TOWN TOPICS

Rev. W. L. Newton addresses his old Congregation.
The Baptist church was filled on Sunday evening last, a number from other churches being present to hear Rev. Mr. Newton, a former pastor and for eight or nine years a citizen of Durham. Before beginning his course, he made touching reference to his pleasure in revisiting Durham and old friends where he had spent some of the happiest years of his life.

His text was from Proverbs 29: 13, "Where there is no vision the people perish" and from these words made a thoughtful and impressive discourse. He pointed out that many people were visionary, yet never saw visions. The possession of vision was seen in Abraham, Isaac and Jacob, who saw nothing further than his herds. Some men today blame opportunity, when it is really lack of vision that hinders progress. It was vision in Moses that led him to suffer affliction with the people of God, for the greater glory beyond, so with Paul and other Bible characters.

Garibaldi had vision of a united Italy. Calvin and Luther were men of vision, so in our own times were Sir John A. McDonald and Sir Wilfrid Laurier and many other leaders of thought were so because of this quality. Without such leaders the people would perish, which could be interpreted 'wither' or 'dry up' or 'decay.'

By this way of introduction. In his application he said, we need a vision of self our state and standing before God. How few of us have clear vision of ourselves. We are prone to look around us and not inward. The man with the five talents had vision of himself, so in our own times were Sir John A. McDonald and Sir Wilfrid Laurier and many other leaders of thought were so because of this quality. Without such leaders the people would perish, which could be interpreted 'wither' or 'dry up' or 'decay.'

But that vision of self alone would not be encouraging; we need a vision of Jesus Christ, his work, his sufferings, must see in him a panacea for every ill and this obliterates every God does not forgive them of a willful sinner, he wants full compensation and that is the reason he gave us Jesus Christ.

Again we need a vision of our relationship of man to man. There never was a time when this was more needed. The relationship between employer and employed suffers for lack of it. The wants, the sorrows, the aspirations, the prosperity of each class should be considered by the other and there would be no withering.

We need a vision of our purpose in the world. Too many think we are here to get all out of it we can, but the true view was to put something in. Men of vision look to act for the common good. Some with the church how much can I get out, not what I put in. Without vision a man gets smaller, withers, while the man who tries to make the world better, warms his own soul and even warms the substance of heaven.

We need a vision of the evils of the world as seen in results. We have to look beyond the single incidents and things in the mass. Tabulated state shows that 189,000 fall yearly in the States and Canada through intoxicating liquor; 229,000 meet death through railway accidents; it is rightly grasped that these results and similar results of other evils we would remedy. He closed by urging all to get 'vision' of self, of the Saviour and of the world around us.

How Local Option Fared

Bentnick after three years' trial sustained local option, by 346 for, 265 against. The majority is less than three years ago but yet sufficient to show that never again will Bentnick have license to sell booze. Markdale and Mt. Forest are joined to their idols and the liquor traffic will have to work more harm before it is driven from its entrenched positions. Markdale failed to get a majority by 24, Mt. Forest by 11. Dundalk has sustained the measure.

OWEN SOUND

The whole province is interested in Owen Sound. Here the engines of the liquor forces were turned on in full force, ammunition was poured in, in the full hope of capturing this spectacular stronghold. The efforts were fruitless, the by-law is sustained by 130, and not only so but the whole local option ticket for council is elected. We congratulate our County Town; they have in a sense been fighting the battle of the Province and have won.

The contest in Normandy was decisive enough, more than 2 to 1 against the measure. The German population in the main resent the idea of restriction, they were possessed with the fear that hotel accommodation would be cut off, not yet grasping the idea that there is no necessary connection between legitimate hotel accommodation and the keeping of a bar. Then, having Neustadt in its midst, an incorporated village, there was a fear aroused in Aytou and surroundings that business would leave the 'dry' village for the 'wet' one and so the township has shackled itself to the license system in the meantime.

January Horse Fair.

Thursday of next week, Jan. 16th, the first Horse Fair of 1913 will be held. Mayor Black has several buyers promised, and some come anyway, such is the fame of Durham Horse Fair. Horses in good condition, well-groomed always sell well.

