

HYPOCHONDRICAL NERVOUSNESS

Over-anxiety About Health Causes Many Nervous Wrecks.

No view is becoming more general among thinking physicians than the need of thoughtful care in dealing with small ailments of people who have a nervous temperament.

A good example of the evils that doctors may unwittingly create is given in the following letter: "My nervousness was caused mainly by worry that was occasioned by remarks made by the doctor about my condition. He spoke as if I was critically ill—all used up—and this got on my mind and I was unable to shake it off. Even slight symptoms of nervous trouble, common to us all, I imagined were serious. The habit grew upon me of watching the daily conditions of my health, and my mind was so intensely engaged in worrying over my health that I became a complete nervous wreck. A sensible friend got me to give up thinking about myself, and urged me to use 'Ferrozone.' The good work of 'Ferrozone' was not apparent until the third week, when I did show real improvement. I gained in every way—my appetite improved immensely and I really relished my food. With richer blood of course my nerves became stronger. I slept better and gave up worrying entirely. I weigh eight pounds more than before, never felt so well in my life."

Mr. Ashton's case is no different from that of hundreds that can be rebuilt and brought back to health and strength by 'Ferrozone.' No tonic is so nourishing, so vitalizing, so full of blood-making, nerve-strengthening qualities. Fifty cents a box, six for \$2.50, all dealers, or The Cataractine Co., Kingston, Canada.

THE KING CAN DO NO WRONG

The Common Custom of Misapplying This Familiar Phrase.

It is astonishing how frequently the familiar phrase, "The king can do no wrong," is misapplied. It is supposed to be the motto of an unlimited despotism and in some way associated with the doctrine of the divine right of kings. Representative Fowler uses the phrase in this sense in his recent attack on the speaker of the House. Nothing could be further from the real meaning of the phrase. It is the symbol of a system to which the sovereign reigns but does not rule. Nowhere can it be more fittingly applied than to the English government. The king can do no wrong simply because it is his ministers who do right or wrong, and when the people are dissatisfied with the ministers they change them, not him. He simply expresses the will of the dominant party. During her protracted reign Queen Victoria changed parties a half a score of times; not because she changed her mind, but because she was the simple mouthpiece of the party that happened to be in power. President Taft can do wrong, because his cabinet according to the theory of the constitution, are merely secretaries who follow his instructions and carry his will into effect. If he does wrong he is responsible for it, for he can displace them at any moment. He has absolute executive power, only partially modified by possible senatorial action. It was for attempting to exercise this undoubted constitutional right that an enraged Andrew Johnson, fortunately saved from Republican senators helped defeat this revolutionary measure. Although they were politically slaughtered, the right of the president to control his cabinet has never been seriously called in question.

In England it is said that the lord chancellor is the "keeper of the king's conscience." If this only referred to his private and personal ethics there would have been English monarchs who would have made his lordship's office no sinecure. But, of course, it only has to do with the sovereign's political duties and responsibilities. Happy the land in which the "king can do no wrong," and where there is a carefully instructed official to keep the royal conscience in a sound condition of political health.

The Art of Standing Originated With Birds.

And let us note that the art of standing began with birds. Frogs sit, and, as far as I know, every reptile, be it lizard, crocodile, alligator or tortoise, lays its body on the ground when not actually carrying a load. And these have each four fat legs. Contrast the flamingo, which, having only two, and those I imagined were serious. The habit grew upon me of watching the daily conditions of my health, and my mind was so intensely engaged in worrying over my health that I became a complete nervous wreck. A sensible friend got me to give up thinking about myself, and urged me to use 'Ferrozone.' The good work of 'Ferrozone' was not apparent until the third week, when I did show real improvement. I gained in every way—my appetite improved immensely and I really relished my food. With richer blood of course my nerves became stronger. I slept better and gave up worrying entirely. I weigh eight pounds more than before, never felt so well in my life."

THE FARM

FRUIT GROWING IN NORFOLK COUNTY.

(Canadian Farm.)

Owing to the bad weather I had intended not to visit as many orchards as I had intended, but I managed to visit the orchards of Mr. J. Gilbertson, the pioneer orchardist of the Norfolk County Association—Mr. Olds, Messrs. Geo. and Jas. Schuler, J. E. Johnson, the manager, Mr. McMillan, and others, and there I observed great crops of King, Baldwin, Russets, Spys, Tolman Sweet, and Snow, the Greenings being nearly all packed before my arrival.

