### TEN YEARS LATE.

Dominion Department of Agriculture, Branch of the Dairy and Cold Storage

Commissioner. The experience of one member of a cow testing association is worth recording, as showing the necessity of testing as well as weighing milk. His principal income is from selling cream, so that his astonishment may be guessed hwen he finds this year that the milk from a twelveyear-old cow, that he raised on his farm and fondly imagined one of his best cows, has never tested more than 2.9 per cent. of fat. The discovery comes somewhat late to a man who has been harboring a cow that for a productive period of ten long years has been masquerading as an animal producing fairly rich milk. The cow never gives this informaimprovement of dairy herds includes sysmilk from each cow in the herd.
