Canadian Pacific Railway

GRAND EXCURSION To Toronto and Niagara Falls

Friday, June 25th, 1909

The Employees of the Durham Furniture Company will run an excursion over the Canadian Pacific Railway, including all stations from Walkerton to Shelburne.

This is a most delightful trip and everyone should take advantage of it, at a season of the year when nature is clothed in its most beautiful garb. The new line from Walkerton to Saugeen Junction is an excellent roadbed, and the old Toronto Grey and Bruce division of the C. P. R. has some romantic attractions, more particularly the horse shoe curve, where the trains go very slowly, in order that sight-seeers may have a good view.

A very pleasant and profitable day may be spent in Toronto, by those who do not wish to take the trip to the Falls. In Toronto there are many attractions, such as the Queen's Park and Parliament buildings, Riverdale Park and Zoological Gardens. Scarboro Beach, and Hanlan's Island, with all their attractions, the Normal School Museum, the City Hall, the big Departmental Stores, etc., etc., all easily reached by the splendid street car service of the city, and many of them free to visitors.

Those who go to the Falls will have a delightful two hours' sail across Lake Ontario to Lewiston, thence up the famous and exciting Great Gorge Route by electric cars to the Fails, passing within a few yards, many attractions, such as Queenston Heights, Brock's Monument, the Devil's Hole, the Whirlpool rapids, the Whirlpool, the great International Bridges, Power plants, Military Review, etc.

The regular cost of a trip on the Great Gorge Route is 75 cents and the usual rate on the boat from Toronto to Lewiston is about \$1.50, making in all \$2.25. The charge on this excursion is only 30 cents extra to those who take in the whole trip to the Falls.

The following is the time of departure of trains and the fares :

Pain in the head—pain anywhere, has its cause Pain is congestion, pain is blood pressure—nothing else usually. At least, so says Dr. Shoop, and to prove it he has created a little pink tablet. That tablet—called Dr. Shoop's Headache Tablet—coaxes blood pressure away from pain centers. Its effect is charming, pleasingly delightful, Gently, though safely, it surely equalizes the blood circulation.

If you have a headache, it's blood pressure. If you have a headache, it's blood pressure.

If it's painful periods with women, same cause,
If you are sleepless, restless, nervous, it's blood
congestion—blood pressure. That surely is a
certainty, for Dr. Shoop's Headache Tablets stop
it in 20 minutes, and the tablets simply distribute
the unnatural blood pressure.

Bruise your finger, and doesn't it get red, and
swell, and pain you? Of course it does. It's congestion, blood pressure. You'll find it where pain
is—always. It's simply Common Sense.

We sell at 25 cents, and cheerfully recommend
