A Poor Statement.

Parliament Buildings, Toronto, March 10th, 1913.

In spite of careful attempts to make light of the matter, the fact is gradually besoming known throughout the Province that in Ontario finances, as revealed in the Budget statemer by Hon. I. B. Lucas, there was a deficit visited last Atkinson from Artemesia last year of \$245,000 on rev nue account and that this year to an equivalent is up to the present, not ine and ing the last Atkinson from Attended we desire to enter protect and said sale unless an equivalent is granted this municipality for the conditions we were to receive, inestimates, is Wm \$213,000. Parcel Post.

So successful has the United States parcel post proyed that already have come requests for its extension and development. Some ask for the raising of the weight limit to a hundred pounds, and many more for its placing on an entire position of equality, so far as the public convenience is concerned, with the regular letter postal service. This is only what was expected whenever the public realized what the parcel post would effect as a general medium of distribution.

With the express companies it has just been as with other public services in the hands of private companies Secure in their fancied monopoly. shey have leyied a huge toll on the public and what made this all the more reprehensible was the fact that they were to all intents and purposes identical with the railway companies to which they were and are subservant.
