Oriental Greetings.

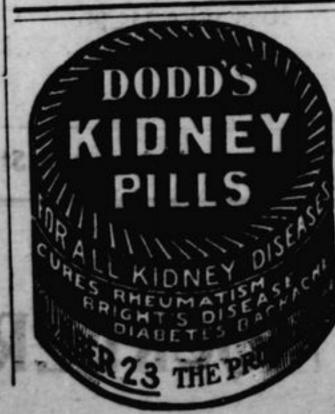

Some of the Oriental modes of salutation are very peculiar. For instance, in central Tibet, the custom is for the right ear, rub his left hip, and bow If it continues or recommences its deeply, all these motions being carried on at once. Certainly the other fellow need have no fear of personal assault from the subject of these curious auties! Less ludierous, but equally reassuring, is the Chinese custom of rubbing noses on bended knees. The salaam or profound bow of India and the Mohamme dan countries serves a similar purpose.— From W. R. Murphy's "Salutations" in October St. Nicholas.

Table Manners.

Do not clatter knife, fork or spoon on the plate when eating. Learn to hold the fork and knife gracefully. There is an acepted form for this holding and any other is a sign

of lack of training. Do not grasp your table implements as if they were farmer's tools. A firm

Nothing is more awkward than to sugar, butter size of an egg, melted, hold a knife or fork in the palm of the hand close down toward the blade. Sawing is not high art in table manners. A knife is to be held in the right hand Select the largest of cucumbers and between the thumb and second finger,

After paring, carefuly scoop out the When cutting the fork is held in the centre. If this is done before they are left hand in the same manner as the paper puts the unprovided purchaser pared there is danger of cutting knife. At all other times it should be in a dilemma. At the fair there is through the wall. Put them into ice held halfway down the handle between no dividing line between tradesmen water till ready to use, then dry on the thumb and first finger, steadied on

a parallel line. Remember this simple spoon. This is particularly bad form in

Never turn a spoon over in the mouth

before removing it, as is sometimes done It is or should be needless to say that a knife is a cutting instrument only. Let neither neas, the last bit of sauce, nor

molasses persuade you otherwise. Take time in the handling of knife, fork, and spoon to do it noiselessly as to lips as well as dishes. Shoveling food Do not think such things trifles. They

Popular Weather Signs.

Men of science tell us in some case what are characterized old women's lows skim close to the ground; the cat washes his face, and the chaffinch has sad and plaintive note; the farmyare

There are also other signs none the trees, and the flowers open. Finally there are a few varied observations which will complete these signs. An everlasting flower hung on a wall open in fine weather and closes when it will be rain. When the spider leaves of working at its web it is a sign of rais weaving during the night it is a sign that the good weather will return. When rain begins to fall, if the hone do not hide themselves, but continue to look for their food, it means that the rain will not cease all day. If they take refuge at the first drop of rain it is a sign that it will not last. When only one magpie leaves its nest it is a sign of rain. If the father and mother quit it together it is a sign of good weather .-London Globe.

DONE FOR.

"With Eddie Foy," said a tragedian, "I made, the other Sunday, an excursion into the ocuntry. "The country,, fresh and green, w

beautiful in the warm sunshine. old man and his daughter, a girl a 18, had a little booth where you threw "Foy throws phenomenally well, and

he had soon won 30 cigars. These he with one possible exception, the big-gest smoker i nthe world, but I never young girl. 'they'll do for father.'

"A few Sundays later Foy and I made the same excursion again. The booth stood in the same spot, but now the gir was running it alone. "'Ah, said Foy, 'they've done for fa

TO RID HOUSE OF FLIES. To rid the house of flies quickly, spray

into the air oil of lavender diluted with hot water; this will cause the flies to leave and a delightful fragrance will be Screen all doors and windows. If no possible plant mignonette in window and porch boxes. This will keep away both

flies and mosquitoes. contact with flies. Keep garbage can tightly closed. Spra occasionally to prevent breeding.
