**14,000 DEATHS PREVENTABLE**  
**Tremendous Loss to Province in One Year.—Great Infant Mortality**

A despatch from Toronto says: Dr. Charles A. Hodgetts, medical advisor to the Conservation Commission, Ottawa, addressed the chief officials and inspectors of the civic department of health in the City Hall on Wednesday on "Conservation of Life." Dr. Hodgetts cited figures to show that infant mortality in Ontario is at the rate of 180 deaths per 1,000 population. By infant mortality he meant the death of babies within a year from their birth. "The infant mortality in eighteen cities of the Province to a casual observer clearly indicates that there is an unwarrantable waste of child life in every one of them," he said. "It is the cry of the babies. It is a plea for the education of the parents in all that pertains to infant life. It is the great opportunity for health departments to carry on an exploration work at the public cost, instead of leaving it to philanthropy and social organizations. It is essentially a branch of municipal health work and should be instituted and carried on as much as any work now being done." Dr. Hodgetts

**30,000 FIREMEN TO STRIKE**  
Fifty-four U. S. Railways Involved in Big Labor Dispute.

A despatch from New York says: The committee of managers of the eastern railroads announced on Friday night that their firemen had voted almost unanimously to strike. A statement signed by Chairman Eliza Lee for the committee says: "Advice received by the eastern railroads indicate that the 30,000 firemen almost to a man have voted 'yes' on the proposition to strike and to up over 62,000 miles of railroads, rather than accept the offer of the companies to arbitrate through a commission of interested men of sufficient numbers adequately to consider the magnitude of the questions at issue. If the firemen announce that as a result of their strike vote their committee will call out the men, the railroads will, of course, take steps immediately to prepare for the operation of trains under strike conditions. The companies feel, however, that such a catastrophe should, in the public interest, be prevented at all hazards."

**BRITISH MINISTERS RECEIVED.**  
Cabinet Ministers Reindeed Containing Electric Snuff.

A despatch from London says: Cabinet Ministers are now getting prepared by post by a suffragist's trick which consists of sending letters containing electric snuff. Every Cabinet Minister has received this attention. One Parliamentary Under-Secretary was blinded for nearly two hours by pepper, which blew into his eyes when he opened a packet. It is becoming usual for Ministers to hand over questionable letters to their secretaries to be opened, for such misdeeds are never stamped. Secretaries are naturally cautious, but have not always escaped.

**FLOWERS BLOOM IN FRANCE.**  
Two Months Ahead of Time in the Northern Suburb.

Paris, Feb. 8.—The reversal of the seasons in America this winter has also marked the weather in France. A series of abnormally moist and warm days recently experienced in the northern provinces has brought the Rhododendrons in to bloom in the Parisian suburbs two months before their usual time, as the buds on the fruit trees in the extensive orchards of Normandy and Brittany are already bursting.

**HEIFER SELLS FOR \$700.**  
Champion "Mischief" Bought by a Wisconsin Man

A despatch from Toronto says: "Mischief E.", the pure Scotch Shorthorn heifer that carried off the grand championship for the best beef animal in Canada at the Guelph Winter Fair two months ago, was on Wednesday sold by auction for \$700, which averages something like fifty cents per pound live weight. "Mischief E." was bred by Messrs. W. R. Elliott & Sons of Guelph, and after being exhibited at the Winter Fair, was sold to Mr. Robert Miller of Stouffville, who disposed of her on Wednesday to Mr. Frank Harding of Waukegan, Wisconsin. The Guelph heifer brought the highest price of a string of sixty-five Shorthorns which passed under the hammer at the Union Stock Yards. Breeders from all parts of Canada and the United States to the number of three hundred were present, and bidding was fairly keen, though hardly as spirited as in former years. Clydesdale mares brought as much as \$1,010, and Percherons as much as \$980 each, at an auction held here on Tuesday. The horses were bred by T. H. Hassard of Markham, Ont.

**EXCITING SCENES IN TOKIO.**  
Members of National Diet Assaulted on Leaving Building.

A despatch from Tokio says: Most exciting scenes were witnessed during the dispersal of the Japanese Diet on Wednesday after a vote of censure on the Government under Prince Katsura had been carried. The exits from the Chamber were thronged with people, who cheered the members of the Constitutional party when they assaulted Saburo Shimada and other so-called renegades of the National Liberal party. They were thrown out of their rickshaws when they attempted to drive away, and efforts were made to duck them in the canal, but these were frustrated by the police.

**BACK TO SCOTLAND.**  
Murderer Deported from Montreal—Will Go to Asylum.

A despatch from Montreal says: John Sheppard, the murderer of Frank McKenna, a Hamilton man, and Dr. Devlin, at the Bath Hotel last summer, was taken to Portland, Maine, for deportation on Thursday. He will be placed in an asylum in Scotland, where arrangements have been made for his detention by his wife. Sheppard was on his way home to Scotland with his wife and family from Chicago, when he was injured in the head while working in the latter city, when he ran aground in the Bath Hotel and shot McKenna, bartender, dead, and mortally wounded Dr. Devlin.