Nearly every tree in these orchards had ten or twelve long poles placed under it as props, to enable it to bear its load without breaking down, and the number of limbs of many of them were wired together for the same reason.

The Olds orchard has the great record of having earned \$5 per tree for ten years, and this year it will earn \$7 to \$8 per tree. At Mr. Johnson's and Mr. Olds' I saw two healthy young peach orchards, and the former has, in addition, two acres of fine strawberries, nine acres of thrifty pear orchard, and a very flourishing young orchard of sour cherries.

At Mr. J. McMillan's I saw twelve acres of splendid cauliflower, thirty-five acres of cucumbers, also peppers and pickling onions, all grown for the pickling factory.

The Norfolk County Fruit Growers' Association is a co-operative association which has done a wonderful amount of work in the last five years. From seventeen members five years ago, it has grown to a membership of nearly 200. This year the association will ship to the market a load of 20,000 barrels, bringing its members a net return of from \$1.75 to \$2.25 per barrel on the trees.

This admirable showing is largely due to the excellent business capacity displayed by the manager, Mr. J. E. Johnson, assisted by a very capable board of directors.

The members of the association are starting to grow potatoes, and are likely to do so on a large scale in the future, growing only two or three varieties to cover the season, as Early Ohio for early, Irish Cobbler for medium, and Delaware for late.

The utmost care is taken by the association to insure a good pack of apples, and five inspectors are kept constantly travelling from orchard to orchard, keeping the pickers up to the mark, and seeing that no imperfect fruit goes into the barrels.

The association has also a contract with the canning factory at Simcoe, to take all their culls at an excellent price.

Are You in Danger?

You May be Neglecting a Small Ailment and Thereby Inviting Serious Disease.

That little malady grows into serious diseases we all know. Upon the stomach, liver, and kidneys rest mainly the work of maintaining health. Most of your little sicknesses come from derangement of these organs. Experience proves they are very frequently out of order, not badly perhaps, but even if only slightly out of order, it acts upon strength and regularity of the system.

It won't pay you to neglect your health; at the first sign of headache or languor take Dr. Hamilton's Pills and you'll have a grand appetite, enjoy your breakfast and feel full of energy to go to work upon.

Your food soon tastes so good that you eat more than ever before, and of course your grow stronger, ruddier, vivacious, just sparkling with energy and good health.

Soon your friends will notice the improvement, and by continuing to tone up your system with Dr. Hamilton's Pills will lay the sound foundation of permanent good health.

There is no medicine better for men, women or children, nothing for family use so beneficial as Dr. Hamilton's Pills of Mandarins and Buttermilk. Dr. Hamilton's Pills: 25c. per box, at all dealers, or The Cataractine Co., Kingston, Ont.

ANTHRAX IN IOWA.

Farmers in the northwestern portion of the State of Iowa are badly frightened over what proves to be an outbreak of anthrax, one of the most deadly diseases which attack the bovine family. Plymouth county—the same which contains the large English settlement around Lemars—a farmer found one of his cows dead in the pasture. He thought she had struck by lightning. The next day several more members of the herd succumbed, and it is stated in the despatches that both horses and mules on the neighboring farms began to die in the same sudden manner. Dr. Miller, one of the assistant State veterinarians, was sent for, and immediately summoned his chief, who pronounced the trouble anthrax. The State officials have expected every means to stamp out the disease and to prevent its spread. It is claimed that the disease was imported from South Dakota, and inspectors along the boundary line should be more than usually vigilant to prevent the progress of anthrax into the Dominion.

A STORK'S NEST.

Treasures One Yielded in an Alsatian Town.

The following details concerning the structure and contents of a stork's nest investigated on the summit of the Cathedral of Colmar in Upper Alsace may be of interest.

The city architect has just delivered a public lecture there on "Storks and Their Ways." He described a stork's nest which was about 30 years old, measured six feet across and was five feet in height; it weighed sixteen hundred weight, or over three-quarters of a ton, and it was such a solid mass that it had to be broken up by using a pickaxe. The nest was made of twigs of wood and clay and the materials filled twenty-four sacks.

