Give your Boy

Every Farmer wants to provide for his sons, but seldom will the old homestead, developed with toil, suffice to meet their needs. The boys have been brought up to the land. They are familiar with all the phases of farming. They should have land of their own. How is the farmers to meet this emergency?

The Logical Answer is Western Canada

Thousands of acres divided into 160 acre farms are being thrown open for entry by the Dominion Government along or near the line

The land gives a wide choice. There are some plots on the open prairie and others again in the well wooded, well watered

Where Do You

Do you shop in a brisk, active store, or in a dull store ?

Advertising makes bright stores." Failure to advertise goes hand in hand with dullness and stagnation.

Advertising brushes away cobwebs and dust, smartens shop windows, quickens the intelligence of salesmen, and lets in the sunlight.

Advertising makes the merchant think of youof your wants and needs makes him anxious to serve you to your 'liking and advantage.

Advertising keeps stock: from having birthdays.

Advertising acquaints you with new things, and so brightens your home, your life, your persons

Advertising keeps, a business from growing lazy and stupid, Advertising injects good, red blood into the arteries of a business, and keeps it healthful and active.

Shop where your wants and needs are uppermost in the mond of the merchant. Shop in the store which reflects vou, which you dominate. Shop where your money returns to you in better goods, better values, better service.

Shun the shop that is dumb and dark and dreary keep away from the shop that never speaks to you, never smiles at you, never bothers about you.

Reward by your custom the merchant who lives to serve you and who is doing his utmost to build up this community; who takes you into his confidence by means of advertisements in your local newspapers.

Smile back a the shop which smiles at you Shake hands, with it- keep company with it -your fave a will be returned to you tenfold.
