Now Five Per Cent.

London, Oct. 25 .- The Bank of England to-day raised its minimum rate of discount another full point to five ners labelled "Votes for Women." stood per cent., the highest it has stood since on a White Star Line pier to night and third consecutive week that the directors of the bank have considered it land, the leader of the militant suffranecessary to strengthen the barriers gettes of Great Britain. against a further leakage of gold re-

The international monetary position shows no material improvement during the past week, and the bank's reserve, which is now nearing the \$110,000,000 mark, is threatened with a further depletion this week by the South American and Egyptian requirements, which are estimated at \$7,500,000. Foreign exchanges have been steadily

against London, particularly Berlin, where gold is badly needed, and where the next arrival of the metal would probably have gone, but for the imposition of the five per cent. rate. It is known that requirements from other countries would soon reduce the reserve to below \$100,000,000, unless the new rates attracts gold. The market sees in today's raise a general warning against the speculative operations and the announcement was followed by a drooping in prices. British securities and Kaffirs recovered almost immediately, but American shares which earlier in day were above parity, fell away, U. Steel and Union Pacific dropping 3-4, and several others a half with the tone generally weak.