The walls of the nest were found to contain seventeen ladies' black stockings, five far caps, the sleeve of a white silk blouse, three black shoes, a large piece of leather and four buttons that had belonged to a railway porter's uniform.—Berlin correspondence London Globe.

OHIO RIVERS SUPERSTITION.

A popular superstition among rivermen is that when a new moon comes on Friday, which will be the case tomorrow, it generally brings sufficient rain to make a large stage by the following Sunday. Because the weather forecaster has predicted rain for the next few days, with a low pressure area all over the West and South, rivermen are hopeful that their superstition will be verified.—From the Pittsburgh Post.

A FARMER-PRINCE.

David Rankin Farms 25,640 Acres of Land.

Sixty years ago a poor Indian farmer boy was married. After the ceremony was over he turned to the parson and said: "Here is five dollars. It is every cent in the world I have. Take it—every cent is an even start in the world."

A few weeks ago I stood on the biggest farm in the world and my eye lost itself in the distance of a six thousand acre cornfield. The undulating corn rising up the slope of a hill and dropping softly ever made me think of some placid green sea. Turning to David Rankin I looked at him and marvelled at the romance of a mere farmer.

"How did you do it?" I asked of the world's most extensive farmer.

"Early and late," he answered, smiling.

There are other men in the world who own more land than David Rankin. Of Tarkio, Missouri, but they are not farmers. They are men who have money farms but they have brought the money to the farm. Every acre in David Rankin's farm in Atchison county, Missouri, produced a bushel of corn, and the man who steadily weaker I became much discouraged, for previous to my accident I had always been a healthy woman. About this time I received a pamphlet of Dr. Williams' Pink Pills. I procured a box at once and began using them, when they were gone I got three boxes more, by the time I had used these I found myself somewhat stronger and my appetite much better. Before I began the Pills I could scarcely walk up stairs, and could do no work at all, now after taking three boxes I was able to walk out in the open air. I kept on with the Pills, and after using six boxes was delighted to find that I could again attend to my household affairs. I took two more boxes of the Pills, and that I was as well as ever I had been, and equal to any kind of exertion. I have since recommended Dr. Williams' Pink Pills to friends with beneficial results.

WOMEN WHO SUFFER.

Dr. Williams' Pink Pills Give Regularity and Good Health.

Every woman at some time needs a tonic. At special times unusual demands are made upon her strength. When these are added to the worry and hard work which falls to her lot, weakness will result unless the blood is fortified to meet the strain.

Weak women find in Dr. Williams' Pink Pills the tonic exactly suited to their needs. Most of the ills with which they suffer are due to bloodlessness—a condition which the Pills readily cure. These Pills save the girl who enters into womanhood in a bloodless condition from years of misery and afford prompt and permanent relief to the woman who is bloodless, and therefore weak. Mrs. R. Fisher, Coates Mills, N. B., says: "Some time ago my system was in a very abnormal condition as the result of an internal hemorrhage caused by an accident. Though I had the services of a skilled doctor for a time, I did not recover my strength, and gradually I grew so weak that I could not do any house-work. I steadily weaker I became much discouraged, for previous to my accident I had always been a healthy woman. About this time I received a pamphlet of Dr. Williams' Pink Pills. I procured a box at once and began using them, when they were gone I got three boxes more, by the time I had used these I found myself somewhat stronger and my appetite much better. HANDS COVERED WITH ECZEMA.

"For three weeks I actually had to be fed like one feeds a baby, because my hands and arms were so covered with eczema that they had to be bound up all the time."

So says Miss V. McSorley, 75 Gore Street, South St. Marie, and adds: "To-day I am curing completely of every trace of the disease. I feel twenty years younger. My hands and arms are as good as new."

Zam-Buk alone saved my hands and arms. I had tried everything else, but Zam-Buk cured me completely of every trace of the disease. I feel twenty years younger. My hands and arms are as good as new."

Zam-Buk is without equal for eczema, ringworm, ulcers, abscesses, piles, cancer, skin diseases, and all skin diseases. Druggists and stores at 50 cents a box, or post free from Zam-Buk Co., Toronto, for price.
