Uses of Common Salt.

A little salt thrown on the flame will clear it for broiling meat. Marble wash stands that have become discolored may be scoured first with wet salt, and if that does not remove the stain, with salt and lemon mixed.

Salt mixed with vinegar is excellent for cleaning iron rust, wet the spots with salt and lemon juice and hold the material over the steam of a tea kettle.

Salt and lemon mixed will often remove ink stains that are fresh.

To set colors in cotton materials, soak before washing in strong salt water.

A pinch of salt added to cream will make it whip more quickly.

Cake batters and candy are both improved by adding a pinch of salt.

To beat the white of an egg quickly, add a little salt. In making mayonnaise the salt should go in last.

Grease on top of a hot stove lid can be quickly rubbed off by putting salt on the scrubbing brush.

In scouring hearths, strong salt water or wet salt is a great cleanser.—New York Times.

Deadly Cramps, Stomach was Bloating

A Bad Case That Proves Cramps and Stomach Disorders are Cured Fast by Nerviline.

"The distress I suffered from cramps last summer was so severe I thought it meant death," writes P. B. Emerson, of Guys Hill, Pa. "I was doubled up with pain and in such bad shape I couldn't walk a hundred feet. I remembered Nerviline on hand and took half a bottle every day—fifty years on these ailments disappeared entirely."

For cramps, flatulence, diarrhoea and disorders of the stomach and bowels, Nerviline knows no equal—the medicine bottles used every year—fifty years on these ailments disappeared entirely.
