

NAZIM PASHA IS KILLED

Turkish Government Overthrown and Cession of Adrianople Repudiated

A despatch from Constantinople says: A crisis in Turkish affairs came on Thursday with dramatic suddenness. The Grand Vizier, Kiamil Pasha, and the Ottoman Cabinet resigned, and Mahmud Shekfat Pasha, formerly Minister of War and commander of the constitutional army which enthroned Mehmed V. as Sultan, was appointed Grand Vizier. On Wednesday the Grand Council, representing the intellect and wealth of the nation, pronounced in favor of peace almost at any price. On Thursday a vast crowd drawn from all classes of the proletariat declared for war rather than peace without Adrianople. And because the crowd was backed by general public opinion the Government surrendered and relinquished office, making way for the same men whom the popular

movement brought to the top after the revolutions of 1908 and 1909. Nazim Pasha, the former War Minister and commander of the Turkish army, was shot dead during the demonstration here on Thursday night. Enver Bey and Talaat Bey had given explicit orders that no blood should be shed. But Nazim Pasha's aide-de-camp fired from a window of the Porte at Enver Bey and his companion, and they returned the fire. Their bullets killed Nazim Pasha himself. In spite of this tragedy there was no disturbance of order elsewhere. Authorized Mayor Fischer to issue a proclamation ordering the vaccination of all persons resident in Waterloo who have not been vaccinated within seven years. It was reported to the Council that six new cases have developed, and all the schools, including Sunday schools, have been ordered closed.

TORONTO CORRESPONDENCE

INTERESTING BITS OF GOSSIP FROM THE QUEEN CITY.

Is the Water Supply in Doubt?—Hydro Electric System on the Defensive—Miss Booth at Massey Hall.

The city has been agitated by the remarkable question of whether water will run down hill. The Hydro Electric system of the plans for a new water works system to cost over six million dollars, the money for which is to be raised by the sale of bonds on New Year's Day. At present Toronto's water supply comes through a pipe extending from the lake to the city and lying more or less unprotected on the lake bottom, and therefore liable to injury or total destruction by storm waves and ice conditions. From the island the water is pumped to the city by means of a tunnel under the bay. Under this system there is a danger of destruction to the intake pipe, and also more or less remote danger of pollution getting into the tunnel under the sewage line.

OUR TRADE WITH BRITAIN.

Imports for the Last Year.

The British Government's return of the trade of the United Kingdom has just been issued. The following statistics have special interest for Canada.

The total amount of wheat imported into the United Kingdom during 1912 was 109,582,539 cwt. Canada sent 21,551,100 cwt. to the United States, 19,073,994 cwt.; Argentina, 18,783,700 cwt.; British East Indies 25,379,400 cwt.; Canada's figures of 21 1/2 millions of wheat sent to the United Kingdom are the second largest among all wheat importers. In 1911 she sent 14 millions and in 1910 12 millions. The value of last year's Canadian wheat supply was \$3,844,933.

The number of Canadian cattle imported in 1912 was 6,900, value \$142,508, against 42,395 (\$781,438) in 1911, and 78,691 (\$1,442,781) in 1910.

Canada last year sent 387,401 cwt. of bacon, value \$1,175,937. In 1911 the figures were 515,907 cwt., value \$1,793,946, and in 1910 411,935 cwt., value \$1,449,637.

Only 27 cwt. of Canadian butter was received against 61,936 in 1911, and 16,906 in 1910. Cheese, 1,352,870 cwt., in 1912, corresponding pretty closely to those of the two years previous.

Canned salmon, 21,616 cwt., against 189,070 for 1911, and 264,760 for 1910. Canada's imports of canned lobsters are far the largest, being 28,764 cwt. against 4,090 cwt. for Newfoundland, and only 1,782 from other countries.

Fifty-three thousand loads of hewn wood arrived from Canada, 895,000 loads of dressed wood, following with a big drop nearly three millions from Russia, and 1,800,000 from Sweden.

