

LESSON VII .- AUGUST 15, 1909.

19: 8-20. to Achaia (vs. 24-28). Apollos was a quiring skill and cunning, such as magic learned man and an eloquent orator, and sleight of hand, which are practised yet he knew nothing of the baptism of so extensively in Eastern countries. the noly Spirit. "Aquila and Priscilla Books-There were no books then such aia, of which Corinth was the capital. appears to have had good success.

II. Paul's preaching and miracles (vs. 1-12). Paul soon came to Ephesus. This was in accordance with the promise made them when returning from his second missionary journey (chap. 18, 21). Ephesus was not only the capital of the province, but was the city of the greatest importance in all Asia Minor. At Ephesus Paul preached the deeper truths of the gospel and, through the laying on of the apostle's hands the Holy Spirit ame upon the disciples (vs. 2-6). 8. Spake boldly-Paul went to the synagogue on al! occasions of religious services, and it appears that the utmost freedom was given him in preaching the gospel. Disputing-"Reasoning."-R. V. 9. Were hardened-The majority of the Jews hardened their hearts against the truth, and at length the leaders claimed their hostility and reviled Christianity publicly in the synagogue. This conduct induced the apostle not only to renounce, on his part, all fellowship with the synagogue, but also to withdraw the whole number of the Christians from it. The Way (R.V.)-The term Way is here given as a distinctive name to the Christian religion. School of one Tyrannus-After leaving

the Ephisian elders he said he had not the sorceress pretended to do. three years (Acts 20. 31). The two state- failure. Certain "exorcists," of Tyrannus, but in the surrounding rur-Asiatic cities. Thousands who came to Ephesus to worship in the temple of Dinna, came to hear the gospel of the Savior in the school of Tyrannus. Other thousands heard that same gospel from the apostle's faithful missionaries; so that literally all Asia heard the word of the Lord Jesus." It was during this period that the seven churches of Asia, and probably many more, were establish-

bath, but also at all other times.

12. From his body-The Revised Version here is to be preferred. Aprons- 3:19). These aprons had probably been used by Paul in his ordinary labor when working prabably, because the throng was so had been deluded and how deeply they brought directly to the apostle, or in in such practices." some instances were too infirm to be It is well to notice that the apostle did | where they stood. A true Christian nevpleased to honor their faith,

They were similar to modern gypsies | remarked, "In my country, when the and fortune-teliers. "Certain Jews who disciples come out from the world, they eases." Exorcists-Men who, by the authority of the name of some powerful being, solemnly assumed to require the demon to depart so effectively as to be obeyed.-Whedon. Call over them-Knowing that Paul cast out demons through the name of Jesus, they thought that by using the same name they could produce the same effects. Adjure you -We bind you by an oath.-Barnes. Whom Paul preacheth-No doubt they had often heard Paul proclaim the divinity of Christ in the hall of Tyrannus. 14. A chief priest (R. V.)-Jest why this title is given to him we cannot tell, but he was probably the head of one of the twenty-four courses and a ruler of distinction. 15. Evil spirit answered-The evil spirit in the man spoke through the man. Compare Mark 3: 11 Jesus I know, etc.—That is, I know his power and authority and I know Paul as his servant. Who are ye-You have no power or authority; you are not his followers, and so are only pretenders in the use of his name.

The man in whom the demon was rag- church which they attended. ing tore off their clothing and wounded their bodies, so that they fled in dislar instances are recorded. See Mark determined to make him independent. 5: 3; 9: 17-29; Luke 9: 42. Naked-This need not be taken in its strict sense. It could be applied to those stripped partially of their rament .-Hackett. 17. This became known (R. V.) - Gradually the news was spread abroad. Fear fell-This occurrence created a great sensation, and produced a fear of that myterious power which was ascribed to the name of Jesus.-Lange. "The Ephesians were so bound up belief of magic that it seemed necessary to show that the gospel was mightier than these other powers, which came from Satan, the father of deceit." Was magnified-The transaction show- to mar the occasion, the last of the ed that the miracles performed in the big submarine tubes for the new | 5:11 off slightly but it has picked up again name of the Lord Jesus by Paul were Michigan Central tunnel was sunk in with the return of hot days. real and proved the doctrine he taught. in the Detroit River close to the Wind-Imposters could not work such miracles, and those who pretended to do so only exposed themselves to the rage of the there was a real, vital difference between there was a real, vital difference between the big tube settled to the river there was a real, vital difference between the big tube settled to the river there was a real, vital difference between the big tube settled to the river there was a real, vital difference between the big tube settled to the river there was a real, vital difference between the big tube settled to the river there was a real, vital difference between the big tube settled to the river there was a real, vital difference between the big tube settled to the river there was a real, vital difference between the big tube settled to the river there was a real, vital difference between the big tube settled to the river there was a real, vital difference between the big tube settled to the river there was a real, vital difference between the big tube settled to the river there was a real, vital difference between the big tube settled to the river there was a real, vital difference between the rate on the preceive to do so only better the real continue to improve.

