"BIBLICAL LESSONS."

A tyrant smiled on his princess; A tyrant spoke to his own; "Cities of strength surrender to me, And nations build my throne; My glory is for my kingdom And I gild my gods of stone That are greater than Israel's, Said the tyrant to his own.

A nation bowed to false idols; A prophet spoke to his own; "Israel shall feel a tyrant's wrath To melt her hearts of stone; The rod of his anger shall cease, And the lands of tyrant groan; For I speak the truth of my God; Said the prophet to his own.

The Lord inspired Itis true prophet; The prophet spoke to his own; "Lo! desolate thy cities shall be Thy fair land white with bones; Jerusalem shall be a heap, And her den of dragons moan And water of gall they shal drink;"

An angel spoke to the aged; 'Joy and gladness shall come unto thee Thy wife shall be blessed with a son

An angel spoke to Mary; "Thou that art favored highly by God, Hall, the Lord is with thee; Shalt bring forth a Son, most high; And His kingdom shall know no end;"

Prepare the way, repent and be saved, Be baptized for the Lord; After me there cometh, He That is mightler than I; Who'll baptize with the Holy Ghost," Said the prophet of the Lord.

The word was with the beginning; Our Savior spoke to his own; Light of the world, King of kings at Salvation 1 bring alone; My glory shall crown Calvary, And the righteous see My throne; 'My Kingdom on earth shall prosper;" Said our Savier to His own.

DIET FOR DROWSINESS

Attacks of Sleepiness-Often Result of Owlish Habits.

Sleepiness is a normal and healthy condition when it occurs at the usua bedtime and when not extreme and overpowering, but it is not always asso ciated with sleep. Some persons in per teet health and excellent sleepers hardly know the meaning of drowsiness they are active mentally and physically until they are in bed; then sleep comes at once, and when it leaves them in the morning they are again in full mental awakeness.

There are less fortunate persons who never have a complete and satisfactory night's rest who are yet almost constantly drowsy; they are always nodding, but when the head touches the pillow sleep recedes and the night is a succession of drowsy lapses to sleep with the instant return of semi-consci-

In general, with the exception noted at the beginning of this article, drowsiness is abnormal and indicates some thing wrong either in the body of the sufferer or in his habits. Those who habitually cut off their hours of sleep, the "night owls" and the burners of the midnight oil, pay for their bad habit by attacks of sleepiness in the afternoon and early evening; later, unfortunately, after the influence of digestion wears off the drowsiness disappears and then, relieved of its burden, the person "eits up to all hours" again, thinking in that way to make up for the hours lost by the drowsiness. If he would abandon his wlish habit, go to bed bedtimes and get the seven or eight bours of continuous sleep that he needs his daytime and evening drowsiness would disappear, he could do more and better work

and find life much more enjoyable. A slight drowsiness is often noticed after a hearty meal because active digestion draws a greater volume of blood to the stomach, so that the brain is relatively poorly supplied. In some southern countries this tendency is favored and the siesta after the neous meal is a national custom. With me the after dinner cup of black coffee oft en drives away the impulse to aleapwhether for good or ill may be left to the physiologists to determine.

Sometimes we hear of attacks of sleepiness occurring suddenly at certain periods of the day or at irregular intervals. These are altogether abnormal and in such cases there is always some poison at work in the nervous centres -usually a self-manufactured poisor which because it is made in too great quantity or because constipation or kid ney diseases prevents its rapid elimina tion accumulates in the system. An essential in the treatment of such eases is dieting. Meat should be gives up for a time at least, and the only beverage allowable is water or milk .-