On the other side of the account: The United Kingdom sent 1,869,260 gallons of spirits to Canada, being only exceeded by 2,406,388 gallons to Australia.

Other United Kingdom exports to Canada include:

	Tons,	Tons,
	1912.	1911.
Pig iron	68,024	91,024
Wrought iron	6,583	8,748
Rails	737	1,739
Boiler plates	2,801	6,696
Galvanized sheets	26,243	22,476
Tinned plates	7,039	12,426
Steel bars and shapes	14,276	28,259

The value of the further exports include:

	1912.	1911.
Cutlery	£119,880	£103,100
Hardware	450,119	370,151
Carpet	117,323	140,682
Haberdashery	246,652	290,115
Linon piece goods	222,963	100,792
Woolen goods	468,463	395,124
Writing paper	14,861	28,997
Printing paper	146,756	129,732

The woman who sticks to her husband like glue may help him to mend his ways.

THE WHITE PLAGUE SERUM

Famous Berlin Doctor Has Placed It At The Disposal of Minister of the Interior

A despatch from Berlin, Germany, says: Dr. Friedmann, indignant over the fact of certain physicians declaring they are in possession of his tuberculosis serum, whereas he declares what they have is ineffective or positively harmful—placed his remedy at the disposal of the Minister of the Interior on Thursday. One prominent Berlin physician attempted to get Friedmann bacilli from the body of a man who had been inoculated by Friedmann, and asserts he succeeded. Others secured cultures

Dr. Morse's "Little Root Pills"

LA GRIPPE'S

One of the most treacherous afflictions of the period during the winter grippe, or influenza, invariably ends with a host of troubles. It tortures with alternate fever, headaches and backache, an easy prey to bronchitis, and even, indeed the deadly influenza grippe may leave chronic invalids, who are entirely by the grace of Dr. Williams' Pink Pills for Pale People, have not done their attacks you, you are dead after effort of this same grippe.

Mr. Emmanuel LaRome, Que., says: "I was with a severe attack of influenza, and I was obliged to stop my main in my bed for a week. I appeared the first stages of the disease did not regain my usual strength after a few days, and I suffered from headache, vertigo and extreme nervousness. I did not sleep well, and I would arise in the morning tired and worn out. I had for about two or three weeks I was advised to try Dr. Williams' Pink Pills, and I got boxes. By the time three boxes were taken, and I had completely recovered, enjoying my old-time strength as ever, could eat well, and no longer from lassitude and I have proved the value of Dr. Williams' Pink Pills for Pale People after-effects of the grippe thereafter recommend it to sufferers."

BOOSTING CANADA.

More Than 12,000 Canadians Doing Missionary Work in Britain.

A despatch from Winnipeg says: Western Canadians, 12,250 in number, and spending \$300 each, crossed the Atlantic for Great Britain and Europe this last holiday season, according to official figures compiled by J. Bruce Walker, commissioner of immigration. Through the agency of this vast army of immigrant emissaries and through the redoubled efforts of the department of immigration, Mr. Walker expects to see all records for immigration eclipsed this year. Speaking on the immigration outlook this year, he said: "In view of all the circumstances therefore we are justified in predicting a very considerable increase in the numbers of immigrants entering Canada this year from Great Britain, Europe, the middle, western and eastern states. In fact, I look for the largest volume of immigration this year that the movement has ever known."

MR. H. E. WHITTENBERGER.

Superintendent of the Middle Division, who has been appointed General Superintendent over the Western Ontario line, of the Grand Trunk, including the Northern line.

ELECTRICITY ON THE FARM

AGRICULTURE IS OCCUPYING ATTENTION OF SCIENCE.

The Farmer of To-day Is Eager to Keep Apace With Latest Knowledge.

