The accused made an eloquent defence and explained in a minute and extended account the causes of his long absence. He claimed to have been a soldier in Spain until, consumed by the desire to see his wife and child, he had resolved to return. He also gave apparently overwhelming evidence, through his accounts of secret family history, of matters pertaining to the Guerres, that he was the bona-fide husband of Madame Bertrande. In explaining his scheme Sir Robert observed it had been his good fortune in the past few days to address audiences of a diverse character. A few days ago he had to speak to a company of politicians concerned in a great industrial enterprise which must in a very practical way affect the fortunes of the Dominion in years to come, and on the previous day he was asked to speak at Toronto. on a subject which was a somewhat perplexing one to explain to a Canadian audience-the relation of Liberalism in England to the colonies and more par- ing will grow well in the company of ticularly to the Dominion.