### BILL OF LADING.

HAS BEEN FINALLY APPROVED Ohio, in a sermon denouncing BY RAILWAY BOARD.

Under Its Conditions the Railway Company Becomes Responsible for Charged.

l'oronto despatch: It was officially announced yesterday that the Board of Railway Commissioners for Canada had finally approved of the two forms of the new bul of lading, to go into effect on Oct. 1, the text of which was agreed apon some months ago by a committee representative of the various manufacturing and railroad and shipping interests of the country. The work of this committee was throughout of a very harmonious nature. All parties apparently had been working for a shipping bill which would meet with the approval of both the railway companies and the shippers. Many conferences were held, and the final draft, which was forwarded to Ottawa for approval, is considered one of the best for all parties.

The new bill is very simple, and contains only eleven sections as compared with the old one's twenty-one. It imposes additional obligations upon the railway companies as carriers, making them responsible for negligence in transport or delivery, and also makes the initial carrier responsible for a consignment of goods to destination, even though it has to pass over other railway lines in Canada. It make the initial company responsible also for shipments of goods which are handled by American or other roads with which there is a joint tariff arrangement,

said, was made by the carriers for say that it had done its duty the shipthe loss was through no fault of it or its

This bill comes into force because of a suggestion made by Chairman Mabee over a year ago that shippers and carriers should get together and come to some agreement on the matter. The Canadian Manufacturers' Association, as one body representing the shippers, took up the matter and brought it before the various Boards of Trade, the Bankers' Association, shipping and railway companies, with the satisfactory result recorded above.

### MOUNTAIN FIRE.

Province of Quebec,

Rigaud, Que., says: All yesterday a fire, by friends of the family and taken into able damage, raged on the mountain at the large smelter at Thorold is to be Rigaud. It broke out shortly after 9 enlarged so that all the ore offered it o'clock some distance from the famous | can be attended to. The ore all comes cross, erected in 1840 by the Bishop of | from Cobalt, and before it gets there is Nancy, Forbin Jansen, during his voyage | refined to some extent.

Thirty brothers from the Bourget College here worked all day incessantly, striving to check the fire's progress. Yesterday evening, as the situation became more serious, all the inhabitants turned out to help them. The fire completely encircled the mountain, ravaging, it is estimated, four miles of ground. Last night it was feared that the outskirts of Vaudreuil Village might be at-

The total damage is difficult to estimate. No residences are reported destroyed, but the neighboring sugar groves and shanties have been consumed by the flames, causing a loss of the annual spring revenue for several years at least. The village of Lourdes was at lieft had taken off just above the wrist first in danger, but late last night the in the cutting box of a new threshing direction of the fire fortunately changed | machine which was being put in operaand it raged past to the left. tion for the first time. First Execution in Paris in Fifteen Years.

Paris, Aug. 9 .- A sudden official announcement that a public beheading would take place at 4.30 o'clock this fronting the Sante Prison created a sensation in Paris, which had not seen an execution in fifteen years. Immediately immense crowds gathered at the scene, but were kept back from the guillot guards. Parisian sentiment long has been opposed to public executions, for in the past they were accompanied by scandalous scenes of revelry.

Despite this sentiment, Parliament refused to abolish the death penalty in France, and in view of the revolting crime of the man executed this morning. President Fallieres refused to commute his sentence to life imprisonment. The victim was one Duchemin, aged 23, a butcher. In 1908 he stabbed his mother, and this not resulting in her death quick enough, he finished her by strangulation. The motive for the crime was-