Probably few of our industries have occupied so much attention on the part of the scientists during the past few years as agriculture. This is not surprising, inasmuch as the development of the land constitutes the sheet-anchor of prosperity of any nation, while, moreover, the farmer up till a few years ago was the most conservative workman on earth, content to follow the lead established centuries ago.

DIAMONDS IN RAGS.

Lucky Find in Rag-room of St. Lawrence Paper Company.

A despatch from Cornwall says: On Thursday while four employees in the rag-room of the St. Lawrence Paper Company, at Milles Roches, were engaged in their regular occupation of sorting paper, rags, etc., they came across one lot which contained what seemed and proved to be precious stones, diamonds. The waste paper, which is shipped to the factory in bales, arrived only a few days ago from New York. The find consisted of a few rings and a large number of unset stones. The discoverers brought their find to Cornwall, and a local jeweller pronounced them genuine. The diamonds are worth several thousand dollars.

350 PILGRIMS DROWNED.

Mohammedan Caravan Overwhelmed by a Flood.

A despatch from Suakin, Egypt, says: Three hundred and fifty Mohammedan pilgrims from India to Mecca were drowned on Wednesday by a flood which overwhelmed the entire caravan at its encampment midway between the sacred city of Medina, Arabia, and the Port of Yembo, on the Red Sea. A sudden avalanche accompanied by great torrents of water swept down the mountain in the neighborhood of the camp, carrying away in its path people, animals and tents. Only fifty of the 400 pilgrims composing the caravan were saved and have since reached Yembo.

TURKS LOST HEAVILY.

Despatch Gives Particulars of Damage to Fleet.

A despatch from Constantinople says: The Turkish losses in the naval battle with the Greek fleet off the Dardanelles on January 18 totaled four officers and 38 men killed, while 104 others were wounded. In the course of the fight a Greek shell exploded inside one of the turres of the Turkish battleship Torgut Reis, killing and wounding every man in it, and disabling both of the 11-inch guns. Severe damage was also inflicted by the Greek projectiles on the Turkish battleship Asar-i-Tewenk. The Turkish gunners declare that they inflicted important losses on the Greeks.

HAS SAVED FOUR LIVES.

Medal Presented to George Cowan, of St. Thomas.

A despatch from St. Thomas says: George Cowan, an employe of a local shoe factory, has been presented with the Hamilton life-saving medal for saving the life of the daughter of Mr. Crisp from drowning last August, when she was blown off the pier at Port Stanley. This is the fourth person Mr. Cowan has saved from drowning.

CLAY BELT NOT ALL GOOD

Prof. Fernow's Warning in an Address Before the Conservation Commission

A despatch from Ottawa says: That there is a widespread misconception that the whole of the clay belt of Northern Ontario is fit for farming was stated on Wednesday morning by Professor B. E. Fernow, dean of the Faculty of Forestry in the University of Toronto, during an address at the annual meeting of the Conservation Commission. The chemical analysis of eighteen of the more promising soils, he said, shows several of them to be undesirable, and but one up to the standard of a good virgin soil. Though these facts may hold true and the timber conditions of the country may be disappointing, yet, stated Dr. Fernow, the outlook for agricultural development is undoubtedly bright, but too sanguine expectations are being entertained and should be guarded against. In some respects the removal of timber from sections of the country in northern Ontario may have a good effect, but in many cases the effect will be the reverse. An intelligent direction of colonization is needed, says Dr. Fernow.

FIRE DRILL SAVED 20 LIVES.

Girls Escaped From Fire in a Boarding School.

A despatch from Montreal says: Some in their bare feet, all of them in nightgowns, a few covered by kimonos and dressing gowns, hastily donned, twenty daughters of prominent families, pupils in the select boarding school of the Misses Edgar and Grand, made up on Thursday morning an strange and ever carried. A fire which broke out in a hurry shortly before 5 o'clock. All got away without personal harm, but very few saved anything except the flimsiest clothing. As some of the girls have their homes in the city, the police patrol was called to distribute them.
