cable and letter for The Star.

The Star not only gets the best news, P. G. A. Webster but it dresses it up so as to make its pages bright and attractive. It is a firm believer in the value of striking

These are some of the reasons why The Star is now supreme in its field. One of the latest features of the paper has been a series of articles on combines, which has been attracting very wide attention. These articles are 250 acres on the Garafraxa Road, being quoted and commented on every-200 clear, 50 acres hardwood bush, well where, and one subscriber wrote the other day to say that one of the articles alone was worth his whole year's subscription.

The Inoculation of Seed.

hape. Price \$5000. The Ontario Agricultural College has in press a bulletin from the Bac-100 acres in Glenelg, excellent fences, teriological Laboratory, giving the arm with a few acres of good timber. results of work on the inoculation of Price \$4000. Will exchange for Town seed with bacteria to increase the 100 acres in Proton, near Swinton chances of the crop. This work has Park, fair buildings, good land, well been in progress since 1903, and has trained, well watered and well fenced, increased the amount each year. It has been known for many years that 100 acres. The celebrated Aldred the nodules or tubercles on the roots arm in Bentinck, land as good as the of alfalfa, clovers, peas, beans, etc., est in the County.