**HELEN GOULD'S GIFT.**  
New \$500,000 Headquarters of the Y. W. C. Association.

A despatch from New York says: The headquarters of the National Board of the Young Women's Christian Association were opened on Friday in a new \$500,000 building on a Lexington avenue site, which was one of the latest gifts of Mrs. Helen Gould Sheppard. In addition to the National Board offices, there are classrooms and dormitories of the young women's training school and accommodations provided for the World's Christian Student Federation, whose meeting during the coming summer will be attended by delegates from 40 different countries.

**AS GOVERNOR-GENERAL.**  
Prince Alexander of Teck is Latest to be Spoken of.

A despatch from London says: It is reported that Prince Alexander of Teck will be the next Governor-General of Canada. His consort, Princess Alexandra, of Teck, is one of the most charming women of the British aristocracy.

**SAYS INSANITY IS CURABLE**  
Assertion of Superintendent Burgess of the Verdun Hospital for the Insane

A despatch from Montreal says: A stirring appeal for the better education of the community in matters pertaining to insanity, was the basis of the report of Dr. T. J. Burgess, Medical Superintendent of the Verdun Hospital for the Insane, at the 26th annual meeting of the officers of that institution held on Wednesday afternoon. That insanity was, with rare exceptions, curable, was the opinion expressed by the doctor, and his statement was borne out by a presentation of statistics gathered in the institution over which he presides. The trouble was that, as a general rule, the relatives of an afflicted individual, provided he was not dangerous, allowed his complaint to become chronic before any action was taken. By such a course the work of hospital staffs was increased, and the chance of recovery of the patient greatly diminished. Prevention and not cure should be the watchword of alienists, and in this matter it devolved upon them to become the instructors of the public. The moralist and the sociologist, as well as the physician, had here a field for their endeavors. By providing a means of occupation and amusement, wonders could be worked, and, combined with treatment, cures could in the majority of cases be effected.

**IMPORTANT DEVELOPMENTS**  
Police Craft Exposure Shakes Up New York Police.

A despatch from New York says: The trail of police graft upon which District Attorney Charles S. Whitman set out last summer is declared by him on Thursday to have emerged from the thicket of minor exposures to an open road leading to men higher up. Through the remarkable confession which Police Captain Thomas W. Walsh made in the presence of the District Attorney on Wednesday night, which will be repeated to the Grand Jury, indictments will be sought against a police inspector and others as alleged graft takers on a large scale. If obtained these indictments will be the most important development in the exposure of the "system" since the city was aroused to the alliance of the police with gambling and vice by the Rosenthal murder.

Experience of a Trained Nurse.

Every mother knows how difficult it is to get a young child to take a cough mixture. He will not help unless given in large doses, and the result is to completely upset the stomach and make the child sick. Speaking of the promptest cure for chest troubles and children's colds, Nurse Carrington says: "I have never known a child to completely upset the stomach and make the child sick. Speaking of the promptest cure for chest troubles and children's colds, Nurse Carrington says: "I have never known a child to completely upset the stomach and make the child sick. **Way of the Ant.**  
The tropical white ant builds large cities formed of mounds of hard earth from two to three meters in height. In each one of these cities there is only one female, the queen, who is the mother of the entire family. If an ant shows a disposition not to work, or is incapable of its duty, it is put to death. "Does it mean, for instance, you will be able to change lead into gold?" he was asked. "I do not know," was the reply. "The cost would probably be too great to make it worth while. The importance of the discovery is that we have deciphered another line in the book of nature, and opened the door to further discoveries."

**TURKEY ALMOST BANKRUPT**  
A Great Anti-war Demonstration in Constantinople—Young Turks Denounced

A despatch from London says: The Daily Telegraph publishes a long unlicensed despatch from its correspondent, Elin Ashmead Barrlett, at Constantinople, in which he says that the Turkish people are in such a state of misery and destitution as a result of the war that they are completely indifferent as to the fate of Adrianople. "The Cabinet is in a quandary," says the correspondent. "It knows that it will be compelled to cede Adrianople, and is only seeking some means to save its face. It is said that the coup d'etat was only intended to occur after Kiamil Pasha surrendered Adrianople, but was precipitated by some mistake. Hence the difficulty the Ministry is now in. There is not a cent in the Treasury and there are no means of getting money until peace is concluded, and, meanwhile, the country is drifting to ruin and bankruptcy. A great anti-war demonstration occurred on Sunday in front of the War Office, at which the Young Turks were publicly denounced as murderers and thieves. Mahmud Shekfat Pasha appeared on the balcony and tried to make a speech, but was greeted with opprobrious epithets. The misery in the Turkish camp is indescribable. It has been bitterly cold with a heavy snow. The soldiers are ill-fed and hardly sheltered. Small-pox, enteric fever, dysentery and pneumonia have replaced Asiatic cholera. It is understood that a
