Dr. Margaret MacKellar's Address on Mission Life in India.

[As we intimated last week we give below the sketch of Dr. MacKellar's address before Saugeen Presbyterial, by Mrs. Rice, of the Nigeria Mission in Africa.—Ed.]

The president and ladies present arose to bid Dr. Margaret MacKellar welcome as she stepped on to the platform. After bowing her appreciation, she apologized for her lateness by saying that she had spoken at eleven meetings in the past week, and the day before had been called to attend the funeral of the late Dr. Marion Oliver of India. Dr. Oliver was designated for India twenty seven years ago at the time when (Dr. MacKellar the speaker) was entering upon her medical course. She joined Dr. Oliver four years later and had been associated with her in the work almost ever since.

Dr. MacKellar began her address by saying "In order to get machinery to work we must have power, we have the machinery in our church organizations, and the power? Ye shall receive power from on high after that the Holy Ghost is come upon you".

We have the power and the machinery working together in India, how? The girls in our schools give themselves to prayer two by two every hour of the twenty-four they go to the prayer-tower and the missionaries also take their hour when their turn comes. What are they praying for? That the gospel may be preached to their relations, their countrymen. Why don't they go as missionaries? Because it is not safe for an unmarried native woman to pass a night in a native village. We can trust our girls but we cannot trust Mohammedan and Hindu men. It is necessary that a missionary accompany a girl. Through prayer the revival came and the girls confessed and put away their sin. Even the smallest children became so absorbed in prayer that they forgot their surroundings. Someone asked at meeting of this kind was it wise or profitable to teach children of the Mission Band to pray? Yes, teach the children to pray, one day out there in Neemuch, the matron of the school heard a murmur of voices in the school room at an hour when there were no classes, upon going to enquire into the cause she found thirty little ones praying, what for? The restoration to health of our missionary who was very ill. The answer to those prayers is before you, and I may say that my health has been better than ever before that illness. Who shall say that God did not bear the prayers of those thirty little ones?

A result of the revival was an increase in giving. In studying the minor prophets we find the Jews had been bringing in malmed and blind cattle for sacrifices, yet they had been told to bring on the best without spot or blemish. "Will a man rob God? Yet ye have robbed me in tithes and offerings." Would you offer to a high official in this town, as a gift, a

deformed animal? No, you would be ashamed to do so. We began to tithe and I have a list of the givings of our people for the past twenty years. For the first ten years the average per year was 108 rupees, for the next ten years after we began to give a tenth the offerings were an average of 908 rupees per year! Now we have a church, built in Neemuch now out of the offerings of the converts not a cent of your money went into that building!

Medical work is one of the strongest factors in pioneer work in India. A medical woman can work where men cannot and where the education-ist and the evangelist cannot. I opened a small dispensary in Neemuch and the people began to come. One morning I found the symbols of a curse on the door-step it meant I was not wanted there. I did not know what they meant but the patients told me, no one would remove them lest the curse should come upon them, so I had to do it myself. After watching for some time and seeing no harm befall me, they came in larger numbers. To-day we have a fine large hospital where we can take 80 patients, besides three dispensaries. Of course I cannot do all the work alone. Native girls who have taken a medical course nurses also and dispensers take over a large share of the work of treating, often as many as 200 patients daily.

One of the results of the medical work was a girl who attended our girls' school, her people became alarmed lest she should become a Christian because she began to tell them of Christ. She was taken away from school, but continued to come to the dispensary. One day she said "I'm coming to you to-morrow at four o'clock, will you meet me with the bullock cart? I am going to follow Christ." I told her I was glad of that but I could not meet her with the cart because her people would say I had taken her by force. After prayer, I said "you are here now." She acted upon the suggestion and stayed, we went word to her people and soon they had gathered at our doors making such threatening that we were forced to call the civil authorities. The magistrate himself came and told the people that the only way to settle it was to take the matter to court, which they did. They procured men to witness that the girl was a minor, only fourteen years of age, though she was of age, the judge left the matter in the end for the girl to decide. She said she wanted to stay with the Christians and so she remained and is now completing her course of education. Another case was a Parsee, who was brought to Christ through the efforts of Abraham, a native helper. His people said he must not confess Christ and accused Abraham of having given him "a cup" (medicine) to make him think as the Christians did. They said they would give him a cup, and after several attempts they did and Abraham became a raving maniac! He had to be taken to an asylum, but we believe in answer to prayer, his reason was restored to him after three months. The Parsee's friends asked that he should not confess Christ for six months. He never confessed Him! For before that time they had taken him away to the mountains somewhere and he has not been heard from since! Such are some of the difficulties of becoming a Christian in India.

They are asking for more missionaries, our people sent to the Home Board, asking for 17 more workers this year, 8 to be medicals. By the death of Dr. Marion Oliver, we need yet another and the Board has not a single name before them yet! Is there not some young woman who has not yet decided upon her life work who will give herself to India? We remember when the awful disaster occurred in the Atlantic last year that the signals G. Q. D. and S. O. S. were heard by one ship that might have saved most if not all the lives of those on board the Titanic, but she did not respond! You have heard the call of need to-day, are you going to respond? At the close of Miss McKellar's inspiring address she was asked to show the medal awarded to her by King George at the Darbar in Delhi which she had received only a few days before she left for her turlough. It is of silver, of handsome design and engraved "For Public Service."

Next meeting on Monday, July 7. J. H. CHITTICK, Clerk

PEOPLE!

Here is something of interest to young and old, if you will take a minute and look over it. We are offering our Entie stock of Boots & Shoes at a discount of 25 per cent.

Hymeneal

SANDS—McARTHUR A recent issue of the Olds Gazette, Alta., records the marriage of Miss Mays, McArthur to Mr. Harold E. Sands, only son of Mr. and Mrs. H. H. Sands of Medicine Hat. The bride is the eldest daughter of Mr. and Mrs. D. K. McArthur, of Ingewood Ranch Trochu, and what is said to have been a very pretty wedding took place at their home on 20th May last, the ceremony being performed at high noon by Rev. Gosling, of the Pres. Church under an arch of creeping cedar and violets.

The bride who was given away by her father, was handsomely gowned in Ivory Duchesse sasia with pearl pascmenterie trimmings and drapery of shadowy lace, the bridal veil of Brussels net being caught by a pearl bandeau. She carried a shower bouquet of roses and sunlax; her only ornament being a sunburst of pearls, gift of the groom.

Reba and Emma McArthur, niece and cousin of the bride, made very dainty little flower girls in baby Irish embroidery frocks with pink Juliet caps, and carried baskets of lilies-of-the-valley, violets and smilax. Master Arnold McArthur, nephew of the bride, acted as ring bearer, carrying the ring on a silver salver.

The groom's presents to the flower girls were pearl solitaires and to the ring bearer a signet ring. (Only immediate friends were present and the ceremony a dainty luncheon was served, the table being tastefully decorated with roses, violets and smilax.

After luncheon Mr. and Mrs. Sands motored to Olds where they left by train for Winnipeg, Alta., the bride travelled in a tailored suit of dark champagne and hat of white milan straw with carrot brown plume shading to mauve. The presents were numerous and handsome.

The Review and friends here wish bride and groom all joys.
