

LESSON XII.-JUNE 20, 1909

.. Review .- Read Acts 15: 5-21.

Summary .- Lesson I. Topic: The Gentile Pentecost. Places: Joppa and Caesarea. Cornelius, a Roman centurion and a devout man, saw an angel of God Joppa to call for Peter; he immediately sent two servants and a soldier. Peter, while in Joppa, was in a trance; he saw a sheet let down before him on which were all manner of beasts, creeping things and fowls; he was told to kill and eat; he objected; this was doce three times, and all were taken up to heaven; three men immediately called for him; the Spirit bade him go with them; he went and God poured out his Spirit on the Gentiles as a result of his preaching.

Place: Jerusalem. There was great per- church to move out into the "regions be- ers about 5c to 10c per cwt. easier. Mr. secution; Herod killed James and ar- yond," and God makes known the ones Murby bought 150 cattle during the say that "spraying with lime and sulrested Peter; prayer was made for him he has chosen for this particular work. week at following quotations. Feeders, by the church without ceasing; the The church at Antioch, though doubtless 1,000 to 1,100 lbs. each, at \$4.70 to \$5. night before he was to be brought forth | enjoying the ministry of Barnabas and 40 per cwt.; feeders, 800 to 900 lbs., \$4 .to his death the angel of the Lord de- | Saul, gladly responded to the divine call, | 10 to \$4.50; stockers, 500 to 700 lbs., at livered him; Peter went to the house of and commending them to the grace of \$3 to \$3.75 per cwt.

III. Topic: An illustration of divine methods. Place: In and near Damascus. Saul persecuted the disciples; he received a commission from the high priest to go to Damascus to arrest the Christians; when near Damascus he was struck down to the earth by supernatural power; heard a voice from heaven; was assisted to Damascus; was blind three days, during which time he fasted; was visited by Anamas, who laid hands on him; scales fell from his eyes; received the Holy Spirit and was bap-

tized; preached immediately. IV. Topic: The first Gentile church. Place: Antioch in Syria. The persecutions that came scattered the disciples; they preached the word and many be lieved; Barnabas was sent to Antiock to encourage the converts; Barnabas needed assistance and went to Tarsus seeking Saul; Saul returned with him and during a whole year they taught much people in Antioch; Agabus predicted a famine in Judea; Barnabas and Saul were sent to Jerusalem with a re-

V. Topie: Foreign missions. Place; Antioch and the Island of Cyprus. Barnabas and Saul were chosen to go as missionaries; they went to Seleucia and Cyprus; preached the gospel in Salamis; at Paphos the Holy Spirit came upon Paul and he denounced Elymas, the false prophet, severely; Elymas was

VI. Topic: Paul's first recorded sermon. Place: Antioch in Pisidia. The apostles journeyed to Antioch in Pisidia; Paul preached in the synagogue; many followed Paul and Barnabas; on the next Sabbath day nearly the whole city came together to hear the apostles; the Jews were filled with envy; the apostles turned to the Gentiles; the Gentiles were glad; the persecution against the apostles was great; the apostles went to

VII. Topic: The gospel extended and established. Places: Iconium and Lysto flee for their lives; went to Lystra; to the value, not of \$30 merely, but after which they returned to Lystra. tention over the question of circumci- ascertain definiteliy whether the fifty

sion; a council met at Jerusalem; after cent cow boards in your stables. much discussion it was decided that the Gentiles need not be circumcised according to the law of Moses. The Gentiles were asked (1) to abstain from meats offered to idols, (2) from blood, (3) from things strangled, and (4) from fornication.

IX. Topic: Active, living faith, Place: Jerusalem. James found some who declared that faith was all that was of value to a Christian; they disregarded

X. Topic: The function of the tongue. Place: Jerusalem. James sets forth the above ground; at Otterburne, on the sins of the tongue; calls an evil tongue | Emerson branch, it is one foot high; at a fire, a world of iniquity; calls it an Emerson it is up from seven to ten inunruly evil, full of deadly poison; the ches; on the Lenore brach from eight tongue is only an instrument; the heart to ten inches; Wetaskiwin, four to sevdetermines the character of the words; en; Lacombe branch, seven inches, and right words will proceed from a renewed Crow's Nest branch eight inches

XI. Topic: The Christian's faith. Faith is declared to be "the substance of things hoped for, the evidence of things not seen;" faith is shown to endure, to 90 days. suffer, triumph; we cannot please God without possessing true faith; the rewards of faith are as great to-day as ever; the examples of faith given in the lesson should help us to be strong spir-

PRACTICAL APPLICATIONS.

