. Give your Boy a Farm

Every Farmer wants to provide for his sons, but seldom will the old homestead, developed with toil, suffice to meet their needs. The boys have been brought up to the land. They are familiar with all the phases of farming. They should have land of their own. How is the farmers to meet this emergency?

The Logical Answer is Western Canada Thousands of acres divided into 160 acre farms are being thrown open for entry by the Dominion Government along or near the line