Our By-Law.

It was a quiet sleepy day in the booths of Durham on Monday, only the breeze by law having to be voted upon. Only four votes were polled against it and these all in the North ward. It would be interesting to know if these four really meant it, and if they understood the alternative would be paying the whole amount in one year.

The vote was light and as follows:

North Ward	26	4
East Ward	43	0
West Ward	53	0

Majority for the By-Law of 117.

That Little Yellow Label.

The Publishers beg to thank all who during the last two weeks have remitted on subscription. The label will be changed in due course. We are looking for many more renewals this month and hope those who are in arrears for a year or more will balance things up by putting "the little yellow label" a year ahead.

Farm for Sale

Good grass farm, well watered with spring creek, good buildings, 5 miles from Durham, one half mile from Glen Station C. P. R. and from school, one quarter mile from P. O. Possession given next spring. DAN MCCORMICK, Businessman.

Address and Presentation

Friday evening of last week the new residence of Mrs. D. Greenwood and her daughter Clara, was the scene of a happy assembly when a number of their former neighbors at Edge Hill met together and a pleasant evening was spent by all. During the evening an address was read and Mrs Greenwood presented with a hall mirror and Clara with an ebony manicure set. Following is the address:

Dear Mrs Greenwood and Clara,- We, your assembled neighbors and friends take this opportunity to wish you prosperity and blessings in your new sphere of activity and to show in a small way our appreciation of your former connection with us at Edge Hill. We regret exceedingly that circumstances called you from our midst but since Time rolls onward with endless changes, we find that these changes often help us to attain to our ideals and to develop in us possibilities with which Nature has endowed us. Thus although the loss of a link in the chain binding us together causes us true sorrow yet, due to the prospect for your happy future in your new home, that sorrow is somewhat modified.

In the time spent in our neighborhood we have always found you Mrs. Greenwood, a neighbor in the truest sense of the word and a friend of excellent worth and high esteem ever ready to help in any forward movement. Clara also has occupied no mean position in the community, ready to give of her talent in the Sunday School and wherever it served to produce pleasure and profit. Thus, since your removal has meant a loss to our neighborhood we ask you to accept these gifts as slight mementoes of the esteem in which you are both held and trust they will always call to mind happy memories of your home in Edge Hill. We assure you that wherever you may be our good wishes shall be with you. Signed on behalf of your Edge Hill friends.

Local Option in the Province.

There were 78 places trying to put the act in force. Some have not yet been heard from at this writing, but 25 at least have won out. In 23 others there was a majority for the act, but not the necessary three-fifths.

In 10 places the liquor interests have obtained a clear majority, and in 22 places a repeal vote was tried and in only one, the village of Acton, was it successful.

There are 828 municipalities in the Province of Ontario, of these 488 are without license and at least 100 more would be lost for three-fifths clause. In only four or five cases has this clause held local option, a majority generally being sufficient.

No wonder Secy. Ben H. Spence says: "The result can only be described as magnificent, it is the best year we have had."

Appreciated Their Teacher.

A very enjoyable evening was spent at the home of Mr. and Mrs. Will Hopper on Friday last when the parents and children of S. S. No. 1, Brant and Elderslie, assembled to bid good bye to their esteemed teacher, Miss Elizabeth Aldcorn of Pricerville, who is leaving to take charge of her home school. After the friends assembled Mr. J. McDougall was appointed chairman. In a few well chosen words he explained the reason of the gathering and called upon the young ladies who presented Miss Aldcorn with a lovely manicure set while Miss Lanra Stewart read the address.

Miss Aldcorn was taken wholly by surprise and made a suitable reply, thanking the section for their kindness. After the presentation short speeches were made by J. McDougall, W. T. Hopper and J. M. Hopper, all of whom expressed regret at losing the services of their teacher. Paisley Advocate.

PERSONAL MENTIONS

Mr and Mrs Walker Hamilton and little daughter Donalds are welcome guests at the home of Mr and Mrs W. J. Lawson.
