Will be an Historic Gathering.

From Newfoundland to Vancouver Presbyterians will assemble in Toronto.

In Toronto next week there will be a gathering of the like of which has never been seen in Canada and we think nowhere else at any time. Every pastor of the Presbyterian Church in Canada and his wife and at least one lay delegate from every congregation are invited to be present at a "Pre-Assembly Congress" in Toronto, from May 31st to June 4th.

The invitation is accompanied by the assurance that all expense will be paid both of transportation and entertainment in Toronto and enroute, this extraordinary expense being borne by ten wealthy members of the Presbyterian Church, each of whom contribute \$1000.00 for the purpose and we suppose more if necessary. The idea, we believe, originated with the Superintendent of Foreign Missions.

It has been felt that many ministers and congregations in our far-flung land are carrying on a noble work unobtrusively and deserving of some sort of encouragement and inspiration beyond the usual routine of a Presbytery meeting, of the Church paper and of the press. Hundreds of these men will rarely or never get to an Assembly, to mingle with the leaders of the Church and to receive the enthusiasm which numbers give. The expense alone in many cases would be prohibitive, doubly so to bring the "better half" of the manse though in almost all cases she is in thick of the work also.

The visitors are to be all billeted among the Presbyterian homes of Toronto, there being exhibited a fine loyalty and generous spirit towards the aims of the promoters of this great gathering.

They were all with one accord in one place" was written of a gathering in apostolic days that was followed by a wonderful blessing. Will such a Pentecost blessing follow this notable gathering? Earnest men and women with common ideals could not possibly meet under such conditions without being moved to deeper devotion and a more earnest desire for personal service and sacrifice.

"The men who have put time and strength an; days and nights of work into preparation for the Congress are very hopeful that throughout the Church there may be increasing prayer for blessing upon all the meetings from Saturday to Wednesday. The whole gathering has been planned not for a vacation of pleasure time, but as a means to develop and sharpen the life and the spiritual powers of those who are in the thick of the fight all over this growing land. If delegates come looking for a series of entertaining meetings in Massey Hall then for them and for others through them the Congress will likely resolve itself into an amusing affair. If, on the other hand, there is a desire and demand for a vision of our land's need and the high way by which that need may be met, the Congress will be memorable for its profit in essential things.

Promoting Peace.

The world has probably never known a time when greater efforts were being made to promote peace and good-will among all nations and people than are being made at the present time.

The meeting of the Emperors in Berlin, though only in the nature of a family festival, cannot fail to have a good effect. The bond of friendship is a strong instrument of peace, and this is being strengthened by the happy event which has brought the monarchs together.

Then we have the British-American peace centenary, with which Canada has direct connection. This event should not be without value outside and beyond the people immediately concerned.

Lastly there is to be a conference in London for the settlement by peaceful methods of questions which the arbitrament of the sword in the Balkans has failed to adjust.

It seems as though, at the present moment, the whole civilized world is imbued with a broader and fuller spirit of brotherhood than was ever known before.—Westminster cable to Witness.

Practical Milk Records.

Almost every dairy farmer who commences to weigh and sample his cows' milk individually says at the end of a few months "I find some in my herd were kept at a loss." Some men find only one or two cows, others state that they have found too many on the herd play a losing game.

What does this mean? Just this: that despite all the experience gained from years of practical dairying, the farmer finds that in order to become thoroughly "practical" he must re-question the aid of dairy records. Neither the cow's appearance, nor the owner's knowledge of some short-termed yield of milk (extraordinary as that yield may have been for a day, or a week, or a month) will testify with certainty to each individual cow's ability to pay her way for the whole year. Cow testing provides a simple and eminently practical way of knowing, not only if each cow pays, but which cows pay the most profit on the twelve months' transaction of feed consumed, and milk and fat produced. Those large profit cows are revealed only by practical cow testing.

Cows are apt to cheat the unsuspecting dairyman unless he keeps tabs on the performance of each one; many dairymen have found this out to their utter astonishment and regret. Don't take chances with your herd, be certain that each one pays; it pays you to find out. Individual

Your Boy is Entitled to a free Canadian Farm

Why worry about the future of your sons? The Government at Ottawa is giving away this year 150,000 free homesteads in Western Canada. The bulk of these are located along or near the Canadian Northern Railway, the line recognized in the West as the Pioneer Farmers' Railway. This title was earned because the Canadian Northern Railway never lacked courage to build its steel into new districts, placing the railway and all that it stands for within easy reach of the pioneer. From now on to the end of October Homeseekers Excursion tickets to Western Canada are on sale every Tuesday. These tickets are good to return with two months from date of issue, except tickets sold from May to July inclusive, may be extended for two months on payment of five dollars for each month or part thereof to agent at destination. Stop-over will be permitted at any Canadian Northern station west of Port Arthur. For the accommodation of passengers a tourist car for Winnipeg via Chicago and Duluth, will leave Toronto Union Station at 11 p.m. on the following dates: June 3rd, July 1, July 29, August 26, September 23 and October 21st. Write for all particulars.

Some Canadian Northern Publications

"A Creator of Business"—A story of the Canadian Northern Ry. "Peace River, Alberta, and How to Reach it." "Key to Prosperity"—A story of the wheatfields of Western Canada. "35,000 Free Homesteads." Any agent of the company will gladly give you any or all of the above publications or write General Passenger Departments at 68 King St East, Toronto, or 220 St. James St., Montreal, Quebec.
