## How \$5,000 Will Earn a Dollar a Day

Maximum of safety, combined with high interest yield, is the desire of all investors. The following suggestion for the investment of \$5,000 seems to meet both these conditions:

Rate, Price, Value, Cost, Toronto Paper Bonds . 6% \$100 \$1,000 \$1,000 and Int. \$ 60 12 Tooke Bros., Pref., 7% Ontario Pulp Bonds .. 6% 18 Macdonald Common 5% Can. Machinery Bonds 6% 1,000 \$6,000 \$4,998

Bonds and stocks of a par value of \$6,000 would thus be purchased for \$4,998, and accrued interest on the bonds, yielding \$354 per annum, equal to 7.08%. We believe the above prices will appreciate considerably from the present low level.