I. Saving grace exemplified. It triumphed over self-righteousness and malignity. Paul later, in testifying of his former life, said, "After the most strait- French aviators have been focused of est sect of our religion I have lived a late on the doings of the young aere-Phariseo" (Acts 26:5). The Master re- naut, Herbert Latham, who has been veals the chief characteristics of this flying at Mourmelon-Le Grand in a sect, self-righteousness and self-suffi- monoplane. Following up his performciency, in Luke 18:9-12. Saul's manner ance of three days ago, when he re- import any wheat during this crop sea of life showed him to be possessed of a mained in the air for one good share of this spirit. The Pharisees | minutes and 45 seconds, M. Latham were malignant persecutors (John 11:47, made a series of brilliant flights yester-48; 12:10, 11); so was Saul (Acts 9:1). day evening, in which his machine de What a picture of malignity! this quarter we see the fulfilment of the | ter. promise. The manifested supernatural element among the early Christians gave Christianity its wonderful power. It may be asked, Have we not a right to- New Jersey Family Share Plentifully expect like signs now? We frankly answer, Yes, but we must not forget that

a time seemed to be closed to this great fact, but now by special divine operation they are opened. There is no respect of persons with God. No man is accepted because he is a Jew, nor rejected because he is a Gentile. The ground of acceptance is made plain: "In every nation he that feareth God and worketh righteousness is accepted with him." The fear of the Lord will be manifest by turning from sin and gladly accepting God's provisions for deliverance from sin, and by working righteousness IV. Origin of the name Christian.

"They that were scattered abroad" did not hide their light, but let it shine. The church organized at Antioch. "A great and 14 horses. number believed and turned unto the Lord." How many to-day might see the same results from the same devotion. but, alas! too many when "scattered abroad" fail to carry their light with them. The name of Christian, applied in derision, the disciples adopted, and it has come to be synonymous with all that stands for man's welfare here and

FIFTY CENT COWS.

Dominion Department of Agriculture, Dairy Division, Cow Testing Associations.

Cow testing association members are astonished, to put it mildly, at the revelations of the scales and test. In one herd of 17 cows the average yield was 4,380 lb. milk, 4.2 test, and 183 lb. fat The highest yield of milk and fat from only an average of 3.8 for the full period | for light. of lactation. Her total yield was 7,200 lbs. milk and 274 lbs. fat. Notice how high this is above the average, 2,820 lbs. milk more. The yield of the poorest cow, a 10-year-old, was only 3,050 lbs. milk. 3.7 test, and 111 lbs. fat. Notice how much this is below the average yield, 72 lbs. of fat less. But this 10-year-old cow gave much less than half what the 7-year-old did. There is actually a difference between the two yields of 4,150 lbs. milk, and 163 lbs. fat. Is the one cow worth twice as much as the other? Carry the figuring one step further in order to ascertain profit. Valuing milk at \$1 per 100 lbs., and even putting the cost of feed at only \$30, one cow made just 50 cents profit on the year's business; Did that pay labor, or interest, or any return for supervision or supply any tra. The missionaries were compelled incentive to keep cows? But even assumthought Paul and Barnabas were gods; fifty dollars, the profit is \$22, or just Jews stoned Paul and dragged him out 44 times as much as with the second of the city; supposing him to be dead; cow. Supposing one could just deposit he departed with Barnabas to Derbe, the profit made on each cow; with the kind that makes \$22 profit one could VIII. Quebec-Little change is noticeable in trade ircles over the preceding week. Hamilton-Lines of business there continue to improve as the season progresses. The demand for wholesale lines for summer trade is now brisk and fall trade promises well. Collections continue to improve and in most lines they are now fairly satisfactory. Retail trade here has been moderately brisk during the past week. Country trade is still

a little on the quiet side.

London—General business has shown a better tone during the past week.

Interesting Information from the Niagara District.

The cold and wet spring has undoubtedly provided the right conditions for the appearance and rapid growth of the "curl leaf" on peach trees. This has attacked the orchards in curious streaks that have not been sprayed, have to some extent, escaped its ravages, which has led some unthinking persons phur for curl leaf is no good."

