Is Closure to be Applied?

Parliament meets again, to-day, Tuesday, and it is promised that a measure of closure is to be applied to cut off free discussion.

A funny free gift it will be if the representatives of almost half the people of Canada are not to be allowed the right of free speech on the matter.

The Liberals stand on firm ground: the unanimous expression of Parliament a few years ago, including Mr. Borden and nine of his ministers, when the emergency was more portentous than it is now.

Some form of limiting debate we believe is necessary, but it should be dealt with at a time when no burning question has roused the passions of men.

An appalling death toll by tornadoes and whirlwinds comes from the States chiefly by the cyclone of Sunday last. The death list of Omaha, a city of 140,000, reaches into the hundreds and other cities and towns in Nebraska and adjacent states have also paid the toll of death.

"Be Men and not Mice."

It is not quite correct to say as some Conservative papers are saying that the Dominion Alliance has endorsed the platform of the Liberal party.

Do You Know Canada?

Are Canadians fully aware of the immense resources and possibilities of their own land? Here are a few "Big Things" in which Canadians can be pardoned for showing a considerable amount of pride.

Canada has the largest consecutive wheat field in the world, 900 by 300 miles. Canada has the most prolific and extensive sea fisheries in the world.

Canada has the largest nickel mines in the world. Canada has a greater railway mileage than Australia and New Zealand or Italy and Spain combined, and more than all the South American countries.

Canada has the greatest railroad system in the world in the C. P. R., employing 75,000 men.

Canada has one of the world's most remarkable constabulary forces in the North West Mounted Police.

Canada has the largest grist mills in the British Empire. Canada has the largest elevator in the world at Fort Arthur, capacity 7,060,000 bushels.

Canada has the world's largest lift-lock at Peterborough. Canada will have the largest bridge span in the world at Quebec.

Canada has one of the largest single coal seams in the world at Sault Ste. Marie. Canada has the thickest known coal seam in the world, 47 feet, which was found at Stellerton, Nova Scotia.

Canada consumes more paper per head of population than any other country in the world. Ontario by hydro-electric power transmission line, 293 miles is the longest in the world.

Montreal harbor has the largest grain carrying system in the world. Canada possesses the largest pulp and paper resources of any country in the world.

You don't need to get under the barn before you tell any person that you are a Canadian.

Swinton Park.

A very pretty wedding was solemnized at the home of Mr and Mrs W. A. Richardson, when their daughter Mary was married to Mr William Corbet, of the 14th con. of Prouton.

Promptly at 3 o'clock the groom took his place under an arch in the prettily decorated parlor and was soon joined by his fair bride, who was given away by her father.

The nuptial knot was tied by the bride's pastor, Rev. Mr Matheson, of Priceville. The bride was prettily attired in a dainty dress of white silk and wore the groom's gift, a locket and chain and carried a beautiful bouquet of bridal roses and fern.

She was attended by Miss Jennie Black, who wore a pretty dress of embroidered lawn and the groom's gift, a pretty brooch. The groom was ably supported by her cousin, Mr Peter Connelly, of Orangeville.

The wedding march was played by Mr Robt. Black. After the usual congratulations the company repaired to the dining room, where they did ample justice to the sumptuous supper.

In the evening a reception was held, when a large company of guests spent a most enjoyable evening.

Mr and Mrs Corbet are spending their honeymoon in Toronto. The bride's travelling suit was navy blue with a large white hat.

Miss Sarah Ferguson is holidaying in Toronto.

After last year's warning we hardly expected to see anyone leave their own home at high water season, but there is still a martyr for his Faith in our community and ventured not through the proverbial fire and water, but water and ice and after three hours' struggle, he was glad to go to a neighbor's to get thawed out.

Too bad, but he had to solace himself with hay instead of porter.

Mrs Fitzgerald and Miss Fitzgerald, of Dangannoon, attended the Corbet-Richardson wedding and remained for a week with friends here.

Mr James McDonald, of Toronto, is holidaying at home.

Miss Annie Wright, teacher at Hatherston, is holidaying with her parents here.

Peter E. Sumner relates his experience: "I was troubled with Nervous Debility for many years. I lay in bed for weeks and couldn't get up. I became very despondent and didn't care whether I lived or not. I imagined everybody was against me. I was so weak that I couldn't hold my head, hands and feet were numb, memory poor, poor appetite, cold, tired in the morning, poor sleep, the fingers and feet were numb, I took all kinds of medicines and tried many first-class physicians, wore an electric belt for three months, but received little benefit. I was induced to consult Dr. Kennedy & Kennedy, though I had lost all faith in doctors. Like a drowning man I commenced the New Method Treatment and it saved my life. The improvement was like magic—I could feel the vigor going through and through me. I was cured mentally and physically. I have sent them many patients and continue to do so."
