can be destroyed and hundreds of thousands of dollars saved to farmers of the state by the use of Formalin. This is not a theory but a well-proven fact, Formalin is recommended for this purpose by the government and each year thousands of farmers prevent depreciation of their crops by its use.

In some instances, the best results are not obtained because an inferior grade of Formalin is used. Our Formalin is the best grade for this purpose.

To make sure of the best results you should secure your supply here

### TOPICS OF THE WEEK.

-70000 Settlers are expected to come from the United States into Canada during 1909.

-Trains snow-bound in Colorado; farmers seeding in Alberta : which way is the North pole anyway?

-A new temperance law of Norway prohibits a man from spending more than 5 cts at a bar on any one visit. That would be easily evaded unless a limit is put on the visits.

-Toronto has notices all over its streets forbidding spitting on side walk. Now Montreal has the same prohibition for its street cars. Why should not every town have this prohibition amongst its municipal regu-

The Suffragerte agitation has taken a deep hold in the United States, It is gripping at Canada likewise. There are about as many women opposed to voting as favor it, Women are waging war on women over the matter. In England the militant section are embracing prison walls. They think it noble to die in such a cause. Meanwhile the husbands go hung, y and the children with unwashed faces are crying in the streets.

-A fearful massacre of Christians has taken place in Asia Minor, about 5000 being reported killed. To make it more gruesome it is thought that the Sultan is at the bottom of it confirming the title he has earned "The Great Assassin." The Christian powers of Europe stand and look on for the Sultan and his country occupy a strategic position in the world, and all wish to keep on the good side of him.

The story of the six score English miners who sang "Lead Kindly Light. " as they awaited death entombed in the bowels of the earth, will cause a lump to rise in the throat of many a British subject. It is a common story, too, in British history, on land and sea alike. The soldiers, who standing at attention went down with the "Birkenhead," the cheering sailors who were engulted with the "Victoria." the troopers of the Shang-ani Patrol who joined hand, and sang, "God Save the Queen," as the Matabele impi wiped them out of existence—these are the examples which inspire the race to bear themselves like men in the hour of peril. Whatever his detects may be, the much criticised Englishman knows how to die like a man, and that covers a multitude of sin

Hon. Clifford Sifton, of Ottawa and his two sons, students at Toronto University, were in Hanover Monday, Mr Sifton is a decided horse fancier, and he came here to inspect Mr H. H. Miller's Arab colt with a view to purchase. After seeing the animal, a change of ownership was quickly consummated at a fancy figure. The colt will be shipped next week, and Hon. Mr Sifton purposes exhibiting it at the Montreal Horse Show next month. He will also exhibit at Montreal a couple of horses which he recently purchased in England. This Arab colt in question is the only pure bred Arab horse in Canada.—Hanover Post,

### A Bouquet from the Premier.

At the closing of the Local House Premier Whitney had the courtesy to go out of his way to pay a well-de-served compliment to the opposition leader, Hoa. A. G. MacKay' It was done in these words: "I would not feel that I were allowing the House to close properly, if I did not say that in twenty-one years' experience I have known no leader of the Opposition who paid more attention to the business of the House, and who guarded more carefully the interests of the people than the man who at present holds that position." This tribute to Mr. MacKay was heartily

THE PUGSLEY CHARGE.-Dr Pugsley, Minister of Public Works in the Laurier Cabinet for the past two years, has been accused by a Royal Commission of something like malversation in the administration of the affairs of New Brunswick while be held office in that Province before coming to Ottawa. He was at first Attorney. General under the Premiership of Mi Tweedie, and he succeeded the latter when he was appointed Lieutenant-Governor. Both are under the con-demnation of the Royal Commission. The usual course for an accused Minister to take in such a case is to resign pending an inquiry. Dr Pugsley ought certainly to do so There is no charge of maladministration in his own Department of Dominion affairs, but the Premier of Canada cannot afford to retain in his Cabinet a colleague who has been besmirched in any previous public position and has never expiated his offence. Of course, it is quite possible that Dr Pugsley may be able to disprove the accusations against him, in which case his resignation would naturally not be sccepted, and he would retain the portfolio of Public Works,-Presby-