This is very far from being the case, however. Curl leaf is a fungus disease, and spraying remedies for fungus discases are preventive and not destructive. the result is only a partial success. In order to get the full benefit of the home-boiled mixture in the right way at the right time-very early in the spring, by Mr. Smith, who is one of the

those most subject to curl leaf, is al-Dressed hogs are very firm, selling at most entirely free from the disease. The healthy appearance, and they are carrying a heavy load of peaches. One-third of the orchard, however, was not sprayed till about ten days later than the rest, and on it the curl leaf is pretty bad. About a dozen trees were left unsprayed altogether, and they again are in an infinitely worse condition than those which were sprayed late.

This goes to show that where the conditions of soil, etc., are alike, that immense benefits accrue from applying this remedy rightly prepared, in right way and at the right time. Precisely the same thing can be wit-

penter, also one of the prominent growers, and in a good many other orchards as well, here and in other places. In spite of the prevalence of this discase the prospects for a good yield peaches is fairly good, as most sprayed orchards have sufficient good leaves to Point of Woods life saving station, on carry the bulk of their crop, although | Long Island, at 8 o'clock last night, was they may lose some, which they can well | identified early to-day as the Antonio

Philadelphia despatch: on the miraculous was the escape the explanation now advanced by the nue and York street, the baby was sent flying over a five-foot board fenc. James Tynan, of No. 4 steamer, was landing unhurt in a tub of water. There

GOES WET.

Ohio City Voted Yesterday in Favor of Saloons.

Small Majority in Part of the Country For the Drys.

Billy Sunday in Campaign-Man Shoots Up Parade.

Youngstown, Ohio, June 14.—The auti-

saloon forces in Ohio suffered a bitter defeat yesterday, when Youngstown, with 80,000 inhabitants, and the remain der of Mahoning county, voted in special election to retain the saloons. The vote in the eighty-four city and county precincts was: "Wet" 11,232; "dry" 9,263, In the county, where much was expected by the anti-saloon forces, only 708 majority was secured. Only one ward in the city, the fourth, gave a "dry" majority. It went anti-saloon by 59 votes. Ten thousand persons packed themselves into the public square last night and cheered bulletins showing the partial election returns. The principal streets were made unsafe by processions of automobiles running at high speed and filled with yelling men. The entire police force of eighty men was kept on duty all night to prevent disorder. Strenuous work had been done by both sides on the closing day, but the "drys" have held the centre of the stage, except for the short time it was occupied by J. F. Littleton, armed with a .44 Colt revolver, a belt of cartridges and a quart of whiskey. He made his appearance at a second-storey window of a house oppopreachers and the women who were He said that he just wanted to mix things up a bit. Fortunately he fired into the air. This was the only disturbance during the parade

A 'RAG TRUST.

Iowa Senator Says There is One in the Republic.

Washington, June 14.—The most inter sting development in the day's debat on the tariff bill was a declaration by Senator Dolliver that a "reg trust" exists. The Iowa Senator declared such to be the case, but he was contradicted by Mr. Warren, who declared that if she's a trust existed he would know about it. and he added that he had no knowledge of it. Several votes were obtained during the day, and the usual number of paragraphs were passed upon. Among these was the paragraph on top waser, on which the committee amendment increased the House rate on wool top waste and other wastes from 20 cents per pound to 30 cents per pound. A vote was also obtained upon the committee amendment increasing the

duty on shoddy from 20 cents per pound to 25, and that on tops from 18 to 20

Toronto Lawyer Issues a Writ

Against Sir Wm. Meredith. zie applied before the Divisional Court vesterday for a habeas corpus on behalf of Frank Miller, of Stouffville, now undergoing imprisonment after conviction

Mr. Mackenzie has already applied in other courts to obtain the discharge of his client, his last application being before the Exchequer Court, which has not yet rendered judgment.

of a violation of the Liquor Act, Miller

Chief Justice Meredith, who presided, after hearing the history of the case, declined to hear the application, as the Exchequer Court had not yet delivered Mr. Mackenzie at once proceeded to

the writ office and issued a writ sterling, penalty for refusing to grant a writ to Frank Miller, a prisoner in the county jail. The statute under which Mr. Mackenzie is proceeding against Sir William Meredith is XXIst, Charles II., chapter 2, section 6, and Ontario, amplifications and extensions thereof.

BOY HURT.

With Disastrous Results.

Kingston, Ont., despatch: Patrick Melleville, the 10-year-old son of Patrick Melieville, Howe Island, while returning from school yesterday afternoon, found a cartridge loaded with some kind of an explosive. He struck it with a stone, and it exploded, inflicting some terrific injuries on his person. An ugly wound was made in his forehead, the tops of three fingers were blown off, and the palm of his hand was badly torn.
