RAYS FOR GOITRE CURE.

It wasn't so many years ago when a diagnosis of goitre was the equivalent of a sentence to death. The cause was found eventually to be in A Bad Heart, the vicious activity of the thyroid glands and surgeons began treating the disease by the partial removal of these glands with more or less

The latest step in the treatment of this disease is described by Drs. Schueler and Rosenberg, of Berlin, Germany, who have been working with the Roentgen and allied rays in an effort to cause partial atrophy of the glands. After long experiments they say they have succeeded in causing the rays to penetrate deeply into the glands without any harmful effect on the skin.

an army of men cannot check it. A fire at Golden, B.C., last June was quoted as an example. This fire started in slash where logging operations were being carried on. Fanned by a strong wind, it obtained such headway that a large force of men employed by the lumber company, who were right on the ground, had to flee for their lives. This fire raged up and down the Columbia River for miles, destroying many million feet of timber and burning up logging camps and a logging railway. A large force of fire-fighters proved helpless to stop.

its ravages. The conference asserted that this slash problem is becoming more insistent and dangerous every year, as the quantity of slash is increased by lumbering operations.

Much satisfaction was expressed by the conference at a statement made by the forest inspector, acting as chairman of the meeting, that ble to determine the safest and most economical method of disposing of logging slash.
