5000 Facts About Canada.

The public will welcome the 1913 Edition of "5000 Facts about Canada," compiled by Frank Yeigh, the ac. knowledged anthority on things Canadian and the author of "Through the Heart of Canada. Ten thousand copies are now sold annually, which find their way all over Canada and the Empire, indeed the world.

"The Facts booklet is stuffed as full of information as a sausage is of meat," is the happy and true way an English Journal puts it, and the new issue, which includes many new features and improvements, such as a colored map of the Dominton, presents a striking story of the wonderful advance of Canada in a single year. We now talk in billions.

The booklet is issued at 25 cents a copy, by the Canadian Facts Pub. Co. 588 Huron Street, Toronto, and it is sold by all the leading newsdealers.

Tea In Thermos Bottles.

Something very new in the way of a tea party is to give it with thermos bottles instead of the usual kettle and teapot arrangement. One hostess had two thermos bottles wreathed in flowers, in one of which was tea already made and in the other hot water. The convenience will be evident, but what about the opportunity that pouring tea gives for the display of a dainty wrist and hand?
