

STORM SWEEPS ONTARIO

Wires Down, Buildings Unroofed, and Many Narrow Escapes From Injury.

A despatch from Toronto says: This city was in the throes on Friday of the fiercest equinoctial gale that has visited this latitude in years. From the south-west and west a fifty-mile wide ragged front of clouds, with a wall of rain and a wall of wind, swept over the city. Numerous buildings in course of construction were damaged. Shacks were overturned, and roofs were lifted off in the outskirts of the city. Trees were uprooted. Awnings were ripped from store-fronts. Windows were smashed. Signs were torn from their hangings. Telephone poles were blown down, seriously interrupting communication and putting the lines out of commission entirely. The roof of the Garden City Paper Mill and those of several smaller buildings were blown off, chimneys were removed, and havoc worked in several orchards. The big cross on the steeple of St. Catharines Roman Catholic Church was also brought down.

Blew Cross Down.

A despatch from St. Catharines says: Damage to the extent of several thousand dollars was caused here on Friday by a violent windstorm. Telegraph and telephone poles were blown down, seriously interrupting communication and putting the lines out of commission entirely. The roof of the Garden City Paper Mill and those of several smaller buildings were blown off, chimneys were removed, and havoc worked in several orchards. The big cross on the steeple of St. Catharines Roman Catholic Church was also brought down.

Damage Will Be Heavy.

A despatch from Owen Sound says: Wind, which at times attained a velocity of over 80 miles an hour, stripped the roofs from many buildings, smashed plate-glass windows, upset chimneys, and created havoc generally here on Friday, causing damage to the extent of several thousand dollars. Though bricks and heavy pieces of wood were being constantly blown to the streets no one was injured.

113 Miles an Hour.

A despatch from Hamilton says: Hamilton knows after its experience on Friday something of the terrors of an equinoctial gale. From one o'clock till a late hour in the evening a hurricane blew through this city, carrying havoc and suffering in its wake. It is difficult to estimate the damage done. No one suffered to any alarming extent, but the number of those affected will be in the hundreds. A conservative estimate is \$100,000. In the morning it rained, and just before noon a very warm breeze sprang up. In an hour this was followed by a perfect hurricane. The velocity of the wind could not have been less than 60 miles an hour.

Damage at Guelph.

A despatch from Guelph says: Thousands of dollars' worth of damage was done here on Friday by the worst tornado in the history of Guelph. The rain came down in torrents all the forenoon, accompanied by a mild wind, but about noon the wind increased in velocity to an alarming extent, and continued all the afternoon. The rain stopped about 1 o'clock. Reports from all parts of the city and out in the country tell of damage to property. Telephone and telegraph wires are down in the country, badly crippling the service. Many telephones in the city are out of commission.

Chatham School Wrecked.

A despatch from Chatham says: A terrific windstorm passed over this district on Friday and thousands of dollars' worth of damage has been done. The Central School in Chatham was badly wrecked. A large chimney was blown down, crashing over the roof of a corner tower. The top of the tower was blown off and landed on the street. The chimney crashed through the building and completely demolished a room on the third floor and another on the second floor. R. S. Danlop, the janitor, was in the building at the time but escaped.

Houses Razed at London.

A despatch from London says: Several thousands of dollars damage were done by a very destructive gale that swept over London and district all day on Friday, razing houses, stripping buildings of chimneys and causing an infinite amount of damage of a more or less serious nature.

Tore Off Roof.

A despatch from Berlin says: The terrific gale which passed over this vicinity on Friday caused considerable damage in the city. High winds tore the roof off St. Jerome's College and other buildings, and the boiler house of Kimmelfelt Company suffered in a similar manner. Windows of some of the business blocks along King Street and of quite a number of residences were blown in, and had to be boarded up.

At Ingersoll.

A despatch from Ingersoll says: Reports from surrounding districts tell of considerable damage from the high wind that prevailed for several hours on Friday. At times the wind attained cyclonic proportions, and, although details from the outlying districts are very meagre, the damage is estimated to be considerable.

Rich Banker—"So you want to be my son-in-law?"

Suitor—"Well, I'm not exactly keen on that, but as I want to marry your daughter I suppose I shall have to take the risk."
